## **JOSH KNOWS WE NEED STRONG LEADERSHIP NOW MORE THAN EVER AND HAS BEEN WORKING HARD TO BRING HIS “BACK TO BASICS” PRIORITIES TO ALBANY; *HERE’S WHERE WE START:***

**Greater accountability and oversight of state government (A2903):** To restore public trust and promote transparency, Josh aims to require monthly reports to the legislative office of fiscal transparency with written estimates for all executive orders and proposed rules that affect all towns. In other words; knowing what you’re paying for!

**Effective and efficient use of taxpayer dollars (A5893):** Because state spending has drastically grown<sup>2</sup>, Josh introduced a strict spending cap to end this pattern of boom-and-bust cycle budgeting and impose greater fiscal discipline on state government.

**Prioritizing public safety<sup>1</sup> (A5992):** In efforts to keep our communities safe and prevent repeat offenders, Josh has pushed for providing our judges more discretion so they can evaluate if a defendant is a public-safety risk when determining pre-trial release.
