FIGHTING FINANCIAL STRUGGLES

I have been hard at work with partners in Albany to help enact changes for the benefit of our economic future. You work hard, and you deserve a state that works hard for you.

Here are just a few of the proposals I am supporting

Savings While Shopping

I am supporting programs that eliminate sales tax on essentials like food and gas (A.1690)

Protecting Healthcare Benefits

I'm looking to ensure that your hard-earned benefits are not diminished or reduced after you retire (A.7866)

Property Tax Relief

I want to readjust Enhanced STAR income caps to help provide economic security to those with fixed incomes (A.2769)

Blocking Unfunded Mandates

I want to ensure this state does not look to impose unfunded programs on local governments, forcing them in turn to raise your property taxes (A.5447)

No More Passing The Buck

I want to empower local governments and taxpayers by offering them the choice to have the state pay for mandates fully, rather than see property taxes rise based on state order (A.5571)

Expanding Credits Earned

I want to support families facing financial crossroads by increasing the Earned Income Tax Credit while providing them the flexibility to choose how and when they receive this credit (A.9258)

Child Care Savings

I want to reduce the burden of fees associated with child care facilities and programs (A.9264)
