NEW BILL EXPANDING "TAKE ME HOME" PROGRAM (A.11614)

Every minute matters when someone goes missing.

Assemblyman Santabarbara introduced new legislation to create the New York State Take Me Home Program, a secure program that gives first responders quick access to critical information provided by families before an emergency happens. The program would include identifying details, communication needs, and other important information that could help law enforcement quickly find and return home people with autism, dementia, and others who may be at risk of wandering.

This legislation gives families greater peace of mind while providing first responders with another tool to respond quickly when every minute counts.
