A SPECIAL LEGISLATIVE MESSAGE FROM ASSEMBLYMAN DAVID DIPIETRO.

David DiPietro is proud to be your voice in Albany by championing medical freedom, government accountability, and a healthier New York. He is dedicated to ensuring families have the right to make informed healthcare choices and believes in restoring confidence in health officials by requiring transparency regarding government overreach. With David, it's about protecting your rights and your health.

YOUR HEALTH, YOUR CHOICE - *Because Freedom Matters.*

Restore sincere religious exemptions so families can opt their children out of certain immunizations when attending school.¹

Bring back confidence in health officials by informing parents/guardians and patients of ingredients contained in vaccines, potential side effects and where to report adverse effects 48 hours prior to immunization.²

Permit parents to have autonomy over their child's vaccination schedule and require documentation to be provided to the child's school when they choose not to administer an immunization.³

Accountability for vaccine-related injuries from mandated shots by making the state liable for certain vaccine-related injuries.⁴

Prohibit mandatory COVID-19 shots for attending school, entering public buildings, employment, nursing home residency or receiving government services.⁵

Did you know?

New York is not directly liable for vaccine-related injuries because of federal law,⁶ which in turn limits pressure for safety measures and transparency.

Thousands of public workers lost their jobs for refusing COVID-19 shots.⁷

43 states and Washington D.C. allow religious exemptions for school vaccination requirements.⁸
