

ASSEMBLYMEMBER RODRIGUEZ INTRODUCES THE 68TH DISTRICT NYCHA TRACKER

The 68th Assembly District has the highest concentration of public housing in the State, with 20 developments spanning across three miles of urban city blocks. Many times during the winter months, our New York City Housing Authority residents experience serious interruptions in heat and hot water services. As we continue to monitor NYCHA to ensure that they are providing safe and adequate housing, I am introducing a new NYCHA Tracker.

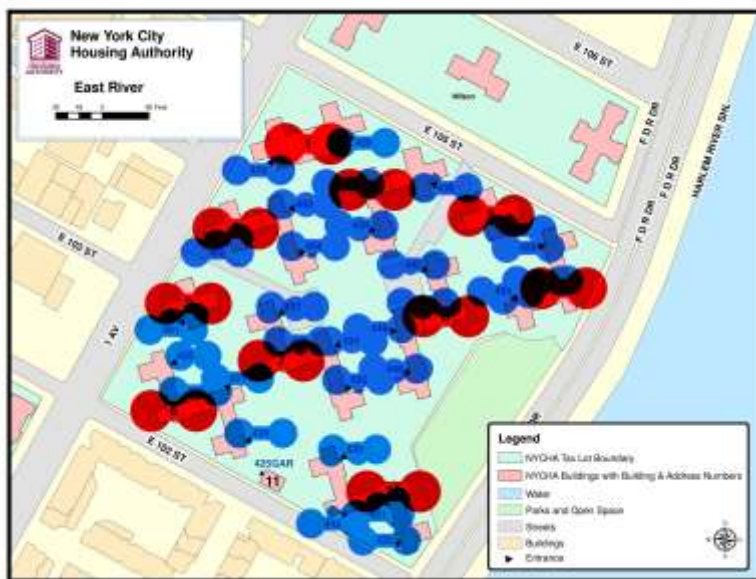

NYCHA Tracker is a weekly report to the people of East Harlem of heat and hot water service interruptions in the 68th Assembly District. The data is based solely on direct reports of interruptions from NYCHA and Tenant Associations communicated to my office. If you are a NYCHA resident and experiencing a heat or hot water outage please take the time to fill out an online survey regarding your experience at <https://goo.gl/forms/ydcuNzj979WwJsRJ2>.

NYCHA TRACKER REPORT

Reports from November 22, 2018- December 18, 2018

Weeks of 11/22/18-11/29/18

East River Houses reported that during the week all nine of its residential buildings experienced both heat and hot water interruptions and inefficiencies. Many of the residents indicated that while heat was on in their building it was not reaching the higher floors of their developments. Service restoration was indicated by NYCHA on 12/2/18.

Figures 1-6 are maps that illustrate heat and hot water outages reported to my office.

Key: **Red** dots=heat interruptions
Blue dots=hot water interruptions
