

Fighting For  
The Improvements  
**We Need**

To Keep Our  
**Power On**

A glowing lightbulb sits on a dark, textured wooden surface. The lightbulb is illuminated from within, casting a warm, orange glow. The wood grain is visible, and the overall scene is dimly lit, with the lightbulb being the primary source of light.

**“We pay some of the highest utility rates in the nation. No one should have to wait a week to turn the power back on. We deserve better, and I’m working to make that happen.”**

**– Assemblyman  
Kevin Byrne**

**Assemblyman Kevin Byrne knows that changes need to be made to prevent the power outages that have ravaged our community. That’s why this year, he:**

- 💡 Introduced legislation to increase transparency and accountability with utility companies and the cost of energy for consumers (A10782).
- 💡 Co-sponsored legislation that would create stricter guidelines to reduce power outages and improve resiliency and reliability within our energy grid (A10140).
- 💡 Advocated for upgrading our energy grid and transmission system.
- 💡 Played a critical role on the Executive Committee of United Westchester, a bipartisan coalition consisting of elected officials from the town, county, state and federal levels of government.
