OUR ASSEMBLYMAN

KEEPING OUR COMMUNITY SAFE

Our community thrives when we can live without the fear of crime, when our children can play safely outside and when our businesses can operate securely. This is why implementing and supporting comprehensive measures that protect all of us is my top priority. The following are steps I am taking to protect you and your loved ones:

Supporting Law Enforcement

Working to ensure that perpetrators of specified crimes against law enforcement officials face harsher punishments (A.3417)

Combating Crime

Expanded offenses that can be prosecuted as hate crimes, including gang assault, aggravated murder and numerous sex crimes (Chap. 55 of the Laws of New York State 2024)

Protecting Assault Victims

Fighting to require courts to consider if someone is a physical danger to others when issuing a securing order (A.9708)

Advancing Technology

Working to permit emergency medical services to transfuse blood products into patients during transport (A.5789-A)
