Like us, **Mark Johns** understands that the cost of living in New York keeps going up. That's why he is working hard to pass his **Real Reform legislative package** to cut the size and cost of state government, and to make sure those savings stay in our wallets.

Those savings can add up!

Mark Johns' Real Reform Plan to Save Our Money

Assemblyman Johns' plan could save New York taxpayers millions of dollars each year! That money could be spent on education, libraries, roads and infrastructure, public safety, or simply stay in our pockets by reducing state spending.

- **Cutting the size of the State Legislature by 2/3** would save millions in expenses annually (A.5731)
- **Two-year state budgets** would provide local governments and schools with greater stability and further reduce the need to bring state lawmakers to Albany (A.5733)
- **Mark's SOLE Act** (Single Opportunity for Legislative Equality) would enhance our democracy by ensuring Albany addresses the needs of all citizens – not just those from politically-powerful districts (A.5715)
- **Lawmakers and the governor should all be held accountable** and should not be allowed for vote themselves a raise outside of the state budget (A.6321)
- If Albany fails to take action on overwhelmingly popular public initiatives such as term limits, Mark believes the **people should have the power to pass the necessary laws** if their politicians aren't willing to do so (A.5938)

For more information on these bills or any other state issue, please contact Mark Johns:
