| 1 | CHAIRWOMAN KRUEGER: Good afternoon. |
|----|---|
| 2 | Welcome to Hearing {inaudible}. It is |
| 3 | 3:30 in the afternoon, and these are the |
| 4 | joint legislative budget hearings of the |
| 5 | Senate and the Assembly. |
| 6 | I am Senator Liz Krueger, the chair of |
| 7 | the Finance Committee in the Senate. I am |
| 8 | joined by many colleagues, but Helene |
| 9 | Weinstein, the chair of Ways and Means in the |
| 10 | Assembly. We will be cochairing today's |
| 11 | budget hearing. |
| 12 | Today is the fifth of 13 hearings |
| 13 | conducted by the joint fiscal committees of |
| 14 | the Legislature regarding the Governor's |
| 15 | proposed budget for state fiscal year |
| 16 | '21-'22. These hearings are conducted |
| 17 | pursuant to the New York State Constitution |
| 18 | and Legislative Law. |
| 19 | Today the Senate Finance Committee and |
| 20 | the Assembly Ways and Means Committee will |
| 21 | hear testimony concerning the Governor's |
| 22 | proposed budget for the New York State |
| 23 | Department of Labor, the New York State |
| 24 | Department of Civil Service, and the New York |

1 State Governor's Office of Employee

2 Relations.

| 3 | Following each testimony there will be |
|----|--|
| 4 | some time for questions from the chairs of |
| 5 | the fiscal committees and the other relevant |
| 6 | committees. I will now introduce members |
| 7 | from the Senate, and Assemblymember Helene |
| 8 | Weinstein, chair of the Assembly Ways and |
| 9 | Means Committee, will introduce members of |
| 10 | the Assembly. |
| 11 | Following, actually, Senator |
| 12 | Tom O'Mara, the ranking member of the |
| 13 | Senate Finance Committee, will introduce |
| 14 | members of his conference. |
| 15 | I want to say hello to everyone. |
| 16 | Welcome, you. I'm just going to go through |
| 17 | to see if I can find my Senate list. I see |
| 18 | Senator Shelley Mayer, Senator Andrew |
| 19 | Gounardes, Senator Borrello I believe I |
| 20 | did see him. Yes, George Borrello. Senator |
| 21 | John Mannion. Senator Ma excuse me, I'll |
| 22 | wait. Senator Pete Harckham. Senator Diane |
| 23 | Savino. Senator that might be it for now. |
| 24 | I'm going to pass it quickly to |

1 Tom O'Mara to introduce the Republican 2 members. 3 SENATOR O'MARA: Yes, thank you, Chairwoman Krueger. 4 5 We have Senator Borrello, who you mentioned, and Senator Mario Mattera has 6 7 joined us as well. I think that's all I saw 8 on our list. Thank you. 9 CHAIRWOMAN KRUEGER: And as more Senators join us, we will introduce them as 10 11 we go along, not to worry. 12 Back to you, Assemblywoman. CHAIRWOMAN WEINSTEIN: We have the 13 14 chair of our Labor Committee, Assemblywoman Joyner; chair of our Government Employees 15 Committee, Assemblyman Peter Abbate. We also 16 17 have Assemblymember De La Rosa and Assemblymember Steck. 18 Assemblyman Ra, chair -- ranker of 19 20 Ways and Means, will introduce the members of his conference that are here. 21 22 ASSEMBLYMAN RA: Thank you, 23 Chairwoman. We are joined by Assemblyman 24 Colin Schmitt, and Assemblyman Joe DeStefano,

- who is our ranking member on the Government
 Employees Committee.
- CHAIRWOMAN KRUEGER: Great, thank you.
 I'm sorry?
 CHAIRWOMAN WEINSTEIN: I see we've
 also been joined by Assemblywoman Jo Anne
 Simon. So now back to the Senate.
 CHAIRWOMAN KRUEGER: Thank you.
 So the rules of the road. The

government representatives each get 10 11 10 minutes to testify. The chairs of the committees get 10 minutes to ask them 12 questions. The rankers get five minutes to 13 14 ask them questions. And then everyone else gets three minutes to answer {sic}. And the 15 commissioner needs to give the answers within 16 17 those time frames as well. We'll walk through that a little bit later if we get 18 confused. 19 20 And so I'd like to first introduce

21 Commissioner Roberta Reardon, who is the
22 commissioner of the Department of Labor.
23 Good afternoon.
24 COMMISSIONER REARDON: Good afternoon.

1 Thank you. Chairs Krueger and Weinstein and distinguished members of each committee, 2 3 thank you for this opportunity to talk about some of the proposals that Governor Cuomo has 4 5 put forward in his Executive Budget, as well 6 as the work of the Department of Labor. My name is Roberta Reardon, and I am 7 8 the commissioner of the New York State 9 Department of Labor. I am proud to lead the department in carrying out its mission of 10 11 protecting workers, providing benefits to the unemployed, and connecting job seekers to 12 jobs. 13 14 This past year was a challenging one for all of us. However, the men and women of 15 the DOL, while pushed to the brink, went 16 17 above and beyond to help their fellow New Yorkers in their time of need, and they 18 remain dedicated to the vital work we do to 19 20 protect and assist all New Yorkers. We could not have tackled this crisis 21 22 without your help, the help of your staff 23 members, and those from our state workforce

24 who stepped up to assist. And from the

1 bo

bottom of my heart, I thank you.

2 Governor Cuomo has also been steadfast 3 in his leadership and in helping all of our agencies navigate this unprecedented pandemic 4 5 that no one saw coming. Every state has experienced an historic surge in unemployment 6 claims, and every state's system have been 7 8 pushed to the limit by this pandemic. But 9 few states have seen the magnitude that New York has. And in New York, we've moved 10 11 faster and more aggressively than any other state in the nation to get New Yorkers the 12 money they so desperately need. 13

14 To give you some context about this 15 crisis, since the COVID-19 pandemic began in early March the Department of Labor has paid 16 17 over \$65 billion in unemployment benefits to more than 4 million New Yorkers in just over 18 11 months. In 2019, we paid just 19 20 \$2.1 billion in total for the entire year. In that context, we have paid over 30 years' 21 22 worth of benefits in just over 11 months. 23 As taxing as this pandemic has been on

24 our systems and our DOL family, we embraced

those challenges head on and used the
 opportunity to thoroughly reevaluate best
 practices to better serve New Yorkers.

4 Our UI modernization project was 5 already underway, and because of that we were 6 in a better place than most states when this 7 crisis hit.

8 And because of the tsunami of claims 9 this crisis caused, we have refocused our efforts and implemented improved technology 10 11 and better procedures ahead of schedule, including building and launching a new online 12 unemployment application backed by Google 13 14 Cloud technology; providing a seamless application experience for Pandemic 15 Unemployment Assistance applicants weeks 16 17 ahead of other major states; launching a streamlined DocuSign process for submitting 18 backdated certifications, allowing 19 20 New Yorkers to get paid easier and faster; and expanding the number of DOL 21 22 representatives making and answering calls, from 700 to over 3,000 a day, to increase our 23 24 claims processing capacity.

1 We also learned how to better 2 communicate with our customers in real time 3 and in ways that they can understand, across multiple platforms, such as introducing an 4 5 updated and streamlined automated phone 6 system that better connects unemployed 7 New Yorkers with the help they need; 8 improving our online and social media 9 presence to get relevant information out to claimants as quickly as possible; 10 11 implementing an automated chatbot on our 12 website, which can answer New Yorkers' frequently asked questions in multiple 13 14 languages; and rolling out a system to directly text and email applicants the status 15 of their claim as it moves through the 16 17 approval process. And I'm happy to say there are more improvements coming. 18 Now, I would be remiss if I did not 19 20 mention the incredible work of DOL's Office of Special Investigations. During this 21 crisis it has prevented over \$5.5 billion 22 23 from falling into the hands of fraudsters by 24 identifying more than 425,000 fraudulent

Unemployment Insurance claims.

While much of our work and our staff 2 3 has been devoted to Unemployment Insurance for the last several months, our work as a 4 5 multifaceted agency never stopped, and now we are pivoting staff and resources back to 6 other parts of the agency. 7 8 One of our most critical priorities is 9 providing resourceful and innovative ways to help New Yorkers get back to work, and 10 11 finding creative solutions to help businesses thrive in a new world of work. 12 Within the last couple of weeks the 13 14 DOL took emergency measures to implement a 15 Partial Unemployment Insurance Program which bases New Yorkers' partial unemployment 16 17 benefits on the hours they actually work,

18 rather than on the number of days they work 19 in a given week. Under this new system, 20 unemployed New Yorkers who accept part-time 21 work will not be penalized, and it will also 22 help businesses fill part-time positions.

23 We've launched a new platform of24 virtual services. This includes Career Fairs

and a contract with Coursera to provide a
 free online training platform that offers
 nearly 4,000 programs and learning
 opportunities for the unemployed.

5 We remain committed to connecting New Yorkers with the jobs they love and jobs 6 that are available now. The DOL has more 7 8 than 120,000 jobs posted from all regions in the state, across all industries, on our Jobs 9 Express website at labor.ny.gov/jobs. We're 10 11 sending proactive recruitment emails as well as encouraging both businesses and unemployed 12 New Yorkers to utilize our Jobs Express 13 14 website.

And we are also working to ensure that New Yorkers are trained and ready to meet the needs of the new green jobs created by our emerging clean-energy sector.

19In addition to helping New Yorkers get20back to work, we've been hard at work on21other important DOL initiatives. Thanks to22Governor Cuomo's proactive agenda to empower23workers and protect the health of24New Yorkers, they can begin using sick leave

benefits under the state's nation-leading paid sick leave law. Prior to the law's passage, approximately 1.3 million New Yorkers did not have access to paid sick leave, forcing them to either take unpaid leave and risk losing their jobs or show up to work while sick.

8 As a member of the New York State 9 Climate Action Council and cochair of the Just Transition Working Group, I am working 10 11 aggressively with my fellow members on a comprehensive plan to achieve the state's 12 bold clean energy and climate agenda. I 13 14 applaud Governor Cuomo for the progressive "green energy economy" he outlined in this 15 year's State of the State, which will 16 17 complement our efforts to build a better future and a greener footprint for all 18 New Yorkers. 19

20 The Department of Labor is committed 21 to protecting workers and leveling the 22 playing field for all businesses, including 23 our farm laborers and employers in the 24 agricultural community. Under the Farm

1 Laborers Fair Labor Practices Act, I convened 2 a Farm Laborers Wage Board. The board held 3 five public hearings to hear testimony on overtime work. Due to the COVID-19 pandemic 4 5 and the current economic climate, the board recommended a pause on any actions, with a 6 call to reconvene the wage board by the end 7 8 of 2021.

9 2020 pushed many state agencies to their limits, including the Department of 10 11 Labor. However, we rallied together to weather this enormous storm, got the job done 12 ahead of most states, and frankly, overall, 13 14 it made us better as an agency. We recognize 15 that there's more to come, and we're prepared to meet those challenges. We've learned many 16 17 valuable lessons that have strengthened us as an agency. We've improved our communication 18 and our technology. We have a new, renewed 19 20 vigor and focus, and we have more initiatives to come. 21

22 Our mission has always been to do
23 whatever it takes to help New Yorkers.
24 throughout this pandemic, we have gone above

| 1 | and beyond to deliver on that promise, and we |
|----|---|
| 2 | will continue to do just that. |
| 3 | CHAIRWOMAN KRUEGER: You didn't even |
| 4 | use your 10 minutes, Commissioner. |
| 5 | COMMISSIONER REARDON: I know. |
| 6 | CHAIRWOMAN KRUEGER: You get extra |
| 7 | points. Thank you. |
| 8 | COMMISSIONER REARDON: I saved them |
| 9 | for you. |
| 10 | (Laughter.) |
| 11 | SENATOR RAMOS: I'll take them! |
| 12 | CHAIRWOMAN KRUEGER: Exactly. |
| 13 | Our first questioner will be our Labor |
| 14 | Chair, Senator Ramos, who has 10 minutes. |
| 15 | SENATOR RAMOS: Thank you, Chair |
| 16 | Senator Krueger. Commissioner Reardon, it's |
| 17 | good to see you. |
| 18 | It's true, we've gone through very |
| 19 | difficult times here in the state, and you |
| 20 | have gone through very difficult times. I |
| 21 | think you've done the best you can with what |
| 22 | you've been given. And why we're here is to |
| 23 | talk about how you haven't been given enough, |
| 24 | and how we need to advocate for more. |

I actually want to begin by talking 1 2 about partial unemployment. We passed the 3 bill a few weeks ago in the Senate, but the administration has repeatedly said that they 4 5 can't implement the new PUI system for at 6 least a year because of the agency's 7 antiquated computer systems. This was the 8 same issue that we had with Unemployment 9 Insurance when folks were making their claims at the peak of the pandemic the most. 10

11 Other states, like Georgia, have been 12 able to update their computers and implement 13 complete partial UI reforms. Why is New York 14 moving so much slower than other states to 15 make these long-overdue fixes? And why would 16 it possibly take a year to implement these 17 needed reforms?

18 COMMISSIONER REARDON: So there's 19 actually two parts to the partial 20 unemployment fix, as it were. The first part 21 is the executive order that allows people to 22 start certifying for partial unemployment, 23 and they started certifying -- I believe it 24 was last week was the first week they could

start certifying for that.

2 The final fix, which is to rewrite our 3 law, will take place in the budget, hopefully, and then will be coded into the 4 5 new UI system when it goes live the last 6 quarter of 2022. 7 So it's a little confusing, because 8 it's not that it can't be implemented. The 9 executive order, which is an emergency order, is taking place right now. And in fact 10 11 people are able to qualify for this now. The final fix can't go into the mainframe system 12 until we -- you know, we redo the whole 13 14 system. So it's actually two parts. But people are certifying for partial 15 unemployment now. 16 17 SENATOR RAMOS: So, Commissioner, the interim partial UI policy that has been 18 implemented disadvantages workers whose hours 19 20 don't always correspond with their earnings. So for example, a taxi driver who is 21 on the clock for 12 hours but only has 22 customers for, say, six hours, would still 23 24 lose 50 percent of his benefits. How are

workers supposed to make up for 1 2 lower-than-expected earnings when each hour 3 on the clock means they lose more benefits? COMMISSIONER REARDON: So first of 4 5 all, taxi drivers are independent 6 contractors, so they would not qualify as 7 employees for standard UI. 8 SENATOR RAMOS: Well, we're going to fix that. 9 COMMISSIONER REARDON: Under the CARES 10 11 Act they might be able to qualify for PUA, 12 but they would not qualify for strict unemployment. 13 14 SENATOR RAMOS: Okay. Okay. But if 15 you can answer the question -- you know, a barista. 16 17 COMMISSIONER REARDON: So we -- this fix is there to allow people to work 18 part-time and collect partial unemployment. 19 20 We have to have some kind of metric to do that. 21 22 Right now we have the table -- I have 23 it here somewhere. I'm sure you know it by 24 heart. Zero to four hours, there's no ding

| 1 | on your benefits at all, and then it goes up |
|----|---|
| 2 | by increments. You can't earn more than 504 |
| 3 | or you'll lose your entire benefit anyway. |
| 4 | But this is a way to allow people to |
| 5 | have some partial work and some partial |
| 6 | unemployment. |
| 7 | SENATOR RAMOS: Right. So you |
| 8 | recently issued the order on PUI that |
| 9 | converts hours into days of work. We've |
| 10 | heard from workers that are confused about |
| 11 | how to count the hours that they are working, |
| 12 | since they are often spending a lot of time |
| 13 | waiting to work or provide services. |
| 14 | Have you or will you issue guidance on |
| 15 | how ride-share, even gig workers should be |
| 16 | counting their hours of work? |
| 17 | COMMISSIONER REARDON: I think that we |
| 18 | are doing as much as we can within the |
| 19 | existing law. We have a lot of direction up |
| 20 | on the website. And, you know, if you have |
| 21 | somebody in particular who's having an issue, |
| 22 | of course reach out to us, we'd like to be |
| 23 | able to talk to them about it. |
| 24 | But we are trying to make this work as |

| 1 | best we can within the existing law. |
|----|--|
| 2 | SENATOR RAMOS: Thank you. |
| 3 | I wanted to also ask about |
| 4 | unemployment overpayments. Many claimants |
| 5 | have been issued notices that they have to |
| 6 | pay back federal benefits which they've |
| 7 | received due to mistakes that the DOL made, |
| 8 | not the claimants. There's supposed to be a |
| 9 | process where claimants can apply for a |
| 10 | waiver, but that application is not yet |
| 11 | available. |
| 12 | When will the waiver application be |
| 13 | made available for workers here in New York? |
| 14 | COMMISSIONER REARDON: We are working |
| 15 | on that waiver as we speak. |
| 16 | I should note that overpayments |
| 17 | there's a federal regulation that requires |
| 18 | all federal monies that have been overpaid, |
| 19 | whether through an intentional action or an |
| 20 | unintentional mistake, has to be repaid to |
| 21 | the federal government. We can't you |
| 22 | know, we are working within those guidelines |
| 23 | from the feds. |
| 24 | SENATOR RAMOS: So when so when? |

COMMISSIONER REARDON: We are
 developing the waiver right now, but we also
 send out these -- we've sent out these
 overpayment statements frequently.

5 SENATOR RAMOS: Okay. All right. I'm 6 looking forward to it. I'll stay on top of 7 it.

8 I've also heard from my constituents 9 that have been trying for weeks and in some cases even months to sign up for unemployment 10 11 benefits but have had problems receiving it 12 for various reasons. What has the state done since the beginning of the pandemic to 13 14 modernize and speed up the process of filing 15 for unemployment? What's the average wait time about now? And what other changes are 16 17 you looking to make in order to improve the efficiency of your system? 18

19COMMISSIONER REARDON: So that is a20great question. And as you know, at the21beginning of this pandemic we were crushed by22the millions, literally millions of claims23that came in within three weeks. To date, we24have paid out \$65 billion in benefits to over

4 million New Yorkers. And we are very proud

2 of that number.

I know to the person who's struggling to get their correct monetary determination that remains to be a problem. But we have increased all of our technology.

As I said in my opening statement, we
are now using chatbots in I think nine
different languages to help people understand
the frequently asked questions.

11 We've improved our IVR system so that we'll look at the date of the claim. If you 12 have an old claim, you'll get moved to the 13 14 front of the line. It directs people to the appropriate agents for the kinds of questions 15 they ask. We have other technology that's 16 17 being developed -- dashboards for our agents. It used to be that because it's a mainframe, 18 an agent, in order to search an individual's 19 20 work history, which is why it takes so long, would have to go into the mainframe and 21 22 manipulate it manually -- I mean, on a 23 keyboard. But it's a black screen. It takes 24 forever. So we are updating that.

| 1 | We've got bots. We've got new |
|----|---|
| 2 | we're developing a new single-service frame |
| 3 | for all the telephone operators to work from. |
| 4 | As you can imagine, to say that it's building |
| 5 | the airplane while you're flying it doesn't |
| 6 | quite touch how crazy |
| 7 | SENATOR RAMOS: That's how government |
| 8 | works. |
| 9 | COMMISSIONER REARDON: Yes. And in a |
| 10 | pandemic, it's a very difficult thing to do. |
| 11 | SENATOR RAMOS: Indeed. Well, I only |
| 12 | have a little less than three minutes, so I |
| 13 | want to ask you one more on this round, on |
| 14 | unemployment. |
| 15 | So between state UI and federal |
| 16 | benefits, claimants can currently receive up |
| 17 | to 70 weeks of benefits. Those ineligible |
| 18 | may be eligible for PUA, for up to 57 weeks. |
| 19 | Are you aware that there are thousands of |
| 20 | unemployment claimants who have been |
| 21 | improperly put into PUA when they are |
| 22 | actually eligible for New York State |
| 23 | Unemployment Insurance? What's the DOL doing |
| 24 | to deal with this problem, given that |

1 claimants could be losing up to 13 weeks of
2 benefits?

| 3 | COMMISSIONER REARDON: We have a |
|----|---|
| 4 | system if somebody wants to dispute either |
| 5 | the amount of their benefit or the way that |
| 6 | their benefit is assigned. They can dispute |
| 7 | it and if it doesn't work, they can ask for a |
| 8 | hearing. That is a standard process, and |
| 9 | everybody is free to go through it. |
| 10 | SENATOR RAMOS: All right. I guess I |
| 11 | have time for one more. |
| 12 | What's the DOL doing to plan for these |
| 13 | large numbers of reapplications you know, |
| 14 | I'm thinking about the benefit year expiring |
| 15 | in the beginning of March. All those |
| 16 | claimants will need to reapply for the |
| 17 | benefits at that time. What's the DOL doing |
| 18 | to plan for these large numbers of |
| 19 | reapplications, given what happened with the |
| 20 | computer system crashing at the beginning of |
| 21 | the pandemic in March and then in April |
| 22 | again? |
| 23 | COMMISSIONER REARDON: Yes. Well, |
| 24 | it's actually |

1 SENATOR RAMOS: Or is the computer 2 going to crash again now that everybody's 3 going to have to reapply?

4 COMMISSIONER REARDON: That's a 5 wonderful question. One of the things we did 6 was improve the entryway into the system so 7 it's now on the Google Cloud, which can scale 8 up infinitely.

9 One of the reasons the mainframe 10 crashed is it could only handle so much 11 traffic at a time; that's what a mainframe 12 does. So we've already resolved that 13 particular issue.

14 We are working on other tech fixes 15 because we are painfully aware of these deadlines. We are also very hopeful that the 16 17 Biden administration will pass another CARES Act or some other version that will extend --18 we're hearing it might extend it to 19 20 September. So all of this is being done at the same time. 21

22 PUA people don't need to reapply; they 23 are seamlessly going into their extended 24 benefits. If your year ends, then you have

1 to reapply. But, you know, we are looking at 2 all of this.

| 3 | What has been happening, and it |
|----|---|
| 4 | happened in the recession in 2008-2009, the |
| 5 | federal government watches the economy and |
| 6 | they decide people will still need benefits |
| 7 | for X period of time, and they extend the |
| 8 | benefits. Ultimately, in 2008-2009, it was |
| 9 | 99 weeks of unemployment. So we are watching |
| 10 | this carefully to make sure to see what |
| 11 | happens. We are very hopeful that they will |
| 12 | pass the law that they're looking at right |
| 13 | now, which would extend benefits into |
| 14 | September. |
| 15 | SENATOR RAMOS: All right. Well, |
| 16 | thank you, Commissioner. |
| 17 | And Chair Krueger, sign me up for a |
| 18 | second round if it's available. Thank you. |
| 19 | COMMISSIONER REARDON: Thank you. |
| 20 | CHAIRWOMAN KRUEGER: Thank you. |
| 21 | Second rounds are available to chairs. |
| 22 | Assembly. |
| 23 | CHAIRWOMAN WEINSTEIN: And we go to |
| 24 | our Labor chair, Assemblywoman Latoya Joyner. |

| 1 | ASSEMBLYWOMAN JOYNER: Okay, thank |
|---|---|
| 2 | you. And good afternoon, Commissioner. Good |
| 3 | to see you. |
| 4 | COMMISSIONER REARDON: Good afternoon. |
| 5 | Nice to see you. |

6 ASSEMBLYWOMAN JOYNER: I want to thank 7 everybody for participating in today's budget 8 hearing. As we all know, 2020 was a 9 difficult year for everyone, including all 10 New Yorkers, and has left scars on our 11 economy that have yet to fully heal.

12 I also want to echo the sentiments that were previously raised. Many of my 13 14 constituents, you know, faced difficulties accessing the filing system, many still, you 15 know, without the ability to get the funding 16 17 that they're owed from March. So I'm also echoing that, you know, DOL -- we love the 18 partnership of stepping up to resolve these 19 20 claims in a very timely manner.

21 My first question is regarding the UI 22 unemployment benefits. We're facing a 23 historic unemployment spike, as you know, 24 with New York borrowing \$10 billion from the

1 federal government. Do you know what
2 employers should expect their maximum rate
3 should go up by as a result of the state's
4 negative balance in the UI trust fund?

5 COMMISSIONER REARDON: So first I want 6 to congratulate the Legislature for working 7 with us after the 2009 recession, because you 8 passed UI reform, which was very, very 9 important in strengthening the trust fund.

10 So we came into this pandemic with a 11 \$2.6 billion balance in the trust fund, which 12 at the time, of course, was thought to be 13 very healthy. Then the pandemic happened and 14 then we had to start borrowing eventually.

15 Forty-seven percent of the states are currently borrowing or have put in the 16 17 paperwork to borrow, so we're hardly alone in that piece of it. We have been fortunate, 18 the federal government last year in the CARES 19 20 Act, the Congress allowed the interest to be 21 waived on these loans, so that helped 22 businesses.

And I should point out thatthree-quarters of the \$65 billion being paid

out, of course, is federal funds. So that
 does not fall on New York State employers at
 all.

We are looking, we're getting ready to 4 5 do next year's rates on unemployment. My recent order to alleviate the charges for 6 last year for pandemic unemployment against 7 8 the employers will be very helpful. We 9 understand that many businesses had no choice but to close, so they weren't forcing their 10 11 workers out into unemployment, it happened to all of them. So there will not be a charge 12 for pandemic unemployment the way there would 13 14 have been under normal unemployment.

15 The rates will go up because there is, 16 you know, this loan balance. But we don't 17 know what the amount will be yet, we're still working on it. And we're very hopeful that 18 the Biden administration will help with 19 20 either eliminating the interest or, more 21 importantly, eliminating some, at least, of this burden for all the states. 22 23 ASSEMBLYWOMAN JOYNER: Okay, and

24 that's the follow-up question regarding the

| 1 | interest assessment surcharges. Should |
|----|---|
| 2 | employers expect to pay that as a one-time |
| 3 | payment at the end of the year, will it be |
| 4 | done quarterly? What arrangement do you |
| 5 | foresee at this time? |
| 6 | COMMISSIONER REARDON: I really don't |
| 7 | know at this point, to be honest. I'd have |
| 8 | to get back to you on that. |
| 9 | ASSEMBLYWOMAN JOYNER: Okay. And then |
| 10 | I also want to echo what you said in terms of |
| 11 | being on the record of, you know, asking the |
| 12 | federal government to provide total |
| 13 | forgiveness of all expenses during this time |
| 14 | related to the pandemic. |
| 15 | My other question is regarding |
| 16 | workforce development. This budget provides |
| 17 | for 50 million for COVID-19 recovery |
| 18 | workforce the Recovery Workforce |
| 19 | Initiative. Can you explain a little bit |
| 20 | more about this? |
| 21 | It sounds like a very great idea, but, |
| 22 | you know, we're always curious about the |
| 23 | details. So basically, what's the source of |
| 24 | the revenue for this program? How will it be |

- 1 distributed? And how can people participate
- 2 in this new initiative?

3 COMMISSIONER REARDON: So this program 4 is actually being run by the Governor's 5 Office of Workforce Development on the 6 Executive Chamber level. It's a relatively 7 new office from several years ago.

8 And I should point out that workforce 9 development, while we like to claim at the 10 Department of Labor that it's all ours, it 11 isn't really. There are other pieces of 12 agencies that also do workforce development. 13 And we depend on all of our partners to do a 14 good job for everybody in the state.

15 The Governor's Office actually is the 16 coordinator of all of these programs. So ESD 17 works with them, DOL works with them, other 18 places -- you know, OCFS has a program, OTDA 19 has a program. So we all work together, and 20 it's more coordinated that way. So it's 21 great.

22 We often -- the role that the DOL 23 often plays in these kinds of programs is 24 we're a connector. We have 4 million people

that are in our system from unemployment. 1 2 They are all people looking for work, 3 potentially -- now some of them have probably gone back to work. But we have all of their 4 5 information. So we are great resource as 6 these programs begin to roll out. As 7 companies say, I'm opening this kind of 8 company, I need workers with these kinds of 9 skills, we can look in our talent bank and assess who do we have in that region who has 10 11 skills or skills-adjacent that, with a little bit of training, could be ready for those 12 jobs. 13

14 So we have a lot of on the ground -boots on the ground work that we do in these 15 kinds of programs. This is a very large 16 17 program, obviously, and it is still -- the details are still being worked out. It's 18 very exciting. You know, we understand 19 20 intimately what it's like to have people on 21 unemployment, and what we really want to do, 22 along with all of our partners in the state 23 and in the communities, is make sure they get 24 training that they need and they get

connected to good family-sustaining jobs.

ASSEMBLYWOMAN JOYNER: Right, thank
you. And we really would appreciate more
details on this.

5 You know, there's been other 6 initiatives that the Governor has proposed, 7 such as in 2018 this new Office of Workforce 8 Development, which was for \$175 million, for 9 the Workforce Innovation and Opportunity Act.

You know, I just would like more 10 11 clarification of what are these initiatives currently doing to address the need to help 12 rebuild our economy, especially with our 13 14 retraining folks to get back into the 15 workforce. Especially now, during this COVID-19, everybody has had to pivot, so how 16 17 have these initiatives been stepping up to 18 the plate during this time.

19COMMISSIONER REARDON: Right. So, you20know, with a lot of the workforce development21grants that we do, they're across the state,22they're often retraining or up-skilling for23workers. Sometimes it's incumbent workers,24sometimes it's new workers. And in some of

those cases with WIOA, we are actually the
 authority that takes the federal funds from
 the federal government and approves it, you
 know, for a local program.

5 They're extremely varied. Many of 6 them are very local. But they're great 7 opportunities for communities to come 8 together around their needs.

9 I'd be happy to have, you know, a more 10 detailed conversation, particularly about 11 what your district is doing, because it's 12 very exciting work. Even through the 13 pandemic, these people did not stop thinking 14 about how can we retrain people, how can we 15 put people back to work.

One of the great things for us with 16 17 the new virtual services that we're doing, we're able to work with our customers on the 18 phone and on the Web. We have virtual Career 19 20 Fairs up now, and soon we'll have a Virtual Career Center available. And that's going to 21 22 be able to give people a lot more robust 23 support. They will never replace our highly 24 valued and highly skilled and trained Career

| 1 | Center workers, but it will free them from |
|----|---|
| 2 | perhaps more monotonous work and allow them |
| 3 | to spend more time working directly with the |
| 4 | customers when we can gather again |
| 5 | face-to-face. |
| 6 | ASSEMBLYWOMAN JOYNER: So I'm sure I |
| 7 | join with many of my colleagues in wanting to |
| 8 | see how this is showing up in each of our |
| 9 | districts. |
| 10 | COMMISSIONER REARDON: I'd love to |
| 11 | have that conversation. |
| 12 | ASSEMBLYWOMAN JOYNER: So with the |
| 13 | federal CARES funding, how much has the |
| 14 | agency received? And what has been done with |
| 15 | the funding? |
| 16 | COMMISSIONER REARDON: So the CARES |
| 17 | Act comes to the DOL in lots of different |
| 18 | ways. We have five new federal Unemployment |
| 19 | Insurance benefits that were authorized by |
| 20 | the CARES Act, so Pandemic Unemployment, PUA, |
| 21 | Extended Benefits, which was paid for by the |
| 22 | federal government. The Pandemic |
| 23 | Unemployment Compensation was paid for. Lost |
| 24 | Wages was a short program that the Trump |

| 1 | administration ran of \$300 a week; that was |
|----|---|
| 2 | late August, early September. FPUC, which |
| 3 | was the \$600 a week that everybody got until |
| 4 | it ended in July, and now the \$300 that's |
| 5 | been reauthorized. |
| 6 | So a lot of the CARES Act money comes |
| 7 | to us through the Unemployment Insurance |
| 8 | program, and then of course we get |
| 9 | administrative money on top of that. |
| 10 | ASSEMBLYWOMAN JOYNER: All right. One |
| 11 | last question with this round. |
| 12 | So the Executive Budget is proposing |
| 13 | to require all employees up to four hours |
| 14 | paid leave to receive vaccine injections. |
| 15 | Some companies, like Instacart, have been |
| 16 | offering stipends to help offset wage loss |
| 17 | during this time to go and get vaccines. How |
| 18 | does the department plan to encourage other |
| 19 | companies to offer similar incentives? |
| 20 | COMMISSIONER REARDON: You know, I |
| 21 | hadn't really thought about that in |
| 22 | particular to this instance, but of course we |
| 23 | work all the time with employers, giving them |
| 24 | support on COVID issues. We communicate with |

```
them constantly. There's been -- at the
1
            beginning there was a lot of confusion about
 2
 3
            how do I make my place safe for people to
            work in, what are the rules, what are the
 4
 5
            leave rules.
 6
                   So we can certainly talk to them about
 7
            that as well.
 8
                   ASSEMBLYWOMAN JOYNER: Okay, thank
 9
            you.
                   CHAIRWOMAN WEINSTEIN: Thank you.
10
11
                   We go to the Senate.
12
                   CHAIRWOMAN KRUEGER: Thank you very
            much. And we have our chair of Civil
13
14
            Service, Andrew Gounardes, but he has five
            minutes for this commissioner.
15
                   SENATOR GOUNARDES: Great. Thank you
16
17
            very much, Senator Krueger.
                   Hi, Commissioner. How are you? A lot
18
            of my questions were already asked, but I do
19
20
            have a couple of quick things I wanted to
            touch on.
21
                   Number one, following up on the
22
            Assemblywoman's questions about -- and your
23
24
            comments about workplace safety and working
```

with employers. Can you tell us how many
 complaints the Department of Labor received
 over the last year about workplace safety as
 it relates to COVID regulations and
 guidelines, through your website?

6 COMMISSIONER REARDON: We received 7 over 36,500 complaints on the COVID hotline. 8 And I'm very happy to say that approximately 9 80 percent of those complaints were resolved 10 with compliance.

11 Particularly at the beginning, as you can imagine, there was a lot of confusion 12 about can I stay open, should I close, what 13 14 kinds of protections do I have to provide, can people not come in if they don't feel 15 safe. So we did a lot of work with employers 16 17 and explained a lot of the new regulations. And for the most part, as you can see, over 18 80 percent of them complied. 19

20 You know, I think most employers want 21 to have a safe workplace. They don't want to 22 get sick, they don't want their customers to 23 get sick, and they certainly don't want to 24 lose their employees.

1 For the employers who were 2 recalcitrant and refused to adapt to the new 3 rules, we would refer them to county or local authorities who have legal opportunities to 4 5 enforce these rules. But over 80 percent of 6 them were good players and happy to have the 7 help. 8 SENATOR GOUNARDES: Great, thank you. 9 And could you give us a sense of those complaints, how many were, you know, in the 10 11 first, let's say, three months of the pandemic, how many were in the last three 12 months? Do you have any of that --13 14 COMMISSIONER REARDON: I don't have that here. I could find it for you. I would 15 be willing to bet that there were more in the 16 17 first three months than there were later. But, you know, let's get you a number. 18 SENATOR GOUNARDES: All right, that 19

would be great, just to see how people were
complying as you guys were preparing.
Long-term, we want to make sure that people
are staying vigilant. And, you know, I know
that that's the source of some of the

legislation that we are already working on in
 the Legislature to ensure workplace safety
 and protections moving forward.

4 Can you tell me, how many of your
5 department's employees have been brought back
6 to work? Are they all remote? Are they back
7 in person? Is there a mix? Can you give us
8 a sense?

9 COMMISSIONER REARDON: So at the beginning the majority, the overwhelming 10 11 majority of DOL workers worked remotely. We were very fortunate because we had already 12 piloted a remote working program so that we 13 14 had some of the -- we didn't have all of it, we had some of the laptops, the phones and 15 all of that available. And some of our 16 17 workers already knew how to do it. And we 18 had a plan.

19So we were able to roll that out20relatively -- relatively easy. And a lot of21people have remained remote for a long time.22People are beginning to come back into the23building, often for just one day a week, to24check in with their group and, you know,

| 1 | check in with their supervisors. We have |
|----------|---|
| 2 | we have employees who have always worked in |
| 3 | the building. I have been physically in |
| 4 | Building 12 in Albany since March; I go home |
| 5 | on the weekends. But I and my senior staff |
| 6 | have all been here. |
| 7 | And we take incredible precautions: |
| 8 | masks, hand washing stations. We have a |
| 9 | everybody if you're coming into the |
| 10 | building, you must even if you're a |
| 11 | visitor, you have to fill out the |
| 12 | questionnaire, there's a temperature station. |
| 13 | And we tell all of our workers, |
| 14 | please, if you do not feel well, don't come |
| 15 | to work. Because it's not good for you and |
| 16 | it's not good for the rest of us. And for |
| 17 | the most part, people are really good about |
| 18 | it. |
| | |
| 19 | They you know, it is Building 12 |
| 19 20 | They you know, it is Building 12 and New York City, of course, are our two |
| | |
| 20 | and New York City, of course, are our two |
| 20 21 | and New York City, of course, are our two largest offices, but we have 96 Career |

come in and do back-office work, but we're
 not going to open to the public until we know
 it's safe to gather.

SENATOR GOUNARDES: Great. If you can 4 5 just give us a general sense -- I understand 6 that it's a fluctuating number. You know, is 7 it 15 percent of employees have come back, is 8 it 85 percent? You know, even if it's one 9 day a week, two days a week. I'm just curious to see -- you know, as a lot of 10 11 government agencies have announced plans to return back to work, I'm curious to see where 12 you're at with your workforce. 13 14 COMMISSIONER REARDON: You know, I'd 15 have to get you that number. I don't actually know what the percentage is. You 16 17 know, anecdotally I know that there are more people in Building 12 now than there were two 18 months ago, on a rotating basis, but I 19 20 don't -- I'll get you a number. 21 SENATOR GOUNARDES: Sure, great. 22 And just the last question before my 23 time expires, last year we passed and the

Governor signed Chapter 168, which requires

24

| 1 | all public agencies to put forth workforce |
|----|--|
| 2 | safety plans that are made publicly |
| 3 | available, in coordination with, you know, |
| 4 | employee representatives. Can you give us an |
| 5 | update and those are supposed to be done |
| 6 | by April 1st of this year. |
| 7 | Can you give us a sense as to where |
| 8 | the department's plans are in the planning |
| 9 | process and whether |
| 10 | COMMISSIONER REARDON: So |
| 11 | SENATOR GOUNARDES: you'll meet the |
| 12 | April 1st deadline. |
| 13 | COMMISSIONER REARDON: The acronym is |
| 14 | COOP, and we are all over it. I think we |
| 15 | have submitted it to our deputy secretary. |
| 16 | If she doesn't have it now, she'll have it |
| 17 | soon. It's an important thing to do. |
| 18 | SENATOR GOUNARDES: Great. Great, |
| 19 | thank you. |
| 20 | CHAIRWOMAN KRUEGER: Okay, thank you |
| 21 | very much. Assembly? |
| 22 | CHAIRWOMAN WEINSTEIN: We go to, |
| 23 | actually, for three minutes, Assemblyman |
| 24 | Schmitt. |

CHAIRWOMAN KRUEGER: And as he's
 turning on his mic, we've been joined by
 Senator Tedisco as well. Thank you.

ASSEMBLYMAN SCHMITT: Thank you,
Chairwoman. Thank you, Commissioner, for
making the time for us today. Sorry, we're
juggling several Zooms at once here.

8 COMMISSIONER REARDON: I understand. 9 ASSEMBLYMAN SCHMITT: I appreciate our 10 conversation at the beginning of the pandemic 11 with the concern a lot of my constituents 12 had, and I know you and your employees have 13 been overworked with the influx that none of 14 us were expecting.

15 I had a couple of questions. Mainly, 16 I've read recently about California having 17 massive issues with pandemic UI fraud, over 18 \$11 billion confirmed, over \$19 billion 19 suspected. What are the numbers that we're 20 concerned with here in New York when it comes 21 to that?

22 COMMISSIONER REARDON: So let me just
23 give a little bit of background on this.
24 There's always fraud in the UI system.

Usually it's more home-grown, somebody files 1 2 for 10 people at their address. It's 3 relatively easy to find. And in the old UI system, you had to have income that we could 4 5 see. So, you know, your employer had to 6 register your wages, we could look at it, we 7 could -- you know, it was very, very 8 transparent. And fraud was much easier to 9 find. With Pandemic Unemployment Insurance, 10

all you had to do for PUA was to self-attest, I am -- basically, I am eligible for this insurance, and to make it very simple, you would get it. We didn't have a lot of the doors that you had to go through.

The fraudsters immediately figured 16 17 this out. Plus, I should point out, the FPUC payment of \$600 a week, plus if you could get 18 the top 504, you could pull in 1104 a week in 19 20 one fraudulent claim. So there were international fraud crime syndicates that 21 22 have come into this market, and they have 23 been very smart about it, they went into the Dark Web and they bought people's identity, 24

down to your last two employers. They had 1 identity that you could use for a straight-up 2 UI claim. So it was a very big problem. 3 We have -- you know, we have worked 4 5 very hard with this. And to be very clear, 6 at the beginning the CARES Act was signed 7 March 28th, I think. The very first federal 8 guidance for how to administer it didn't come 9 until April 7th --ASSEMBLYMAN SCHMITT: I'm sorry to 10 11 interrupt, I've just run out of time and I 12 want to make sure I get to the --13 COMMISSIONER REARDON: Oh, sorry 14 {inaudible overtalk}. ASSEMBLYMAN SCHMITT: Do you have a --15 I know -- do you have a rough estimate of --16 17 COMMISSIONER REARDON: \$9.5 billion 18 prevented. ASSEMBLYMAN SCHMITT: Prevented. Do 19 20 you know how much are you still concerned with? 21 COMMISSIONER REARDON: We -- that's 22 23 kind of a rolling number. We've got some 24 great new technology that's coming in that's

going to help us even more. But we do know
 9.5 prevented.

| 2 | J.J prevencea. |
|----|--|
| 3 | ASSEMBLYMAN SCHMITT: Prevented. And |
| 4 | when are you prepared to release how much |
| 5 | that wasn't prevented, like these other |
| 6 | states Ohio, California, Kansas |
| 7 | COMMISSIONER REARDON: Yeah, I'm going |
| 8 | to have to see what we've got. Remember, |
| 9 | this is \$65 billion went out the door, so |
| 10 | it's a remarkably small amount, considering. |
| 11 | But yes. |
| 12 | ASSEMBLYMAN SCHMITT: So what am I |
| 13 | supposed to tell my constituents if they |
| 14 | start getting 1099s that are fraudulent |
| 15 | COMMISSIONER REARDON: If it's |
| 16 | fraudulent, they call us. Absolutely, let us |
| 17 | know. |
| 18 | ASSEMBLYMAN SCHMITT: Thank you. |
| 19 | CHAIRWOMAN KRUEGER: Thank you. |
| 20 | Next is Senator Borrello. |
| 21 | George, are you there? |
| 22 | SENATOR BORRELLO: Can you hear me? I |
| 23 | can't turn my video on, but |
| 24 | CHAIRWOMAN KRUEGER: Okay, we can hear |

1 you.

2 SENATOR BORRELLO: Okay, hello. COMMISSIONER REARDON: Hi. 3 CHAIRWOMAN KRUEGER: There you are. 4 5 COMMISSIONER REARDON: There you are. 6 SENATOR BORRELLO: All right. Yes, 7 thank you, Commissioner. Thanks for being 8 here today. 9 I will get right to my question. First of all, I'm certainly glad to see that 10 11 you went to calculating unemployment based on 12 hours and not days. That's a big help to business owners as well as people that are 13 14 partially unemployed. COMMISSIONER REARDON: You're welcome. 15 SENATOR BORRELLO: (Laughing.) But 16 17 when it comes to paid sick leave, this is kind of the same situation. You have 18 employers who employ people that are 19 20 part-time, you have seasonal businesses and things like that, but yet the threshold is 21 based strictly on the number of employees. 22

23 So why would you not apply the same 24 principle and go to FTEs, full-time equivalents, versus just the number of people employed? Because I've heard this from many small businesses, not-for-profits, you know, companies that are right now hanging on by a thread, that are now going to be unduly burdened with this based on the number of employees and not based on FTEs.

8 COMMISSIONER REARDON: So it's a good 9 question. I just want to point out, and I 10 mean this in the best possible way, I only 11 enforce the laws. So, you know, I'm not a 12 legislator. I'm happy to enforce whatever 13 laws that you and the Governor pass. But, 14 you know, I'm limited by what the laws say.

15 SENATOR BORRELLO: Well, you know, 16 when we discussed this originally when it was 17 passed, you know, there was this -- we were 18 told that this would be something that the 19 DOL could fix, essentially, quote, unquote.

20 And I realize that there are often 21 vagaries in these laws that -- gray areas. 22 But in this particular case, would you not 23 agree that, you know, someone who has a 24 hundred part-time employees is obviously

1 going to be unfairly burdened, compared to 2 someone who has 100 full-time employees or a 3 seasonal operation that doesn't operate 4 year-round?

5 COMMISSIONER REARDON: So, you know, 6 it's a pretty general statement. I'd have to 7 actually look at more details to engage on 8 this. But, you know, we could certainly have 9 that conversation offline.

10 SENATOR BORRELLO: All right. So 11 you're saying that in order to change this, 12 it needs to be changed in the law, the 13 Legislature would have to take an action in 14 order to level the playing field for our 15 small businesses.

COMMISSIONER REARDON: I think so. 16 17 SENATOR BORRELLO: Okay. Well, that's my question. And on the unemployment claims, 18 since I have a few seconds left here, I will 19 20 say that, you know, like everybody else we were inundated. And I know that you all 21 worked very hard to try and address people as 22 23 quickly as possible, people calling from 24 their homes, on their cellphones, on the

1 weekends, at night. So trust me, we were at 2 the tip of the spear dealing with people that 3 were caught up in this system that had nowhere to go that were, you know, worried 4 5 about where their next -- you know, really where their next meal was going to come from, 6 in some cases. 7 8 So I know it was awfully difficult to 9 deal with, and I appreciate the upgrades that you've made. Hopefully this will -- we'll 10 11 never have to deal with this again. 12 COMMISSIONER REARDON: Thank you. CHAIRWOMAN KRUEGER: Thank you. 13 14 SENATOR BORRELLO: At 25 seconds. CHAIRWOMAN KRUEGER: Thank you. 15 CHAIRWOMAN WEINSTEIN: We've been 16 17 joined by Assemblyman De La Rosa, Assemblymember Giglio, Assemblyman Bronson, 18 Assemblymember Jo Anne Simon -- I'm not sure 19 20 if I mentioned her already. 21 And we go to Assemblyman Ra for five 22 minutes. 23 ASSEMBLYMAN RA: Thank you, 24 Chairwoman. Commissioner, good afternoon.

I'd be remiss if I didn't start by 1 2 just saying thank you to your staff. I think 3 at the height of this, like all of our offices, we were probably communicating with 4 5 the Department of Labor more than our own 6 families --7 COMMISSIONER REARDON: Yes. 8 ASSEMBLYMAN RA: -- on behalf of our 9 constituents. So I know it was very difficult circumstances, and I thank them for 10 11 their assistance over that time. 12 I just wanted to follow-up with regard to the Unemployment Insurance, and 13 14 specifically the Title XII advances. I know you mentioned that, you know, the solvency 15 coming in was good. But am I correct there 16 17 was a report that talked about our solvency level and there's a threshold that would be 18 required to allow the state to -- when they 19 20 have to take those types of loans, to do so without interest? 21 22 Is there any update on that solvency level? I think it was about 0.36 and it 23

24 needs to be 1 percent.

COMMISSIONER REARDON: I don't know.
 Let me find out for you. I'm not familiar
 with that.

ASSEMBLYMAN RA: Okay. I'd appreciate 4 5 that. Obviously that is -- as we're trying to repay that, you know, it does have the 6 7 potential to have an impact on our 8 businesses. 9 The other thing I wanted to just ask a little bit about was, you know, different 10 11 measures were obviously taken to deal with what was really an emergency situation to get 12 claims processed. And I know there were 13 14 partnerships formed with KeyBank.

And some concerns have been raised 15 about, you know, the kind of regional nature 16 17 of that bank and the lack of facilities, particularly downstate and in New York City. 18 So I'm just wondering if -- you know, is the 19 20 department looking at other types of 21 partnerships that -- you know, to expand the 22 network to banks that might be more 23 accessible to people downstate? 24 COMMISSIONER REARDON: So a couple of

things. First of all, yes, KeyBank is a
 state vendor, it wasn't just us. They're on
 a state contract. And yes, we are
 reexamining that.

5 But I want to correct -- this was a news story that was out there, and we had 6 7 trouble with -- I think it was early in the 8 summer, they were running a number of stories 9 saying there were long lines of people in New York City on 22nd Street because it was the 10 11 only KeyBank where they could get their money. Not true. Patently not true. 12

There are over a thousand ATMs across 13 14 the state, many of them in New York City, where our customers can retrieve their money 15 without any charge. And for whatever reason, 16 17 this news outlet decided to continue to pump out that story for probably two weeks. And 18 it was difficult, we had people assaulting us 19 20 about it. And I said, you know, we -- the 21 list of, you know, the vendors was -- the 22 ATMs was on KeyBank's website and it was on 23 our website.

24 But this is an example of, you know,

what happened during the pandemic. People 1 2 panicked, they read something somewhere on 3 Twitter or Facebook or, in this case, in the newspaper, and they assumed that that was the 4 5 truth, and they lined up for hours in front 6 of this bank. Which was totally unnecessary. 7 That said, we are looking at other 8 vendors for our business, but KeyBank is a 9 state vendor. ASSEMBLYMAN RA: Thank you. And I 10 11 appreciate you correcting, you know, the public record on that situation. That's good 12 to hear. 13 14 The other thing, obviously, that had 15 to be done was, you know, bringing in some new public or vendors and things of that 16 17 nature to process claims. Do you have any estimate on what that looked like in terms of 18 how many people had to be brought in --19 20 different companies, vendors, individuals? COMMISSIONER REARDON: Sure. So when 21 22 we first got crushed by the wave, the first 23 thing we did was to pull other workers from 24 DOL from other workstations and bring them

into the UI system and train them to deliver the services. Then state workers came over to assist us in that effort. I think at one point we had 3,000 state workers working with us. They all had to be trained, because it's not a simple, you know -- it's not a simple thing to do.

8 Eventually we realized we were not 9 staffing our way out of this and we had to 10 get third-party vendors. We had, I think, 11 four vendors, and I think at the height in 12 August we had I believe 2800 vendors. But we 13 are now beginning to reduce, we're down to 14 1300.

And we are -- I'm very happy to say, 15 now, because of federal funding, we are able 16 17 to begin to hire hourly and permanent New York State staff to come in and work with 18 us, which is what we've always wanted to do. 19 20 They will be trained for these jobs, they will be, you know, in our system, and we can 21 22 reduce the -- if not get rid of completely --23 the vendors that we had to rely on.

24 But it was simply a numbers game.

1 There was no way we could do it without them. 2 ASSEMBLYMAN RA: Okay, thank you, 3 Commissioner. COMMISSIONER REARDON: Thank you. 4 5 CHAIRWOMAN KRUEGER: Thank you very 6 much. Our next speaker is Senator Diane 7 Savino. 8 CHAIRWOMAN WEINSTEIN: Senator --9 Senator Savino, before you go, I just wanted to announce for any members of the Assembly, 10 11 that session was ending, that if you want to 12 vote as an exception to the party vote that's taking place, you should contact the Majority 13 14 or Minority Leader as soon as possible. 15 Thank you. And now to the Senate. Thank you, 16 17 Liz. CHAIRWOMAN KRUEGER: Thank you. 18 19 Senator Diane Savino. 20 SENATOR SAVINO: Thank you, Senator Krueger. Good to see you, Commissioner. 21 22 So I'm not going to ask you the last 23 four questions that Assemblyman Ra asked you

24 because I got the answers I wanted to those

1 questions. I do want to go back, though, to -- first of all, I want to thank you for 2 3 all of your efforts to all of our constituents across the state in an 4 5 extraordinarily difficult time during the 6 pandemic and the tremendous strain on the unemployment system. You know, you mentioned 7 8 your ability to avoid the unnecessary fraud. 9 I participated in a government tech

conference just last month, and we were 10 11 astounded to find out that the State of California was unable to avoid that. They 12 paid out \$12 billion in fraudulent claims. 13 14 The State of Washington, \$650 million. Even the little State of Montana, \$10 million. 15 So the fact that we were able to do so I think 16 17 is a testament to you and your staff. COMMISSIONER REARDON: Thank you. 18 SENATOR SAVINO: But I am a little 19 20 concerned as we go forward because you had to 21 pull so many people from so many other 22 places, and we know we're going to face this 23 again. We were able to kind of ramp up with, 24 you know, the Google Cloud, but we still have

a lot of challenges on the tech side. So I'm
 curious as to all of the people who are
 working remotely.

Were you able to provide them with the technology from the department, or are they utilizing their own equipment? Because that could be a concern with respect to get to the cybersecurity issues.

9 COMMISSIONER REARDON: Right. SENATOR SAVINO: There were other 10 11 agencies, and I'm not going to mention them, in the City of New York, where people are 12 utilizing their own equipment and taking in 13 14 personal information. We've seen ransomware attacks and cybersecurity leaks all across 15 city and state agencies, and I'm hoping to 16 17 avoid that going forward. So can you speak about that briefly. 18 COMMISSIONER REARDON: 19 Sure. 20 SENATOR SAVINO: And then the final thing I'd like you to address is how are we 21 doing on wage-theft claims? And I'll leave 22 it at that. 23

24 COMMISSIONER REARDON: I favor it.

So first of all, they all had state 1 2 equipment and they all worked on safe, 3 encrypted systems. So -- because we were very aware of that. The last thing you want 4 5 to do -- UI has very strong federal 6 guidelines for, you know, confidentiality. 7 Everybody takes confidentiality training, we 8 have to make sure everybody's information is 9 secure. So they had our equipment from jump, which was great. And, you know, it made it 10 11 much easier, frankly. 12 There are still a lot of tech things that we are actually working on. We have 13 14 more bots. I know more about bots in the 15 last 10 months than I knew probably my entire life. They're great, I love them, but we're 16 17 employing more and more of them. We did have the Google Cloud, so that 18 can scale out to handle the incoming. We 19 20 had -- you know, the IVR now is able to 21 figure out what agent you need to talk to. 22 We have an excellent communication program 23 with our claimants that we never had before,

between GovDelivery and DocuSign, we are able

24

to help them achieve their needs without ever
 having to talk to a human being at all, which
 is really remarkable.

And the GovDelivery we send out -- we 4 5 sent out, I think, 58 million texts and 6 emails saying this is where you are in the 7 process, this is what you need to do next 8 week, so that people aren't sitting in the 9 dark, which is what they used to do. SENATOR SAVINO: I think I'm out of 10 11 time. So if you could get back to me on wage 12 theft, we can talk about it offline, I'd really appreciate it --13 14 (Overtalk.) COMMISSIONER REARDON: Absolutely. 15 Thank you. 16 17 SENATOR SAVINO: Thank you. Great to 18 see you. COMMISSIONER REARDON: Nice to see 19 20 you. 21 CHAIRWOMAN KRUEGER: Thank you, 22 Senator. 23 Assemblymember.

CHAIRWOMAN WEINSTEIN: We go to

24

Assemblyman Steck for three minutes.

2 ASSEMBLYMAN STECK: I've got two 3 computers going, one for session and one for this hearing. 4 5 (Laughter.) 6 CHAIRWOMAN WEINSTEIN: Okay, well, log 7 onto the right one. 8 ASSEMBLYMAN STECK: No, I'm logged on, 9 but it's the voice and the video. So first of all, I want to thank the 10 11 commissioner for her frequent visits to my district. Always a pleasure to see you when 12 we were not in the pandemic. 13 14 And also, you know, I know that you're working very hard to address these issues 15 with the unemployment system. I want to say 16 17 thank you also to your staff, because our office's experience, though there was a lot 18 of hard work involved, we did find that the 19 20 employees that we dealt with were very, very helpful. 21 22 COMMISSIONER REARDON: Thank you. ASSEMBLYMAN STECK: I just have one 23

24 question, and that relates to the renewal of

a program which seemed along the lines of 1 2 what you were talking about in your opening remarks, and that's the New York State Shared 3 Work Program, which allows employers to 4 5 retain their employees during times of 6 temporary business shutdowns by reducing an 7 employee's hours and earnings, but avoiding 8 layoffs. This allows employees to receive 9 partial Unemployment Insurance benefits while continuing to work at reduced hours. 10 11 I just want to express my support for renewing that program. 12 COMMISSIONER REARDON: So it doesn't 13 14 really go away. We've had it for a long time. The great thing is when the pandemic 15 hit and everything went kerflooey, we 16 17 realized that -- that's a technical term -we realized that shared work was going to be 18 very, very key to getting people back to 19 20 work. So we made sure that we got everybody online using it -- since they used to use 21 22 paper, imagine. So we made it online, we 23 digitized it, we sent out lots of information 24 to our employers. And there's a very robust

employment, pardon the expression, of shared work now. It's a great program.

1

2

It doesn't expire; it's 26 weeks of 3 shared work coverage right now. And then, 4 5 you know, they have to either go on regular 6 unemployment or whatever. But, you know, 7 it's still a program, and it is a great 8 program. I -- you know, there are a lot of 9 employers who should use it. Now that they're coming back in -- particularly like 10 11 restaurants that have not been able to be 12 open because of the pandemic, you know, now they can come back and use the shared-work 13 14 program to fluctuate as they get their feet back under them. 15

16 But thank you. It is a terrific 17 program. We're really very proud of it. And 18 New York State I think has one of the highest 19 usages of shared work in the country.

ASSEMBLYMAN STECK: Okay. Well, thank you very much for that. And we did get some concerns from employers that they had a little bit of difficulty getting this done. And I think, based on my review of that

| 1 | letter and your comments, it does seem that |
|----|--|
| 2 | it's ongoing and it may have been just |
| 3 | because it's now computerized, it may have |
| 4 | been just part and parcel of the overall |
| 5 | influx of the tremendous amount of claims |
| 6 | that you were handling. |
| 7 | So thank you for your support for that |
| 8 | program. |
| 9 | COMMISSIONER REARDON: Sure. And if |
| 10 | you have an individual case that has a |
| 11 | particular problem, of course reach out to |
| 12 | me. |
| 13 | ASSEMBLYMAN STECK: Okay, we will do |
| 14 | that. Thank you. |
| 15 | COMMISSIONER REARDON: Okay. Thank |
| 16 | you. |
| 17 | CHAIRWOMAN WEINSTEIN: Thank you. |
| 18 | We go to the Senate now. |
| 19 | CHAIRWOMAN KRUEGER: Thank you very |
| 20 | much. |
| 21 | Senator Pete Harckham, three minutes. |
| 22 | SENATOR HARCKHAM: Thank you very |
| 23 | much, Madam Chair. Commissioner, good to see |
| 24 | you. |

| 1 | COMMISSIONER REARDON: Thank you. |
|----|--|
| 2 | SENATOR HARCKHAM: Let me start my |
| 3 | video. There we go. |
| 4 | COMMISSIONER REARDON: Good to see |
| 5 | you. |
| 6 | (Laughter.) |
| 7 | SENATOR HARCKHAM: Good to be seen. |
| 8 | I join my colleagues in complimenting |
| 9 | you and your team. It was a very rough year. |
| 10 | It wasn't always pretty. But, you know, once |
| 11 | we got a direct line into your office, we |
| 12 | were able to clear a lot of cases from our |
| 13 | office. So thank you very much for that. |
| 14 | I want to ask you something a little |
| 15 | bit different. You know, because of the |
| 16 | pandemic, it's been estimated that a quarter |
| 17 | to a third of our small businesses have been |
| 18 | lost. Those are not coming back. Because |
| 19 | we've changed the way we do business, entire |
| 20 | job categories and industries may not be |
| 21 | coming back. So we hear talk now about |
| 22 | and this we heard it back in the last |
| 23 | recession, about the permanently unemployed. |
| 24 | You know, people who used to have good |
| | |

| 1 | skills, good jobs, and they've just gone away |
|----|---|
| 2 | and now they're permanently unemployed. |
| 3 | What's your strategy going forward to |
| 4 | deal with the folks who have been severely |
| 5 | dislocated due to the pandemic? |
| 6 | COMMISSIONER REARDON: It's an |
| 7 | excellent question. And it's something that |
| 8 | we have been discussing since probably the |
| 9 | second or third month of the pandemic, |
| 10 | because I realized pretty quickly, with the |
| 11 | crush of economies and the sectors that were |
| 12 | really being hit hard and some of them had |
| 13 | been having struggles before the pandemic |
| 14 | that this was going to require some retooling |
| 15 | of workers. |
| 16 | Also we know that the jobs won't |

10 necessarily go away, but they may become more 18 virtual, which means you have to be more 19 digitally savvy.

20 So we have been having very deep 21 discussions on the workforce development side 22 of our house about how best to serve those 23 customers. And again, the Virtual Career 24 Center is going to be key to this. The

Virtual Career Center is going to have a lot 1 of very robust AI, and it's going to be able 2 to connect an individual worker, look at 3 their work experience, and through AI begin 4 5 to sift through other kinds of work and say, 6 you have these skills, and yet there are 7 these kinds of jobs that are open to you --8 and some of them it's a direct fit, and some 9 of it's if you do these kinds of trainings, you would really be eligible for that. 10

11 We're also going to work very closely 12 with all of the REDCs and the businesses to understand what their needs are in the 13 14 region. Because I don't want to do just a general New York State approach, I want to 15 do, you know, town by town or region by 16 17 region. There's a lot of focus on up-skilling people. We have the -- we have 18 Coursera, available for free to underemployed 19 20 and unemployed New Yorkers. This is a free learning platform. 21

And sometimes it only takes a course or two to really bring you up to a new level. Maybe you want to go into a new area of work

but you have deficiencies in math. You can
 take a math course on Coursera for free and
 then you'll be able to qualify.

Or maybe you want to go back to
college to a two- or four-year school, and
you need a couple of remedial classes.
Coursera can do that for free, and then we
could connect you with the training programs
that you need.

10 We're also working very closely with 11 SUNY and CUNY. SUNY has a new SUNY Online 12 program that's also going to be free for 13 certain workers.

14 And we're all going to work together to make sure that as we come out of the 15 pandemic, we're not going to have permanently 16 17 unemployed people unless that's what they choose to be. We want everybody to be able 18 to find a good job in the new economy, and 19 20 that means people are going to have to have some retraining, and we want to be a part of 21 22 that.

23 SENATOR HARCKHAM: Thank you. Our24 time is up. But going forward, I'd love to

| 1 | discuss with you offline how we get this |
|----|---|
| 2 | information out to the public and to our |
| 3 | constituents. |
| 4 | COMMISSIONER REARDON: Yes, I'd love |
| 5 | to have that conversation. |
| 6 | SENATOR HARCKHAM: Terrific. Thank |
| 7 | you very much. |
| 8 | COMMISSIONER REARDON: Thank you. |
| 9 | CHAIRWOMAN KRUEGER: Thank you, |
| 10 | Senator. Assemblywoman. |
| 11 | CHAIRWOMAN WEINSTEIN: Yes, thank you. |
| 12 | We go to Assemblyman DeStefano for three |
| 13 | minutes. |
| 14 | ASSEMBLYMAN DeSTEFANO: Good |
| 15 | afternoon, Commissioner. |
| 16 | The last time I spoke with you was |
| 17 | over the summer when we were talking about |
| 18 | our unemployment problems in the state and |
| 19 | the inundation in our district offices. One |
| 20 | of the questions I had is I remember when we |
| 21 | were hiring people to handle the overflow and |
| 22 | things like that. Do you have an estimate of |
| 23 | the number of people that were hired from |
| 24 | outside of the state and why these jobs |

1 weren't offered to people who were unemployed

2 in New York?

COMMISSIONER REARDON: So I don't know
the exact numbers, because of course these
are third-party vendors.

6 We always want people to hire within the state, and we did have a couple of 7 8 vendors who are located in New York State, so that was a much better opportunity. But 9 frankly, at the height of the pandemic we did 10 11 not have the ability to say that you must hire within New York State, because it would 12 have taken much longer and then we would have 13 14 harmed many more people who needed the 15 unemployment.

That said, as I said earlier, we are 16 17 now at a place where we're going to be able to hire hourlies and permanent people in the 18 DOL, New York residents who will be living 19 20 and working here, and we will have far less, 21 if any, reliance on the outside vendors. We 22 always saw the vendors as an emergency patch; 23 it was never a permanent solution.

24 ASSEMBLYMAN DeSTEFANO: Thank you.

Does the department have an estimate of the
 labor force participation in New York in
 2020?

COMMISSIONER REARDON: We do, and I 4 don't have the number in front of me. It 5 6 might be on the website. We have a lot of 7 labor force information. But I can look at 8 it and get it to you. 9 ASSEMBLYMAN DeSTEFANO: Thank you. Does the department have a current 10 11 estimation of the long-term unemployment, those unemployed for longer than six months, 12 in the state? 13 14 COMMISSIONER REARDON: We have a number; I don't have that in front of me. 15 Ι can get that for you too. 16 17 ASSEMBLYMAN DeSTEFANO: Okay. My last question is going to be, is it possible for 18 the department to permanently waive the 19 20 seven-day waiting period before the first-time unemployment insurance applicants 21 receive their benefit? 22 COMMISSIONER REARDON: So that's an 23 24 interesting question. We can look at it

1 and -- you know, that's a -- it's in the 2 regulation, so that's a conversation.

| 3 | But let me tell you why that seven-day |
|---|---|
| 4 | waiting period is there. It's one of the |
| 5 | reasons we have fraud. So the seven-day |
| 6 | waiting period gives us time to be able to do |
| 7 | some checking to make sure that you're you. |
| 8 | And that seven-day period is very important. |

9 I'm not sure if it's in the federal 10 regulation or if it's in the state 11 regulation. I'd have to look at it. But it 12 does serve a purpose. And we felt it very 13 strongly when we got rid of it. It caused 14 some unexpected problems within the system.

15 But we can have that conversation. I 16 have to figure out if it's federal or state 17 regulation that requires it. It might be 18 federal.

19ASSEMBLYMAN DeSTEFANO: Okay. My last20question. I don't know if it was Senator21Savino -- do we have a number of how many22people we know of that fraudulently received23unemployment benefits from -- during the24pandemic?

| 1 | COMMISSIONER REARDON: The number of |
|----|---|
| 2 | total recipients? |
| 3 | ASSEMBLYMAN DeSTEFANO: Right. The |
| 4 | ones who actually scammed the system. Do you |
| 5 | have |
| 6 | COMMISSIONER REARDON: Oh. No, I |
| 7 | don't have a total number of them. We know |
| 8 | that the ones we prevented, the \$9.5 billion |
| 9 | prevented, was 455,000 cases. But I don't |
| 10 | that's you know, it's you know, |
| 11 | remember, that's \$5.5 billion {sic} was |
| 12 | prevented. These are very sophisticated |
| 13 | fraudsters. |
| 14 | ASSEMBLYMAN DeSTEFANO: Thank you, |
| 15 | Commissioner. My time is up. |
| 16 | CHAIRWOMAN WEINSTEIN: To the Senate. |
| 17 | CHAIRWOMAN KRUEGER: Thank you very |
| 18 | much. |
| 19 | Senator Tom O'Mara, five minutes. |
| 20 | SENATOR O'MARA: Thank you. |
| 21 | And thank you for being with us today, |
| 22 | Commissioner. We appreciate your testimony |
| 23 | and all your hard work throughout the year, |
| 24 | which has been a very, very difficult one. |

1 We all understand it's certainly been trying

2 for all of us, so --

3 COMMISSIONER REARDON: Yes. SENATOR O'MARA: You've said, you 4 5 know, we've put out \$65 billion so far in 6 unemployment benefits. And just last week, 7 you know, we passed legislation to increase 8 the appropriating authority to \$71 billion. 9 Where do we stand as far as paying this back? I know a big portion of that is federal money 10 11 that -- through the CARES Act that we are not going to be paying back, is my understanding. 12 But if you can outline for us what 13 14 that state portion is and what our plan and timeline is for how much that's going to cost 15 us over how long. And is that going to play 16 17 into the experience rating of businesses on what they have to pay in in coming years? 18 COMMISSIONER REARDON: So let me start 19 20 with the experience rating first. I issued an order a month ago, maybe, halting the 21 22 pandemic-related experience rating for 23 employers in the last year, understanding that the pandemic -- many people didn't 24

choose to close, they had to close.

2 So last year, if you had 3 pandemic-related unemployment, that will not 4 count against you and your experience rating 5 will not go up, which is great.

6 You're also correct, three-quarters of that \$65 billion is federal money, and we do 7 8 not repay it. Which is, frankly, a mitzvah. 9 We do have a loan of \$9.5 billion. Last year it was interest-free because of the first 10 11 CARES Act. We are hoping, we're very hopeful that the Biden administration can waive at 12 least some if not all of the debt for all of 13 14 the states -- 47 percent of the states have 15 some debt to the federal government right now, and some are higher than ours. So it is 16 17 a huge problem.

18 So we're not quite sure what the next 19 year's rate will be because we're still 20 waiting to hear some of this information from 21 the feds and sorting through it. There's no 22 doubt that the rate will go up, but it won't 23 go up as high as we had feared. And we are 24 hoping that the federal government will help

us and keep it as low as possible. It will 1 2 get paid out over a long time. It won't 3 be -- it's not going to be a hammer the first couple of years. It gets stretched -- it 4 5 gets socialized out over a pretty long period 6 of time. 7 SENATOR O'MARA: Are there any 8 recommendations that you have, as commissioner, for what actions we may be able 9 to take as a legislature to lessen that 10 11 impact over time? 12 COMMISSIONER REARDON: You know, I'd have to think about it. I don't know. I 13 14 mean, I was not here when UI reform was done after the last recession. But that probably 15 would be a good place to look to see what 16 17 fixes were done then, because that really strengthened the system. And it -- you know, 18 it was a very smart piece of legislation. 19 20 And it -- certainly if we had not had that 21 reform, we'd probably owe double what we owe. 22 So I would say, just off the top of my 23 head, I would look at that legislation and talk to people who went through the process 24

and see what the conversation was then. 1 2 SENATOR O'MARA: Okay. Thank you very 3 much, Commissioner. COMMISSIONER REARDON: Sure. Thank 4 5 you. 6 CHAIRWOMAN KRUEGER: Thank you. 7 Assemblywoman. 8 CHAIRWOMAN WEINSTEIN: We have our 9 last Assemblymember, Assemblyman {sic} Giglio, for three minutes. 10 11 ASSEMBLYWOMAN GIGLIO: Good afternoon. 12 And my video is not showing -- no, I've got it prompted. So good afternoon, everyone. 13 14 So my question pertains to the Farm Laborers Wage Board. In December they 15 decided to lower the threshold for overtime 16 17 to 40 hours per week through November, awaiting data from the -- awaiting data. I'm 18 wondering if that data has been compiled yet 19 20 and if any consideration is given to extend keeping the threshold at 40 hours rather than 21 the 60 hours through 2022, just because the 22 23 farmers have been hurt so significantly this 24 year due of COVID, with the wineries being

closed, the catering halls being closed, the
 farm-to-table restaurants being closed, and
 not being able to -- you know, their crops
 have been destroyed and they haven't been
 able to prosper.

6 So I'm wondering if the data has been 7 collected from the hearings in December and 8 whether or not there's any consideration to 9 extend the lowering of the threshold through 10 2022, or at least past November.

11 COMMISSIONER REARDON: So we -- I convened the wage board at the order of the 12 act -- I'm happy to do it -- and they met 13 14 throughout the year. They had five testimony periods, even during the pandemic. They had 15 one real one in-person, and the rest of them 16 17 -- well, they were all real, but one was in-person, the rest of them were virtual, of 18 19 course.

And we had a lot of testimony from a lot of the agricultural community, mostly the owners but some workers as well, and their advocates. And then had a couple of sessions where they -- public sessions where they

openly discussed, you know, the information
 that they had received.

Their recommendation from the three 3 members of the board was to pause at 60 for 4 5 overtime for farmworkers for a year, at least a year, and to reconvene the wage board no 6 earlier than November 1st of this year and no 7 8 later than December 15th, and they would reconvene and continue their work. During 9 that time, they will be looking at various 10 11 factors affecting both the workers and the employers. 12

13 One of the reasons they recommended 14 this was because it was felt that the 15 pandemic had really unsettled the workplace, 16 the agricultural community, the marketplace, 17 and they wanted to see more information on 18 all of that.

19I will say -- and I said it when it20was signed -- the farm laborers fair -- I21never get the name right. The Farmworkers22Act was excellent, and it extended lots of23protections beyond just the overtime24protection, and I thank you for it.

| 1 | Last year was the first year that the |
|----|---|
| 2 | farm communities worked with 60 hours of |
| 3 | overtime. We will see what happens this |
| 4 | year, and they will reconvene the end of this |
| 5 | year, hopefully, if that is what we decide |
| 6 | here at the Department of Labor that was |
| 7 | the recommendation. I haven't issued my |
| 8 | order yet. The order will be no later than |
| 9 | February 19th. But that was the |
| 10 | recommendation from the board. |
| 11 | ASSEMBLYWOMAN GIGLIO: Okay. Thank |
| 12 | you. |
| 13 | CHAIRWOMAN KRUEGER: Thank you. |
| 14 | Our next questioner is Senator Brad |
| 15 | Hoylman. |
| 16 | SENATOR HOYLMAN: Hello. Hi hi, |
| 17 | Commissioner. Good to see you. |
| 18 | COMMISSIONER REARDON: Hi, good to see |
| 19 | you. |
| 20 | SENATOR HOYLMAN: First of all, let me |
| 21 | say I have Zoom envy. You have the best |
| 22 | resolution of anyone I've seen on Zoom. I |
| 23 | think it's because you're a former actor. |
| 24 | Just putting that out there. |

| 1 | COMMISSIONER REARDON: Yes (laughing). |
|----|---|
| 2 | SENATOR HOYLMAN: I have a vexing |
| 3 | issue with a constituent and their |
| 4 | application for Pandemic Unemployment |
| 5 | Assistance that I want to just run by you. |
| 6 | She is an artist, a pretty successful |
| 7 | one, and but obviously has not been able |
| 8 | to sell her art during the pandemic. She's |
| 9 | an adjunct professor at the Art Students |
| 10 | League, like a lot of artists are. That's, |
| 11 | you know, a part-time job which she didn't |
| 12 | lose. But when she applied for CARES |
| 13 | assistance, they went off of her $W-2$ form for |
| 14 | her adjunct professorship rather than her |
| 15 | 1099 on her art sales. |
| 16 | Is there anything that can be done? |
| 17 | Your staff has been helpful, but I just |
| 18 | wanted to raise that. |
| 19 | COMMISSIONER REARDON: Yeah. So |
| 20 | and you know part of this answer, I can't |
| 21 | discuss individual claims. |
| 22 | SENATOR HOYLMAN: Yes. |
| 23 | COMMISSIONER REARDON: And there |
| 24 | are |

| 1 | SENATOR HOYLMAN: I think it's a broad |
|----|---|
| 2 | issue involving |
| 3 | COMMISSIONER REARDON: There's |
| 4 | she's not the only person in that situation. |
| 5 | In the new CARES Act there is MEUC, |
| 6 | the Mixed Earners Unemployment Compensation, |
| 7 | and it allows for people in this situation |
| 8 | it doesn't completely resolve her problem, |
| 9 | because there are rules on how UI and PUA |
| 10 | interplay. But if you have more than \$5,000 |
| 11 | of self-employment earnings and they |
| 12 | really must be self-employment earnings in |
| 13 | a year, but you are on UI, then you get an |
| 14 | extra \$100 a week benefit to compensate for |
| 15 | this particular problem. |
| 16 | It is a highly complex program, and we |
| 17 | are still awaiting guidance from USDOL on how |
| 18 | the the details of it. But it is there, |
| 19 | and it may not you know, it may take a bit |

20 to get it all worked out, but she'll get all

21 the money -- if she qualifies, she'll get all

22 the money that she's owed under that

23 particular program.

24 But it is -- you know, PUA never

| 1 | existed before the CARES Act. And while the |
|----|---|
| 2 | CARES Act was done out of the best of |
| 3 | intentions and saved millions of people, it |
| 4 | had some unintended consequences because PUA |
| 5 | and UI are not the same, and there are |
| 6 | conflicting guidances. So that's she got |
| 7 | caught in that. |
| 8 | SENATOR HOYLMAN: Thank you. |
| 9 | CHAIRWOMAN KRUEGER: Thank you. |
| 10 | Assembly? |
| 11 | CHAIRWOMAN WEINSTEIN: We do not have |
| 12 | anybody else. |
| 13 | CHAIRWOMAN KRUEGER: All right. |
| 14 | Commissioner Reardon, I have just a |
| 15 | couple, and then I think that Senator Jessica |
| 16 | Ramos has a second round of questions. So |
| 17 | I'm definitely not taking the 10 minutes. |
| 18 | When you answered the question before |
| 19 | about the number of cases of I guess |
| 20 | fictitious unemployment applications, |
| 21 | fraudulent, you didn't actually mean there's |
| 22 | 456,000 people who actually individually |
| 23 | filed fake cases, do you? I mean, is it more |
| 24 | bots and other kinds of software stealing |

that?

1

2 COMMISSIONER REARDON: Oh, you mean 3 what their techniques are? That is a very 4 good question. Some of them may have been 5 done by bots. A lot of them were done by 6 individuals. And it is -- these are highly 7 sophisticated fraudsters. 8 And, you know, quickly, at the 9 beginning of this we were working on how to

9 beginning of this we were working on how to prevent fraud and we said, Oh, well, the 10 11 fraudsters would never actually talk to us. Because they really don't want to talk to us: 12 We're not going to do this thing. They do 13 14 want to talk to us. They call us and they try to convince us that they're real people. 15 So yes, 455,000 cases -- I'm going to 16

17 look at somebody in the room with me. Could 18 that be more than -- is that individual 19 claims or is that individual fraudsters? 20 It's claims, I think.

21 CHAIRWOMAN KRUEGER: So that's a 22 mind-boggling number of people who --23 COMMISSIONER REARDON: And that's just 24 in New York. So imagine --

1 CHAIRWOMAN KRUEGER: And I understand, 2 I just -- it's amazing that there's that 3 number of people who would even sort of know how to figure out to try to commit DOL fraud. 4 It's inter -- well, it's sad --5 6 COMMISSIONER REARDON: Well, they're international, too. I mean, as they used to 7 8 say, why do bank robbers rob banks? Because 9 that's where the money is. CHAIRWOMAN KRUEGER: Fair enough. 10 11 And yet on the other side of the coin, when I told you this the other night that I 12 was going to ask you, now we're getting 13 14 constituents who are being told that they were overpaid by DOL -- not their fault. I'm 15 not even saying your fault. But something 16 17 was calculated wrong, and so they're getting hit to repay. But they've spent the money. 18 They still are living in a pandemic without 19 20 work. So I'm a little confused, because I 21

found an article that said the new federal rules are that you don't even have to collect back the overpayments of PUA anymore.

So can you clarify what New York is
 trying to collect back? Or is there a change
 in policy happening?

4 COMMISSIONER REARDON: So again -- and 5 because there are six different programs now 6 instead of one, it makes it highly complex. 7 But the federal rule is if federal dollars 8 are paid out inappropriately, whether it was 9 on purpose or not, they must be recouped.

10 There is something in the new CARES 11 Act for forgiveness of some PUA overpayments, 12 but I don't think it's extensive, I think 13 it's limited. I'd have to -- I'll get back 14 to you on that.

15 We always have an overpayment system 16 that works, because the law says you must 17 legally be entitled to the benefit. So 18 sometimes they misstated their earnings; 19 intentionally or not, you're not legally 20 entitled.

You know, there are a lot of different reasons why this happens. Often it's not that much money. Sometimes it is, you know, a fair amount of money. And, you know, we're

willing to work with people to try to figure

2 out how to handle that.

| 3 | But this has gone on before the |
|----|---|
| 4 | pandemic. The pandemic really like |
| 5 | everything else, it made it highly complex in |
| 6 | a very difficult time. |
| 7 | When we talked the other night, you |
| 8 | said you heard that some states were not |
| 9 | collecting it until after the pandemic. I |
| 10 | asked my UI folks, and that was a new one for |
| 11 | them. So I and I don't have the answer |
| 12 | yet, but we're looking into it. |
| 13 | But I don't there is a federal law |
| 14 | that says you have to recoup. I don't know |
| 15 | that there's a time frame on it. |
| 16 | CHAIRWOMAN KRUEGER: Okay. I |
| 17 | appreciate your following up with us. |
| 18 | COMMISSIONER REARDON: Sure. |
| 19 | CHAIRWOMAN KRUEGER: I know some of my |
| 20 | constituents were getting bills I have one |
| 21 | constituent, \$12,000 overpayment. Pretty |
| 22 | much everything they've gotten over the |
| 23 | entire time frame. So but nobody was |
| 24 | saying they didn't collect it legitimately, |

24

they just -- they'd spent it.

2 All right, I'm going to pass it on to 3 Senator Ramos, our chair of Labor, for her second round of five minutes. 4 SENATOR RAMOS: Why, thank you so 5 much, Senator Krueger, the chair of Finance. 6 7 I do have a few follow-up questions, 8 and I'm glad the commissioner mentioned the 9 Farmworker Fair Labor Practices Act. COMMISSIONER REARDON: Yes, thank you. 10 11 We agreed on this. 12 SENATOR RAMOS: I did. I did have a few questions about the wage board, and these 13 14 questions will largely be about wages. 15 Can you explain a little bit more about how the wage board decided to delay 16 17 making a decision? When will the wage board reconvene to decide on the issue? And what 18 are the different options that you've 19 20 explored to deal with the overtime threshold issue? 21 22 COMMISSIONER REARDON: So the wage 23 board gives a -- the process -- and I get a

little confused in this myself when I talk

about it, because I tend to talk about their
 recommendation. They make a recommendation
 to me, and I issue my order. I have not
 issued my order yet,

5 But their recommendation was because of COVID and because of the conditions in the 6 economy, that they wanted to pause until --7 8 no earlier than November 1st and no later than December 15th of this year, this wage 9 board would reconvene and continue their 10 11 work. And during that period they will be gathering information pertinent to this 12 issue. You know, the robustness of the farm 13 14 economy, the impact on workers' mental and physical health -- all of the things that we 15 consider, you know, going into this. That 16 17 was their recommendation.

And I want to say -- and you and I have talked about this -- the Farm Laborers Act was really wonderful, and a long time coming. And I thank you and the Governor for committing to this task. It is a difficult place for, you know, the farm community and a difficult place for some of the workers.

We've heard conflicting conversations. But 1 2 we are going to continue to look at it and 3 study it -- if that's what my decision is. That's what the board wants me to do. 4 5 It is -- you know, last year was the first year they paid overtime over 60, which 6 was an interesting experience for both the 7 8 employers and the employees. And so there's 9 a lot to be looked at in all of that. SENATOR RAMOS: All right, thank you. 10 11 I don't want to get stuck on this question because I have less time now. 12 13 On the minimum wage you, Commissioner, 14 along with the Department of Budget, will get to decide together whether to increase the 15 upstate minimum wage going forward. 16 17 Are we expecting a minimum wage 18 increase upstate this year, maybe by December? 19 20 COMMISSIONER REARDON: Well, we -- the DOB issued their findings December 31st, I 21 22 think was the date. And so the minimum wage 23 went up upstate this year in January. The next time that they look at it, of course, is 24

1 the end of this year, and they will do their 2 assessment like they did last year: How 3 robust is the economy, all of that. But it 4 did go up January 1st across the state.

5 SENATOR RAMOS: All right. And on tipped workers, as of December of 2020, 6 7 miscellaneous industries like nail salon and 8 car wash workers will receive the minimum 9 wage in addition to any tips they earn. What outreach has the DOL done to inform workers 10 11 and employers of this change, and what has your strategy been to -- or what will your 12 strategy be to enforce? 13

14 COMMISSIONER REARDON: So we do a 15 pretty robust outreach on this. We've got a pretty well developed network, particularly 16 17 in those industries. We've had a pretty good working relationship, actually, with a lot of 18 the nail salons already for various reasons. 19 20 And they all received notice of the 21 increase -- I think they actually get new 22 signage to put up in their shops, because 23 they'll have to have signs. So it's there, 24 the workers know it, it's in their languages,

1 the employers know it, the hotline is

2 there --

| 3 | SENATOR RAMOS: A lot of workers don't |
|----|---|
| 4 | know it. Let me tell you, as a Colombian |
| 5 | woman who gets her nails done religiously |
| 6 | every two weeks, no, most workers do not know |
| 7 | that they should be paid \$15 an hour. |
| 8 | COMMISSIONER REARDON: So do me a |
| 9 | favor. When you're in the nail salon, see if |
| 10 | they have the updated poster. |
| 11 | SENATOR RAMOS: Okay, I'll check. |
| 12 | They haven't, yeah. |
| 13 | COMMISSIONER REARDON: So we what |
| 14 | we tend to do is we work there's a rather |
| 15 | robust group of advocates who have worked |
| 16 | with these industries, and we have worked |
| 17 | very closely with them. So I will check back |
| 18 | in and see, because they should know. |
| 19 | SENATOR RAMOS: Yeah, no, absolutely. |
| 20 | I didn't think we were going to |
| 21 | have well, I'll just leave it there. I |
| 22 | mean, I can think of so many other questions |
| 23 | to ask you, but I'm sure that we will |
| 24 | reconvene soon. |

| 1 | It's good to see you, Commissioner. |
|----|---|
| 2 | Thank you for all |
| 3 | COMMISSIONER REARDON: Good to see |
| 4 | you. |
| 5 | SENATOR RAMOS: Thank you for your |
| 6 | service to workers in New York. |
| 7 | COMMISSIONER REARDON: Thank you very |
| 8 | much. |
| 9 | CHAIRWOMAN KRUEGER: Thank you. |
| 10 | And for any legislator who doesn't |
| 11 | feel like they have the time to ask all their |
| 12 | questions because we try to move very |
| 13 | fast please, if you get us your questions, |
| 14 | we can submit them to the commissioners and |
| 15 | then we will share the written answers with |
| 16 | everyone in both houses. |
| 17 | So thank you. And thank you very |
| 18 | much, Commissioner. Oh, wait, I see the |
| 19 | Assemblywoman with her hand up, yes. |
| 20 | CHAIRWOMAN WEINSTEIN: Yes, we have |
| 21 | our chair, Labor Chair Assemblywoman Joyner |
| 22 | has a follow-up question of the commissioner. |
| 23 | ASSEMBLYWOMAN JOYNER: Thank you. |
| 24 | Okay, it's a very quick question. I |

1 wanted an update on the sick leave. Are we 2 having any complaints, questions that the 3 department is aware of regarding the new law? COMMISSIONER REARDON: The paid sick 4 5 leave requirements? So, you know, people -workers started accruing last September, and 6 in January they were able to start using 7 8 their leave. There have obviously been 9 questions from industry, how does this -it's not unexpected -- how does this work. 10 11 We've been doing a lot of outreach, contact with our employer groups. 12 But so far I think it's going pretty 13 14 well. I think sometimes people get confused between COVID sick leave and paid sick leave 15 and FMLA, and so we're trying to make sure 16 17 that all of that is clear. But again, congratulations to all of 18 you and the Governor for passing this, 19 20 because this is something that I have 21 advocated for for a long time, and it's great to know that we have it in the State of New 22 York. 23 24 ASSEMBLYWOMAN JOYNER: Okay, thank

you, Commissioner, for your time.

2 CHAIRWOMAN WEINSTEIN: Thank you also, 3 Commissioner. CHAIRWOMAN KRUEGER: Thank you very 4 5 much, Commissioner Reardon, for being here with us this evening. 6 7 And we're going to call up our next 8 commissioner, Lola Brabham, who's the 9 commissioner of the New York State Department of Civil Service. 10 11 COMMISSIONER BRABHAM: Good evening. 12 CHAIRWOMAN KRUEGER: Good evening. Oh, and we've also been joined by 13 14 Senator Roxanne Persaud. How are you, Commissioner? 15 COMMISSIONER BRABHAM: Very well. 16 17 Very well. Good afternoon, Chairs Krueger, 18 Weinstein, and distinguished members of the 19 20 Senate Finance and Assembly Ways and Means Committee. My name is Lola Brabham, and it 21 is my privilege to serve as the commissioner 22 for the Department of Civil Service. 23 24 I appreciate the opportunity to appear

before you today to comment on Governor
 Cuomo's Executive Budget for fiscal year
 2022, and to highlight some of the agency's
 key accomplishments over the past year.

5 As the central personnel agency for 6 the executive branch of state government, the 7 Department of Civil Service delivers 8 workforce management and development services to 70 agencies serving approximately 150,000 9 employees. In that capacity, the department 10 11 is responsible for the administration of the civil service merit system, along with the 12 New York State Health Insurance Program. 13

14 Over the past year the department has 15 made significant progress to improve the efficiency and cost effectiveness of our 16 17 programs and services, while advancing the state's strategic workforce needs. And in 18 the face of the COVID-19 pandemic, we have 19 20 worked hand in hand with agency partners to do our part, from ensuring the most critical 21 22 workforce priorities are met, to ensuring 23 access to high-quality healthcare and providing direct support to our first 24

responders.

1

2 In terms of workforce needs, 3 Civil Service has acted quickly to establish critical positions needed to address COVID-19 4 5 needs. To date, approximately 1800 positions have been established, including more than 6 7 1300 positions at the Office of Mental Health 8 and Department of Health, and on a daily 9 basis we remain in close contact with our stakeholders, responding to hundreds of 10 11 inquiries and requests for guidance from the HR community pertaining to personnel 12 recruitment, attendance and leave protocols, 13 14 and other staffing matters. During the early days of the pandemic, 15 the physicians, nurses, and medical 16 17 technicians who work at the department's Office of Employee Health Service were 18 mobilized to provide immediate support for 19 20 COVID-19 response efforts by medically clearing health professionals, first 21 22 responders, and other essential workers who 23 needed to wear a respirator in the performance of their job. 24

| 1 | To date, staff have cleared more than |
|--|---|
| 2 | 800 individuals in support of this effort, |
| 3 | including employees from the Department of |
| 4 | Health, State Police, National Guard, |
| 5 | Department of Environmental Conservation, |
| 6 | Office for People with Developmental |
| 7 | Disabilities, and others. |
| 8 | With regard to civil service testing, |
| 9 | the Department is focused on building back |
| 10 | better by modernizing its approach to test |
| 11 | delivery through the use of technology and |
| 12 | business improvements. |
| | |
| 13 | As you can imagine, the pandemic had a |
| 13 14 | As you can imagine, the pandemic had a significant impact on the department's |
| - | |
| 14 | significant impact on the department's |
| 14 15 | significant impact on the department's ability to conduct in-person civil service |
| 14 15 16 | significant impact on the department's ability to conduct in-person civil service exams for state agencies and local |
| 14 15 16 17 | significant impact on the department's ability to conduct in-person civil service exams for state agencies and local governments. To address this issue, the |

To address this issue, the department utilized CARES Act funding to invest in new and robust technology to deliver virtually proctored civil service |
| 14 15 16 17 18 19 20 21 | significant impact on the department's ability to conduct in-person civil service exams for state agencies and local governments. To address this issue, the department utilized CARES Act funding to invest in new and robust technology to deliver virtually proctored civil service examinations to job seekers, reducing |

| 1 | In addition, this investment will |
|---|---|
| 2 | streamline the exam application and review |
| 3 | process and ensure that New York is |
| 4 | strategically planning for the workforce of |
| 5 | tomorrow. |

Further, to ensure equity and access 6 7 for all job seekers, the Department has 8 invested in new Chromebooks to ensure that examinations can be administered to 9 candidates who may not have the technology 10 11 required to take a civil service exam 12 remotely.

13 Through these actions, we will 14 continue to modernize the civil service merit system and build on Governor Cuomo's legacy 15 of expanding opportunity for all New Yorkers. 16 17 Support for diversity, equity and inclusion in the state's workforce is of 18 critical importance, and under Governor 19 20 Cuomo's leadership the department has worked collaboratively across state agencies to 21 cultivate a more inclusive work environment 22 for all employees. 23 The department's Office of Diversity 24

1 and Inclusion Management continues to work 2 with state agencies to identify and implement 3 best practices related to outreach and recruitment, retention, reasonable 4 5 accommodations, and other areas. These efforts are laying the groundwork for 6 agencies to develop comprehensive strategic 7 8 plans to meeting workforce and community 9 needs throughout the State of New York.

10 In addition, the department recently 11 debuted a highly interactive virtual implicit 12 bias training intended for all agencies, 13 further promoting the state's commitment to 14 diversity and inclusion principles during a 15 time in our nation's history that the need 16 for such has become increasingly evident.

17 The Department of Civil Service also provides technical assistance and training to 18 95 municipal agencies that are responsible 19 20 for the civil service administration of 21 approximately 360,000 local government 22 employees. As part of these efforts, the 23 department reviewed more than 2,500 requests 24 from local government representatives over

the past year to support the appropriateness
 of various merit system activities and the
 practicability of examination for certain
 titles.

5 On the health benefits front, the 6 department continues to manage one of the 7 most comprehensive public employer health 8 insurance programs in the nation. Early in 9 2020, the department launched a new telehealth program for over 1 million 10 11 individuals enrolled in the state's Empire Plan to enable virtual medical visits. 12 The telehealth program, which is 13 14 offered at no additional cost, allows members to participate in virtual visits with a 15 board-certified doctor or licensed therapist 16 17 by simply using a personal computer, tablet, 18 or smartphone. The initiatives the I have highlighted 19 20 today underscore the department's ongoing commitment to supporting high-priority 21 workforce needs, providing efficiently 22 23 managed and cost-effective programs and

24 promoting equal opportunity and access for

1 all New Yorkers.

| 2 | Thank you for the opportunity to |
|----|--|
| 3 | appear before you today, and I'm happy to |
| 4 | address any questions you may have at this |
| 5 | time. |
| 6 | CHAIRWOMAN KRUEGER: Thank you very |
| 7 | much, Commissioner. |
| 8 | Our first questioner will be |
| 9 | Andrew Gounardes, our chair of the |
| 10 | Civil Service Committee. |
| 11 | SENATOR GOUNARDES: Great. For some |
| 12 | reason I'm not able to turn my camera on; it |
| 13 | says oh, here we go. All right. You |
| 14 | would think 10 months into this we'd be able |
| 15 | to figure this all out, but clearly not. |
| 16 | Hi, Commissioner, how are you? Good |
| 17 | to see you. |
| 18 | COMMISSIONER BRABHAM: Hi. I'm doing |
| 19 | great, how are you? |
| 20 | SENATOR GOUNARDES: Doing great, |
| 21 | great. Thanks for your comments. |
| 22 | I have a bunch of questions. First, I |
| 23 | want to pick up where you talked about the |
| 24 | virtual examinations. And I know that the |

Governor had allocated some money in the budget this year to kind of help expedite that transition. Have we already been giving virtual examinations over the past year, or is that something that's going to be starting moving forward?

COMMISSIONER BRABHAM: No, that's 7 8 going to be starting moving forward. Right now in-person civil service examinations 9 remain, you know, on hold. However, you 10 11 know, we have exercised maximum flexibility to assist our state agency partners in being 12 able to make appointments, particularly with, 13 14 you know, critically needed positions. And 15 we continue to hold T&E exams, the technical training and experience exams, and also 16 17 continuous recruitment exams.

18 SENATOR GOUNARDES: Great. Thank you 19 for that.

I had heard from a number of workers, you know, who have been scheduled to take exams early on last year that were postponed, obviously due to the pandemic. And I wonder if there was a -- and were asked to pay a fee

| 1 | to process their applications. Will those |
|----|---|
| 2 | fees kind of be carried over to their future |
| 3 | rescheduled date, if it's virtual or not? |
| 4 | Will they be refunded? What's the |
| 5 | department's plans for the fees that have |
| 6 | been collected so far from people |
| 7 | COMMISSIONER BRABHAM: Yes. So we're |
| 8 | working with agency partners on the exam |
| 9 | schedule. And we're certainly endeavoring to |
| 10 | hold all of the exams that were postponed. |
| 11 | And to answer your question, yes, |
| 12 | anyone who paid a fee for an exam, that will |
| 13 | be rolled over and credited so they'll be |
| 14 | able to apply that when the exam is |
| 15 | rescheduled. In, you know, extremely limited |
| 16 | circumstances for example, if someone has |
| 17 | retired and will no longer be part of the |
| 18 | state workforce and again, we'll look at |
| 19 | those situations on a case-by-case basis. |
| 20 | But in those limited circumstances, there may |
| 21 | be a refund due to an individual in that |
| 22 | situation. |
| 23 | SENATOR GOUNARDES: Great. Thank you. |
| 24 | The Governor's budget proposes closing |

1 a number of state-operated facilities, some 2 of which are not located near any other state 3 facilities within the same agency. What happens to the employees in a case like 4 5 that? Are they laid off, are they transferred, are they given the option to 6 7 have to drive three hours to the nearest job 8 placement within the same agency? Can you 9 shed some light on that for us?

COMMISSIONER BRABHAM: Sure. So, you 10 11 know, anytime we are made aware of any kind of facility rightsizing, we immediately begin 12 working with the impacted agency and 13 14 employees to -- through our ARTL process to see if we can match those individuals with 15 another position that they qualify for. It 16 17 could be within the same agency or it could be at another state agency. 18

19And, you know, hopefully -- and we're20working right now, you know, with several21different agencies to make those placements.22In the event that an employee either declines23a placement or a placement is not found, that24person would be placed on a mandatory rehire

list and would need to be hired, you know,
 into that title before someone from the
 outside could be hired.

SENATOR GOUNARDES: Thank you. 4 5 I want to pivot now to talk about, you 6 know, how we've seen the workforce kind of 7 adapt and deal with the pandemic. And we've 8 heard and I've certainly heard lots of 9 instances and reports, and I think that this has now been -- you know, there might be some 10 11 action being taken on this -- about some public agencies, some state agencies not 12 complying with the COVID paid sick leave that 13 14 we passed last year, you know, before we -you know, last March. 15

And I just wanted to get your thoughts on that and see, you know, what steps the department is taking to make sure that these affected agencies are in fact complying with the mandatory paid sick leave for employees who are being told to go into quarantine.

22 COMMISSIONER BRABHAM: Well, I guess,23 you know, that's really a two-part answer.

You know, our role is to send out

24

1 guidance to the workforce community so that 2 they understand what the rules are.

3 With the situation that you're talking about, you know, the Governor's Office of 4 5 Employee Relations really takes the lead on 6 negotiating, explaining, you know, the various paid sick leave, quarantine leave and 7 8 all of that. And it's my understanding that 9 there is actually litigation around this right now. So I, you know, would like to not 10 11 comment any further but would instead refer you to Michael Volforte, from GOER, who is 12 coming up after, after my presentation. 13 14 SENATOR GOUNARDES: Okay, thank you. I would just hope, you know, certainly 15 speaking for myself, but I'm sure for my 16 17 colleagues as well, you know, the intent of the law was to make sure that employees are 18 not penalized for being forced into 19

quarantine, especially those that got sick, while having no option to Zoom their way through their workday, especially {inaudible} employees. And so I know that many of us take a very keen interest in seeing that

1 resolved in a way that reflects the intent of 2 the Legislature when we passed that law last 3 year.

COMMISSIONER BRABHAM: {Inaudible.} 4 5 SENATOR GOUNARDES: Pivoting off of 6 that, can you give us a sense, in your 7 assessment, either for -- both for your 8 department and also for other departments 9 that you're helping advise, how agencies are complying with the pandemic preparedness law 10 11 that we passed last year? That would have been Chapter 168 of last year's laws for each 12 agency to prepare pandemic preparedness 13 14 plans.

COMMISSIONER BRABHAM: Yes. I mean, I 15 know that every agency is working on that. 16 17 You know, I can only comment on my agency. We started working on this actually a 18 couple of years ago, so we were well 19 20 positioned to make the necessary tweaks to our continuity of operations plan to ensure 21 that we're meeting the letter of the law. 22 23 Those plans, you know, have been 24 submitted to our deputy secretary, and I

1 think

think that we're in good shape.

2 SENATOR GOUNARDES: And your plans, 3 they were done in consultation as well with employee representatives, as required --4 5 COMMISSIONER BRABHAM: Yes. Yes, 6 that's correct. 7 SENATOR GOUNARDES: Okay. Great. 8 Thank you. 9 And finally, the last area I want to kind of cover right now is you talked about 10 11 the 1800 new positions that were created to 12 kind of deal with the flexibility and the needs that the workforce was facing 13 14 throughout the last 10, 11 months, can you 15 just give us a sense what -- you know, broadly speaking, what other lessons learned 16 17 or insights gained in terms of how we should be thinking about our public workforce in 18 light of the challenges that this pandemic 19 20 has brought upon us. Especially considering that many of our public workers were kind of 21 asked to do a lot of out-of-title work just 22 23 out of necessity; otherwise, things wouldn't 24 get done.

I'd love to hear your thoughts on

2 that.

3 COMMISSIONER BRABHAM: Well, I mean, I think there's a couple of things. You know, 4 5 we at Civil Service for years now have been focused on title consolidation. And one of 6 the reasons for that is to make the titles 7 8 more broad and flexible to deal with some of 9 the issues that crop up around out-of-title work. 10

11 I think, you know, one of the other 12 things that this has forced us to look at is 13 the value of telecommuting and whether or not 14 it can be done effectively and whether or not 15 we can maintain productivity in that kind of 16 environment.

17 So I think that we've learned a lot about that. I think we've learned a lot 18 about where we are with our technology 19 20 infrastructure, for example, you know. So I 21 think there were many lessons learned as we 22 had to move as quickly as possible to kind 23 of, you know, reorganize the way we go about 24 doing our work.

1 SENATOR GOUNARDES: Great. Thank you 2 very much. That's all the questions I have 3 now. COMMISSIONER BRABHAM: You're welcome. 4 5 CHAIRWOMAN WEINSTEIN: Senator 6 Krueger, we do not have any Assemblymembers 7 who have questions. I see you have an 8 additional Senator with a question. I wonder 9 if you could go ahead. CHAIRWOMAN KRUEGER: Okay, thank you. 10 11 I see Senator Ramos raising her hand. 12 SENATOR RAMOS: Yes, Senator Ramos has a question. 13 14 CHAIRWOMAN KRUEGER: You know what, Senator Ramos, I apologize. Shelley Mayer 15 had her hand raised, and I feel I must call 16 17 on her first --SENATOR RAMOS: Only because it's 18 Shelley. 19 20 CHAIRWOMAN KRUEGER: Thank you. We need to hear you, Shelley. 21 SENATOR MAYER: Can you hear me now? 22 23 CHAIRWOMAN KRUEGER: Yes, we can. 24 SENATOR MAYER: Okay. Thank you,

Madam Chair. Thank you, Senator Ramos.

2 Commissioner, I have a question. Was 3 there a delay in the scoring of exams because of COVID, exams that had been taken prior to 4 5 COVID but then they either were not scored or the results were not sent out to the 6 respective test-takers or to the 7 8 municipalities? This was a complaint I 9 heard. COMMISSIONER BRABHAM: I'm not aware 10 11 of -- are you talking about a specific municipality or a specific -- I'm not aware. 12 SENATOR MAYER: Yeah, I am, but I just 13 14 wondered whether this is an institutional problem of -- because people were out, that 15 test did not get scored on a timely basis 16 17 once COVID really kicked in in March. COMMISSIONER BRABHAM: Yeah, well, we 18 didn't really have people out. We did have 19 20 people who were working remotely, but that 21 didn't stop the scoring of exams or any of 22 that work that needed to happen. 23 So if there was a delay in scoring, I

24 am not sure that that's directly related to

| 1 | COVID. But if you'd like to talk offline |
|----|--|
| 2 | about a delay or something that should have |
| 3 | happened that didn't, I'm happy to do that. |
| 4 | SENATOR MAYER: Okay, thank you. I'll |
| 5 | follow up directly with you. |
| 6 | COMMISSIONER BRABHAM: Okay. |
| 7 | CHAIRWOMAN KRUEGER: Okay, thank you. |
| 8 | And now now we'll go to Senator Ramos. |
| 9 | Thank you. |
| 10 | SENATOR RAMOS: Thank you, |
| 11 | Senator Krueger. |
| 12 | I wanted to ask, Commissioner I |
| 13 | noticed that the Executive Budget is |
| 14 | proposing \$800,000 in order to be able to |
| 15 | proctor civil service exams online. I would |
| 16 | have actually thought that that was a |
| 17 | cost-saving measure. I understand, you know, |
| 18 | you might have to put more things online. |
| 19 | How are we justifying that cost, that |
| 20 | investment right now? I understand that it's |
| 21 | necessary, you don't need to make that |
| 22 | argument to me, I'm just wondering about the |
| 23 | price tag and, you know, why it's so high. |
| 24 | COMMISSIONER BRABHAM: So the \$800,000 |

1 that you're referencing is not to put things 2 online, it's to set up the virtual proctoring environment so that when an individual is at 3 home and they're taking a test, an exam 4 5 online -- it's the security for the exam. 6 It's not just to simply put things online. 7 There's --8 SENATOR RAMOS: I'm sorry, it's the 9 security for the exam? What does that mean? COMMISSIONER BRABHAM: Well, you 10 11 have -- so someone has to proctor the exam to make sure that there's not cheating. So just 12 as the -- you know, similar to if you were 13 14 taking an exam sitting in a room, there would be two to three individuals --15 SENATOR RAMOS: Ah. 16 17 COMMISSIONER BRABHAM: -- you know, making sure that people aren't sharing 18 answers or cheating or doing any of those 19 20 things. So --SENATOR RAMOS: Okay, so this 800 is 21 22 largely, then for payroll. COMMISSIONER BRABHAM: It's for 23 24 proctoring of the exam.

SENATOR RAMOS: I see. Okay. And do 1 2 you plan on keeping any of these exams, if 3 not all of these exams, virtual? Will there continue to be a virtual option, do you 4 5 think, after -- you know, post-pandemic, 6 whenever that might be? 7 COMMISSIONER BRABHAM: Well, yeah, 8 that -- right. So, you know, if there's any 9 silver lining to this, it's that it has, you know, moved the needle in the direction of 10 11 virtually proctored exams. And so as we move forward, we anticipate that the majority of 12 the exams that we administer will be done 13 14 online. There -- you know, for the time being 15 there may still be some exams that remain 16 17 paper and pencil due to the nature of the exam. You know, exams that have a lot of 18

19 technical material, you know, for now -- you 20 know, for example, the engineering exam would 21 continue to be paper and pencil for the time 22 being.

But most of the exams will be movingin the direction of being virtually proctored

1 and online.

2 SENATOR RAMOS: Thank you for the 3 information, Commissioner. COMMISSIONER BRABHAM: You're welcome. 4 5 CHAIRWOMAN KRUEGER: Thank you. 6 Assembly, anyone else on your side? 7 CHAIRWOMAN WEINSTEIN: No, we can go 8 on to the next witness. CHAIRWOMAN KRUEGER: All right. Thank 9 you very much, Lola. Appreciate your time 10 11 today. 12 COMMISSIONER BRABHAM: Thank you. Great to see you. 13 14 CHAIRWOMAN KRUEGER: All right. Our next commissioner is Michael Volforte, 15 director, New York State Governor's Office of 16 17 Employee Relations. Good afternoon. 18 19 GOER DIRECTOR VOLFORTE: Good evening. 20 Thank you for having me here. CHAIRWOMAN KRUEGER: Certainly. 21 GOER DIRECTOR VOLFORTE: Chairs 22 Weinstein and Krueger and honorable members 23 24 of the Assembly and Senate, my name is

Michael Volforte, and I serve as the director
 of the Governor's Office of Employee
 Relations. Thank you for the opportunity to
 address you on Governor Cuomo's Executive
 Budget proposal for fiscal year 2022 as it
 relates to the state workforce.

7 The past year has certainly brought us 8 unprecedented challenges that none of us 9 expected. I'd be remiss if I didn't open my remarks by acknowledging the dedication of so 10 11 many New York State employees who have been on the front lines of our response to 12 COVID-19. We have thousands of front-line 13 14 workers who have been on the job every day 15 throughout the pandemic, thousands more who have stepped up to keep critical programs 16 17 going and services running despite the difficult circumstances. 18 We saw thousands more state employees 19

20 willingly help out their fellow New Yorkers
21 by staffing hotlines for answering
22 COVID-19-related questions, scheduling

- 23 testing, and processing Unemployment
- 24 Insurance claims of an unprecedented nature.

I applaud all their dedication, and my
 agency remains steadfastly committed to
 working with their employee organizations to
 address all of their concerns.

5 Under the Governor's leadership, GOER 6 has mounted a robust response to the 7 pandemic. In mid-March, through negotiated 8 agreements, we expanded the availability of 9 telecommuting for employees who did not need to be on-site to deliver services. These 10 11 were fair agreements that balanced the needs of the state to continue delivering 12 mission-critical services while balancing the 13 14 needs of our employees.

As a result, we've been able to reduce the number of employees on-site at any given work location to help ensure adequate social distancing.

19These expanded telecommuting20arrangements are in place through April 2nd,21and employees not telecommuting have returned22to office settings pursuant to safety plans23put in place by every agency in accordance24with Department of Health guidelines.

GOER also negotiated with all of our 1 2 employees to relax deadlines that would have 3 had employees otherwise forfeit unused vacation and other leave credits, even though 4 5 many of those employees were unable to use those credits due to the critical nature of 6 7 the work they were performing in response to 8 COVID-19.

9 We also created a new, more flexible leave category to receive paid leave and set 10 11 up a new response infrastructure to ensure we 12 can give the proper guidance to agency managers who are navigating the difficult 13 14 employment issues raised by the pandemic. While this new system started in response to 15 the pandemic, we have recently transitioned 16 17 it to a model where we use this system to handle all employment-related inquiries from 18 agencies and give them advice that they need. 19 20 A great number of employees who take

advantage of our flexible spending
accounts -- pretax programs designed to allow
employees to pay for certain eligible
expenses on a pretax basis -- were impacted

by the pandemic. GOER took steps to 1 ameliorate the impact of COVID-19 on this 2 program by extending processing deadlines for 3 use of 2019 funds, alerting individuals about 4 5 the ability to change 2020 deductions within federal guidelines, and expanding the 2021 6 7 program by permitting employees more time and 8 access to their 2020 funds during the plan 9 year 2021 by permitting a carryover and longer run-out period for two of the 10 11 programs. More than 31,000 employees saved 12 money through these programs. Our Employee Assistance Program 13 14 rendered valuable assistance to almost 23,000 employees working and coping with the 15 pandemic. We also distributed over 7,000 job 16 17 and career related tuition reimbursement benefits in the last year. Guidance was 18 issued on ergonomics associated with working 19 20 from home to help keep the workforce healthy. While much of our focus has been on 21 aiding the response to COVID-19, we have 22 continued to administer benefits and programs 23 24 like these that are designed to improve both

the quality of the work and the personal
 experiences of our employees.

| 3 | Early in the pandemic we directed |
|----|---|
| 4 | agencies to ensure that they utilized the |
| 5 | labor-management process to keep their union |
| 6 | counterparts informed and to address their |
| 7 | concerns. Needless to say, every |
| 8 | conversation isn't easy, and opinions |
| 9 | sometimes differ, but we have remained |
| 10 | committed to dialog with our union |
| 11 | counterparts throughout this crisis and are |
| 12 | proud of the job so many union officials and |
| 13 | agency human resources teams have done |
| 14 | throughout state government to keep the lines |
| 15 | of communication open and get employees |
| 16 | needed information and assistance. |
| 17 | Last year I reported to you that as |
| 18 | part of the Governor's broad agenda to |
| 19 | protect the LGBTQ community we would be |
| 20 | making cultural competency training on gender |
| 21 | identity and expression available to all |
| 22 | state employees. |
| 23 | I'm pleased to inform you that we |
| 24 | recently launched a gender identity toolkit |

that is mandated for all our employees. This 1 is a collection of resources designed to help 2 3 ensure that our employees have the information that they need to make sure that 4 5 all New Yorkers are treated with respect. We're very proud of this toolkit and look 6 forward to developing additional training and 7 8 resources that reflect the Governor's strong ongoing commitment to a New York that is fair 9 and welcoming to all. 10 11 In addition, last year the Governor declared that Juneteenth would be a holiday 12 for the state workforce, and signed 13 14 legislation passed by the Legislature designating Juneteenth as a public holiday in 15 New York. 16 17 As you know, GOER investigates complaints of protected class employment 18 discrimination and harassment in executive 19 20 branch agencies covered by Executive Order No. 187. With our team, we are actively 21 investigating complaints of intimidation and 22 harassment in order to ensure that all 23

24 allegations are investigated, individuals are

advised of the result of that investigation,
 and appropriate action is taken in a timely
 manner against anyone found to have violated
 our policy.

5 When the pandemic hit, we were in 6 negotiations with several unions, and those 7 have been slowed by the pandemic. In the 8 coming fiscal year we anticipate returning to 9 the bargaining table with those unions and commencing negotiation with others whose 10 11 contracts will expire in the coming year. As you all know, the pandemic has created 12 serious fiscal concerns, and the state is 13 14 committed to working with the unions to achieve fiscally responsible agreements. 15

In closing, despite the challenges of 16 17 the past year, executive branch employees have continued to deliver critical services 18 to New Yorkers. GOER stands ready to partner 19 20 with its union counterparts as we move forward and we all look forward to better 21 22 days. 23 Thanks.

24 CHAIRWOMAN KRUEGER: Thank you,

1 Commissioner.

| - | 000000000000000000000000000000000000000 |
|----|---|
| 2 | We've been joined by Senator John Liu. |
| 3 | Any Assemblymembers you'd like to |
| 4 | introduce, Helene? Any new ones? |
| 5 | CHAIRWOMAN WEINSTEIN: No. But we do |
| 6 | have a question if you don't. |
| 7 | CHAIRWOMAN KRUEGER: Oh, no, we do, I |
| 8 | just thought I would give you an opportunity |
| 9 | to introduce others who showed up. |
| 10 | We have our chair, Andrew Gounardes, |
| 11 | chair of Civil Service. |
| 12 | SENATOR GOUNARDES: Great, thank you. |
| 13 | Thank you very much, Director. |
| 14 | I only have a couple of quick |
| 15 | questions for you, and I want to kind of pick |
| 16 | up from where you just left off talking about |
| 17 | bargaining with our labor unions in |
| 18 | collective bargaining agreements. And I |
| 19 | wanted to ask you specifically about the one |
| 20 | set of workers, state workers who have been |
| 21 | working without a contract for the last seven |
| 22 | years, and that is our PBA in New York State, |
| 23 | the people that represent the Park Police and |
| 24 | the SUNY Police and the Environmental |

1 Conservation Police.

| 2 | They have a pay bill which has been |
|----|---|
| 3 | waiting, and that was a court-ordered |
| 4 | arbitration award, which has been delayed by |
| 5 | the Executive. It is accruing interest by |
| 6 | the day. And so the longer we delay in |
| 7 | paying this bill that was due seven years |
| 8 | ago, it's going to only become more costly to |
| 9 | the state. |
| 10 | And in light of the fiscal challenges |
| 11 | that you just alluded to, I'd like to ask, |
| 12 | you know, when can we expect to see this pay |
| 13 | bill finally executed and the bill paid for |
| 14 | these workers? |
| 15 | GOER DIRECTOR VOLFORTE: Thank you, |
| 16 | Senator. |
| 17 | Certainly it's a matter of concern to |
| 18 | us. A clarification, though. The interest |
| 19 | arbitration award was issued and was agreed |
| 20 | to by the state, but the passage and signing |
| 21 | of the pay bill is a necessary precursor to |
| 22 | paying that award. So as soon as the as |
| 23 | soon as it's passed and signed, the pay bill |
| 24 | will be implemented, and that's what |

implements that interest arbitration award.

2 SENATOR GOUNARDES: Well, I don't 3 know if we have the bill yet from the Executive. I know we're waiting for that 4 5 bill to be passed down to us, as we were waiting last year, which he released at the 6 last minute. And, you know, we clearly can't 7 8 take that action until the Executive gives us 9 that pay bill to execute on it.

10 So I think that we are waiting for 11 those next steps in order to move forward and 12 make sure that these state employees are able 13 to get to the pay that they were told they 14 deserve seven years ago.

So it's clearly a concern for me, and
hopefully we can expedite this as soon as
possible.

18 The next question I wanted to kind of 19 focus in on, in your capacity as director, 20 what advice and expertise have you been able 21 to give to other agencies at the state level 22 in terms of them crafting and preparing their 23 own workplace safety plans, as required by 24 the pandemic preparedness chapter that we --

I discussed with the previous two panelists?

2 GOER DIRECTOR VOLFORTE: Certainly. 3 There's been a lot of discussion on this, and 4 I know that the agency plans are in process 5 for them to be shared with the unions.

6 Our focus is really on those things 7 that are, you know, either subjects of 8 collective bargaining, either for the future, 9 perhaps, or have already been the subject of 10 collective bargaining.

11 So questions on changing of schedules, altering of work weeks and that nature -- and 12 certainly things, you know, revolving around 13 14 things like telecommuting, which I mentioned 15 that we negotiated telecommuting agreements. So it's on how the workforce gets scheduled, 16 17 where they work, when they work, those type of questions has been really the focus as 18 agencies have developed these plans and we've 19 20 had interactions with them.

21 SENATOR GOUNARDES: In your 22 assessment, do you think that -- or do you 23 have any concern that we're not going to be 24 able to meet the April 1st deadline?

Because, you know, we are -- all 1 2 levels of government are trying to bring 3 employees back to work in any way possible, and I want to just get your assessment as to 4 5 whether or not we'll be ready to bring them back safely within the next couple of months. 6 7 GOER DIRECTOR VOLFORTE: Certainly. 8 I have no concerns that the state is 9 going to meet the deadlines imposed by the law. And agencies have been operating under 10 11 safety plans since May which have already been shared with the unions, which are 12 COVID-19-specific. 13 14 The COOPs that the Legislature passed and the Governor signed into law aren't 15 COVID-19-specific, although they will be --16 17 you know, our COVID experience will certainly inform them. 18 So agencies that are bringing 19 20 employees back are already operating under 21 safety plans. But I've got absolutely no 22 concerns that agencies will meet the April 1st deadline for the COOP plans currently 23

24 required by Chapter 168.

1 SENATOR GOUNARDES: Great. Thank you 2 very much. Those are all my questions. CHAIRWOMAN KRUEGER: Thank you. 3 Assembly. 4 5 CHAIRWOMAN WEINSTEIN: Yes, we go to 6 Assemblyman Ra, our ranker, for five minutes. 7 ASSEMBLYMAN RA: Thank you, 8 Chairwoman. 9 I just wanted to ask a little bit more -- you mentioned in your remarks, you 10 11 know, the two main kind of cost-saving 12 initiatives, the hiring freeze and the deferral of the salary increases. 13 14 With regard to the hiring freeze, is 15 there, you know, set, clear criteria for the agencies to utilize when knowing whether 16 17 they, you know, should be looking at bringing somebody in and looking for a waiver? 18 GOER DIRECTOR VOLFORTE: I think 19 20 historically the hiring freezes have had exceptions to them, but I believe all the 21 agencies have been advised of that. 22 23 And they normally fall into two 24 categories for applying for exceptions.

Health and safety is one major area. And 1 2 then mission-critical, where perhaps those 3 employees aren't necessarily related to health and safety, but if you have one person 4 5 performing a duty and you need to replace that individual, that certainly is 6 7 mission-critical, and that is part of the 8 process.

9 And hires need to be justified, and 10 understandably so, given the current economic 11 circumstance we're in. But I believe that 12 through the Division of Budget and others, 13 that that guidance has been given to the 14 agencies.

ASSEMBLYMAN RA: Okay. And in the case of a transfer, a waiver is required for that as well, if it was like between agencies or --

19GOER DIRECTOR VOLFORTE: That -- that20I'm unaware of. GOER isn't involved in the21transfer process; it's really through the22Department of Civil Service. But -- so I23can't really comment on whether a waiver is24required for a transfer.

ASSEMBLYMAN RA: Okay. Thank you. 1 2 And then just with regard to the 3 deferral of the salary increases, do you know what the -- you know, I guess the current 4 5 proposal would be that it would go to 2023 --6 what the retroactive payment liability would 7 be? 8 GOER DIRECTOR VOLFORTE: I don't have 9 the retroactive payment liability in front of me. But I would say I believe that in the 10 11 budget that that 2023 number is the 12 worst-case-scenario number in terms of federal aid. 13 14 And then I believe as both the Governor and the Budget Director stated, that 15 if we get our fair share, which is the \$15 16 17 billion minimum, which we expect to be our fair share, that we would repay that -- those 18 deferred raises before that. 19 20 ASSEMBLYMAN RA: Okay. Thank you very much for being here. 21 22 Chair, I -- that's it. 23 CHAIRWOMAN KRUEGER: Thank you. 24 Are there any other legislators who

would like to ask questions? 1 CHAIRWOMAN WEINSTEIN: I have --2 Assemblywoman Jodi Giglio has a question, for 3 three minutes. 4 5 ASSEMBLYWOMAN GIGLIO: Thank you. Yeah, Ed Ra asked the question that I 6 was interested in, which is the deferral of 7 8 the contractual obligations for the 9 bargaining agreements, collective bargaining agreements. 10 11 CHAIRWOMAN WEINSTEIN: Okay. So then 12 I think we are finished with this panel, Senator Krueger. 13 14 CHAIRWOMAN KRUEGER: Thank you very 15 much, Assemblywoman. And thank you very much, Michael, for 16 17 being here with us tonight. GOER DIRECTOR VOLFORTE: Thank you 18 all. Very much appreciate it. 19 20 CHAIRWOMAN KRUEGER: -- late afternoon. We're almost hitting tonight. 21 22 Thank you. GOER DIRECTOR VOLFORTE: Be safe, all. 23 24 CHAIRWOMAN KRUEGER: So our next

1 panel -- so now we move to the panels where 2 people have asked to testify. And even 3 though it seems ridiculously short, they get three minutes to testify and then we 4 5 basically get three minutes to ask them 6 questions, wherein their answers have to be 7 within the three minutes also, with the 8 exception of chairs, who get five minutes 9 during these rounds. I know it's been a long day, several 10 11 hearings. But I think I got that all out correctly. 12 So our first panel, Civil Service 13 14 Employees Association, Local 1000, Francine Turner, director of legislative and political 15 action. 16 17 Then New York State Public Employees Federation -- you know, my chart says 18 Wayne Spence, but I think I got a note 19 20 earlier today that somebody was going to be filling in for Wayne. Yes, indeed. And she 21 will introduce herself when we get to her. 22 23 Thank you. 24 And for District 37, Henry Garrido,

3

executive director.

You go first.

2 Good afternoon, slash, evening, Fran.

MS. TURNER: Good evening. How are 4 5 you, Senator? It's good to see you. 6 CHAIRWOMAN KRUEGER: Nice to see you. 7 MS. TURNER: I want to touch on just 8 two things in our testimony that are the most 9 important for us. And let me lay a little background. I'm going to talk about the 10 11 Office of Mental Health. 12 So over the past six years we have seen a 30 percent reduction in children's 13 14 beds across the state for in-resident treatment of those that are in need of 15 psychiatric care. We've seen a 20 percent 16 17 reduction across the state for adult beds. Last year I heard the commissioner say 18 that we've absolutely hit rock bottom, can't 19 20 go any further. And this year we look at this budget proposal and they are proposing 21 another 200 beds across the board will come 22 23 down. Eighty-eight of those beds are 24 children's beds, 78 are adult beds, and the

rest are in the forensic units.

2 They say that the door has been open 3 during the pandemic, but if we look at pre-pandemic numbers, most of these 4 5 facilities where these beds are coming down were at capacity or very near capacity. 6 So there's no question that during the 7 8 COVID people stopped seeking treatment, for whatever reason. I wouldn't say -- OMH 9 claims the door was open. I would say 10 11 perhaps it was ajar, but it wasn't open all the way. And we've seen mental health 12 problems across the state with our children 13 14 who have been out of school for almost a 15 year, for many of them, with our family members that can't see their loved ones if 16 17 they're in the hospital and they're passing away, can't see their parents in the nursing 18 homes. I mean, there have been more and more 19 20 incidences where these beds are going to become critical. 21 22 This year there's no reinvestment, 23 either, so this is a definite

24 across-the-board cut in services and the

state pulling back on their obligation.

2 It's also they want to privatize --3 straight-out privatization of 100 of our 4 community residence beds. And we have 5 nowhere to go with this. There's not going 6 to be enough services for people that need 7 it.

8 This clock is running fast, and I 9 haven't gone to OCFS, which is going to close 10 facilities. But I want to answer Senator 11 Gounardes's question that he asked of Civil 12 Service.

13 If a member is offered a job two hours 14 away, we don't believe that's a real offer. 15 If they refuse that job, they would go on a 16 preferred list. But we don't believe it's a 17 real offer. If they refuse that job, it's 18 actually a layoff.

19And you don't just disturb the people20that are leaving the facilities, you have a21layoff unit that is bigger. So you are22affecting a lot more people. Because I can23come from a facility, go to a new facility,24and I can bump and retreat. Right? So more

people are going to get affected that just
 those in the closed facilities.

| 3 | And we have four closures in OCFS, |
|----|--|
| 4 | leaving no services in Suffolk County. We |
| 5 | also have Rockland Children's Psych closing |
| 6 | in Rockland, which means there would be no |
| 7 | children's beds from the Bronx to Utica, |
| 8 | New York, leaving a vast territory of not |
| 9 | having service for the children in the psych |
| 10 | centers. |
| 11 | And I guess I have 11 seconds to go. |
| 12 | I'm done. How's that? |
| 13 | (Pause.) |
| 14 | CHAIRWOMAN KRUEGER: I didn't realize |
| 15 | I was on mute. Thank you very much, Fran. |
| 16 | Next, from PEF. |
| 17 | MS. DiANTONIO: Good evening, |
| 18 | Chairpersons Krueger, Weinstein, Gounardes, |
| 19 | Abbate, and other distinguished committee |
| 20 | members. Thank you so much for having us |
| 21 | here today and giving us the opportunity to |
| 22 | speak with you. |
| 23 | First I want to echo everything my |
| 24 | sister from CSEA has just said about the |

closures and the cuts at OMH, particularly
 around children's beds and services. This
 trend to downsize and diminish the Office of
 Mental Health, the closures within OCFS, the
 cuts in beds at OPWDD is happening from Long
 Island to Buffalo.

7 We have significant concerns that this 8 budget is being balanced on the backs of our 9 most vulnerable citizens. It goes against 10 every stated value that we've talked about 11 throughout this pandemic about making sure 12 that critical services are available and 13 being provided to the state's most needy.

15 Underfunding, short staffing, critical short 16 staffing of nurses has been the reason or the 17 excuse to cut some of these services. It is 18 incredibly important for us to look at this 19 budget and really reinvest and recalibrate 20 how we provide public services.

This is a contradiction.

14

You know, if mental illness is growing in this state, why are we cutting services? If you want meaningful criminal justice reform, why are we closing juvenile justice

centers that provide unique and specialized

2 services?

| 3 | I'm a social worker by trade. I |
|----|---|
| 4 | started my career at OCFS. I worked with |
| 5 | juveniles who committed sex offenses. These |
| 6 | programs that are slated to close provide |
| 7 | services like sex offender treatment, they |
| 8 | provide critical supports for people in the |
| 9 | LGBTQ youth community. We're talking about |
| 10 | trying to fix the system by taking away all |
| 11 | the tools in the toolbox that we would use to |
| 12 | fix it. |
| 13 | You know, across the state |
| 14 | consolidating community services offices at |
| 15 | OCFS. They're looking to close all the |
| 16 | New York City offices and make one in |
| 17 | Brooklyn. They're looking to close the |
| 18 | Binghamton and the Watertown community |
| 19 | services offices. Where are these families |
| 20 | and these youth supposed to go to get |
| 21 | services? Are they supposed to drive from |
| 22 | one end of the state to the other? Because |
| 23 | that's not the reality. |
| 24 | We continue, despite us banging this |

drum for years and years, to spend a billion
 dollars on consultants. We continue to have
 over 8,000 FTEs that are -- you know, could
 be better served by being reinvested into the
 public workforce.

6 This is not a budget that takes care 7 of not only the heroes that we've had working 8 for us, but the people that we say need the 9 services the most.

One of the things in the budget -- an 10 11 oldie but a baddie -- you know, is trying to cut retiree healthcare benefits. Every year 12 it comes up, and every year we say, why are 13 14 you doing this on the backs of people with fixed incomes when we're trying to recruit 15 new state employees and we've cut benefits 16 17 and pension plans?

All of these things lead to, you know, a diminishment in services and care for our New Yorkers. And, you know, we've stepped up to the plate and we really need, you know, your help in making sure this budget is reflective of our real values.

24 Thank you.

| 1 | (Pause.) |
|---|----------|
| 1 | (rause.) |

2 THE MODERATOR: Senator Krueger, 3 you're on mute.

CHAIRWOMAN KRUEGER: Henry, it's your 4 turn. I apologize, I was on mute. 5 6 MR. GARRIDO: Thank you and good 7 evening, Chair Krueger and Chair Weinstein 8 and the members of the state Assembly and the 9 Senate -- too many friends to begin to name them all, my three minutes will be up just by 10 11 naming you all and thanking you for your 12 leadership. My name is Henry Garrido. I'm the 13 14 executive director of District Council 37, the largest municipal union in New York City, 15 representing 150,000 municipal employees and 16 17 nonprofit workers. You know, COVID-19 has left us 18 unprecedented challenges, and nearly 200 DC 19 20 37 members have lost their lives by providing essential services. And yet we haven't 21 skipped a beat and will continue to deliver 22 services to New Yorkers. 23 24 So therefore, I mean, I only ask that

this budget prioritizes those very essential
 services that have sacrificed so much,
 including their own lives, for New Yorkers.

And I want to focus my testimony on 4 5 three areas. One, I want to push back on the unprecedented cuts in the Executive Budget. 6 Two, I want to make a case for state revenue, 7 8 which includes taxing the wealthy. And lastly, I want to make a particular emphasis 9 on an early retirement incentive to address 10 11 New York City's shortfall.

12 First, let me start with Medicaid and human services. I think the Executive Budget 13 14 proposes a 1 percent across-the-board cut for Medicaid that has the recommendation of the 15 Medicaid Redesign Team of \$2.5 billion. And 16 17 it has no sound -- no basis in public policy. That would result in \$116 million in 18 cuts to the Health + Hospitals Corporation 19 20 and \$113 million for FY '21 and '22 respectively. Which, you know, in the middle 21 of this pandemic, makes no economic or sound 22 23 sense in terms of delivering services.

I want to speak for health and human

24

services which, in spite of the recent increases, the funding continues to be flat. And we are looking for an increase in health and human services at a time that we need it the most. I think it's very dangerous to gamble with this -- the lack of delivery of services.

8 The salaries of workers have remained 9 flat, and many of them have not been the 10 recipients of the services that we've seen 11 across the board of all the city workers.

12 I want to make a case shortly about taxing the rich and rebuilding an economy 13 14 that requires us to pitch in. I know it's difficult, but it's something that we need to 15 do. And there are a number of proposals on 16 17 the table. And, you know, I will say to you: Pick one, pick two, pick three -- but pick 18 one. I mean, like get to the point where we 19 20 talk about revenue and not balancing the cuts of the budget on the workers. 21

Lastly, and equally important, the
early retirement system which we have
proposed. And I want to thank Chairmen

Gounardes and certainly Abbate for their 1 leadership in the effort. We need an early 2 3 retirement system that recognizes the hard work of dedicated workers and lets them 4 5 retire with some dignity and economic 6 security, and it allows us to also do --7 balance the budgetary constraints of the 8 city. 9 Thank you for the opportunity to testify. And I'll close with this. A budget 10 11 will always be a statement of values. If you 12 value essential workers, you will make sure that those workers are funded and provided 13 14 for. 15 Thank you. CHAIRWOMAN KRUEGER: Thank you very 16 17 much. All right, thank you all three. I know I saw the hand of Senator Shelley Mayer 18 first, I believe. 19 20 SENATOR MAYER: Thank you, Madam Chair. I think someone needs to be 21 22 muted. CHAIRWOMAN KRUEGER: I think so too. 23 24 Anybody who is not on mute?

SENATOR MAYER: First, I want to --1 2 Fran -- thank you all for your testimony, 3 very much, and thank you for your leadership in this really tough time and for your 4 5 members who stepped up, as you said, Henry, 6 and many of whom paid the incredible price of life for this. 7 8 Do you have a projected number of staff reductions that you think -- to your 9 membership, given the Governor's proposals in 10 11 the agencies you mentioned? 12 MS. TURNER: You're talking to me? SENATOR MAYER: Yes, I am, Fran. 13 14 MS. TURNER: You know what, probably close to 200. But let's talk about it. 15 Because the ARTL system will work, right. 16 17 This is the agency transfer system. But -- so let's say there's 200 people 18 from the affected facilities. They will be 19 20 offered a job, let's say, Goshen -- somebody 21 from Goshen is offered a job at Brookwood. 22 Okay? That person going from Goshen is in 23 the same layoff unit. Right? 24 SENATOR MAYER: Yes.

1 MS. TURNER: But perhaps they go, and 2 they lay off or they're going to bump 3 somebody in Brookwood, because they have more 4 time.

5 So it's hard to say. Probably around 200 jobs total, but it's hard to say. Some 6 7 of these facilities do have openings, so some 8 will go smooth. But it's hard to say how 9 many more families will be affected. Right? SENATOR MAYER: Yes. And one of --10 11 MS. TURNER: Because it's not just the 12 person moving, it's -- the whole layoff unit 13 is the same. 14 SENATOR MAYER: I understand. 15 And Randi, do you have a PEF number for what you anticipate the impact of the 16 17 Governor's budget on your membership? MS. DiANTONIO: Well, I mean, we know 18 that we know that we would lose around 19 20 800 FTEs total. But it's not by unit, it's total. 21 22 I mean, we have seen over the last

23 many, many years a significant reduction in24 the state workforce. So, you know, any

reduction right now when we're at sort of 1 2 bare bones, people doing jobs that they're not entitled to do -- I mean, they talked 3 about it earlier, they had spread people out 4 5 all over the place because of the staffing 6 problems we have. And I think, you know, this budget is 800 total, but if you look at 7 8 it cumulatively over many years, we are at a 9 critical shortage point.

10SENATOR MAYER: Right, I understand.11And, Henry, I wonder for you, on the12Executive's proposed budget, given what you13mentioned, do you have an idea of how many14employees might lose their jobs?

MR. GARRIDO: We don't. But what 15 we've seen, for instance, with the reductions 16 17 of the previous 10 percent, we saw a reduction of about 2,000 head count in CUNY, 18 in the City University of New York. And 19 20 obviously the \$113 million I mentioned for the hospitals would be devastating at a time 21 22 when we're delivering services. 23 So we reached an earlier agreement

24 with the city for city agencies. That

| 1 | doesn't apply for state agencies. So I don't |
|----------------------------|--|
| 2 | have a total number, Senator. But we're very |
| 3 | concerned about the head count reduction. |
| 4 | SENATOR MAYER: Okay. Well, we are |
| 5 | too, very. This is not a time to lose jobs. |
| 6 | But thank you. |
| 7 | CHAIRWOMAN KRUEGER: Thank you. |
| 8 | Assembly? |
| 9 | CHAIRWOMAN WEINSTEIN: We go to our |
| 10 | ranker on Ways and Means, Assemblyman Ra. |
| 11 | ASSEMBLYMAN RA: Thank you. |
| 12 | To start, I just want to thank all |
| 13 | three of you and all of your members. You're |
| 14 | 100 percent right, these are the essential |
| 15 | workers who have kept our state moving and |
| 16 | |
| | provided essential services. And certainly |
| 17 | provided essential services. And certainly our condolences to all of your members on |
| | - |
| 17 | our condolences to all of your members on |
| 17 18 | our condolences to all of your members on colleagues that were unfortunately lost to |
| 17 18 19 | our condolences to all of your members on colleagues that were unfortunately lost to this virus. |
| 17 18 19 20 | our condolences to all of your members on colleagues that were unfortunately lost to this virus. I just had a question, actually, in |
| 17 18 19 20 21 | our condolences to all of your members on colleagues that were unfortunately lost to this virus. I just had a question, actually, in terms of the state agency workers. My |

transferred to agencies like the State Liquor
 Authority to do enforcement.

| 3 | The inst wordsning if there were one |
|----|---|
| 5 | I'm just wondering if there were any |
| 4 | if you have any information as to, you |
| 5 | know, how many people were doing that type of |
| 6 | work and working in different agencies, and |
| 7 | if that is continuing or if that's been |
| 8 | reduced or |
| 9 | MS. TURNER: We did see a lot of |
| 10 | workers go to DOL at the very beginning |
| 11 | because they were helping with the |
| 12 | unemployment. |
| 13 | But for the CSEA workers remember, |
| 14 | most of our workers on the state side, more |
| 15 | than half of them are direct care workers in |
| 16 | the 24/7 facilities. So we're so |
| 17 | short-staffed there that we couldn't go |
| 18 | anywhere if we wanted to. |
| 19 | And I would only add that, you know, |
| 20 | this hiring freeze has resulted in |
| 21 | 6,000 vacancies across the state. That's a |
| 22 | lot in a year we haven't been able to |
| 23 | replace. So we haven't had the movement I |
| 24 | don't know if Randi, if the PEF workers |

have had movement.

2 MS. DiANTONIO: Yeah, I think a lot 3 of our members at various agencies -- the Liquor Authority, Homeland Security, 4 5 Department of Health, were reassigned to do different tasks. They were doing COVID 6 screenings at the airports. They were doing 7 8 unemployment. They were setting up testing 9 sites.

You know, so over the course of the 10 11 pandemic I think the tasks have shifted. But we absolutely -- Tax & Finance had -- you 12 know, were very involved in answering 13 14 call-center questions. You know, I mean, our 15 members were willing to step up and do whatever they needed to do to help. But I 16 17 think it really magnified the -- nobody could predict the pandemic, but it really magnified 18 that there were critical shortages to address 19 20 real needs when New Yorkers needed them most. 21 And I think many people have gone back

22 to the roles that they had previously, but we 23 still have people doing alternate duties and 24 working as they've been asked to. Much of it

- has been voluntary. Some were, you know, not 1 2 able to have voluntary assignments. 3 ASSEMBLYMAN RA: Great. Thank you. CHAIRWOMAN KRUEGER: Thank you. So 4 5 that was Assembly, so back to Senate. Our chair -- hi. Back to our chair of 6 Civil Service, Andrew Gounardes, 7 8 five minutes. 9 SENATOR GOUNARDES: Great. Thank you. Hello, everyone. You just -- all 10 11 three of you really touched on a lot of the issues that I was going to ask about, so 12 thank you very much for sharing your stories 13 14 and your perspectives on behalf of your 15 members. I want to just ask you all kind of the 16 17 same question. You know, we heard from some state officials about what steps are being 18 taken to ensure that state workplaces are 19 20 being made safe as we're trying to bring workers back home. So I'd love to hear from 21 22 you, especially Randi and Fran, about what 23 was the consultation you have seen in 24 workplaces to help bring these agencies up to
- 154

speed to bring your workers back?

2 And then for you, Henry, you know, the 3 mayor announced a very ambitious plan last week to bring back a majority of our 4 5 workforce in a few months. I really want to hear from you as to whether you think we're 6 7 ready for that. And that's obviously on a 8 much larger scale and size than I think some 9 of the other agencies and entities we're taking about. 10 11 MS. TURNER: So I guess I'll go first. 12 I will say this, Senator. For probably 85 percent of the CSEA state 13 14 workforce, they reported to work during this pandemic because the nature of their job is a 15 direct care job. Right? So they went to 16 17 work every day. You know, let's face it, when it first started we all had the PPE 18 problems. It's scary. We also lost 82 CSEA 19 20 members in all the different agencies. It was scary. Things have gotten a lot better. 21 22 You know, Mike Volforte did talk about 23 we did have regular labor-management 24 meetings. And the sooner we started them,

the better off we were as far as workplace 1 2 safety guidelines. And the agencies have worked with us, they want to keep us safe. 3 You know, it's been hard in our OPWDD 4 5 facilities because the client doesn't understand wearing a mask, they don't 6 7 understand social distancing. There's a lot 8 of intensive treatment there. It's been 9 tough. But I would say that the agencies 10 11 worked with us, we're doing the best we can. For those in DOL that worked remotely, a lot 12 of them back to work and they feel 13 14 comfortable. We haven't had many complaints. 15 DMV, a few complaints, because they're in -- they're in touch with the general 16 17 public every day, all day long. So it is a little bit harder for them, and especially 18 for our DMV workers who administer the road 19 20 test, because they're getting in cars with 21 people. You know, that's difficult. 22 SENATOR GOUNARDES: Thank you. Randi? 23 24 MS. DiANTONIO: Yeah, so I would like

1 to say that our experience with a lot of the 2 agencies has been the same as far as, you know, getting our input, collaboration. Some 3 agencies have been way better than others. 4 5 The agencies where we have, you know, our 6 medical, healthcare professionals, people that are in critical roles where they have 7 8 gone into the workplace every single day. 9 You know, our prisons in particular.

10 We are still -- you know, some 11 days are better than others. We still have 12 facilities where getting the right PPE has 13 been problematic. And we have others that 14 have been absolutely on top of stuff. So 15 it's definitely been hit and miss.

Where I think we have really seen a 16 17 lack of what we consider logic is the locations -- a lot of our administrative 18 agencies that did go to remote work and were 19 20 extremely productive have started bringing 21 people back into the worksites without a 22 whole lot of reason to do so. Especially in 23 the New York City area, where public 24 transportation, where rising numbers, all of

| 1 | these things were happening at the same time |
|----|---|
| 2 | as them telling people that had successfully |
| 3 | transitioned to remote work, they're being |
| 4 | told to come back in. And they really didn't |
| 5 | have a good rationale for it. |
| 6 | We're still definitely looking forward |
| 7 | to seeing some of the pandemic plans. We |
| 8 | haven't necessarily been given the |
| 9 | opportunity to provide input, although we've |
| 10 | given input, whether it's been taken into |
| 11 | account or not. |
| 12 | I do think that it's it's one of |
| 13 | those things where we are pushing constantly |
| 14 | to reduce density in certain settings. Our |
| 15 | buildings are old, we have, you know, |
| 16 | facilities that don't have great ventilation. |
| 17 | And the more we can do that, the better. But |
| 18 | it has not been an easy road, and I think |
| 19 | there's definitely more we hope to |
| 20 | accomplish, and we hope to have those |
| 21 | conversations at the agency level. |
| 22 | I do want to answer a question you had |
| 23 | asked earlier, if that's okay, on quarantine |
| 24 | leaves. |

| 1 | SENATOR GOUNARDES: Let me hear Henry, |
|----|---|
| 2 | and I'll come back for a second round after |
| 3 | that. Okay, Randi? Thank you. |
| 4 | MS. DiANTONIO: Great. |
| 5 | MR. GARRIDO: Let me just say that of |
| 6 | 150,000 members we represent, 100,000 were |
| 7 | already deemed essential, so they're working |
| 8 | every single day in the city agencies. |
| 9 | However, if you look at what I |
| 10 | mentioned from the onset of my testimony, you |
| 11 | look at the nearly 200 DC 37 members who |
| 12 | passed away while from COVID-19, you'd be |
| 13 | surprised to hear that the majority of those |
| 14 | workers did not come from hospitals or |
| 15 | healthcare units who are directly dealing |
| 16 | with people who are sick. They're |
| 17 | actually the number of people passing away |
| 18 | in those hospital settings was lower than in |
| 19 | some other agencies. |
| 20 | Where you saw the biggest number was |
| 21 | in homeless services, in you saw it in |

21 in homeless services, in -- you saw it in 22 social services. People were applying for 23 food stamps online, but they had to be 24 recertified by an agency, and they kept

everyone coming in in clusters, right? And
 clients, as Fran said, were not using masks
 and were not exercising social distance. It
 took a while for people to get organized.

5 But I will say that we're not ready 6 yet. We're hoping to install partitions in 7 some instances, and obviously exercise -- I 8 think that what we've done better is to 9 provide PPEs where we didn't have any, you know, and filters and things of that nature 10 11 where we are required to, and then there's more of a general recognition to wear masks 12 and everything else. 13

14 I would say that -- just to work off something that Randi said, is that it's very, 15 very clear to me that we're rushing for 16 17 public policy to bring everybody back when it's not necessary. When productivity is 18 still up, through the roof, where people are 19 20 doing remote location -- look, at some point we're all going to have to come back, there's 21 no question about it, right? But if we're 22 vaccinating workers at the tune of 3,000 a 23 day -- right now many of our workers want to 24

| 1 | be vaccinated; there's no vaccine available |
|----|---|
| 2 | for them even though they're classified as |
| 3 | 1b or 1a, first responders because the |
| 4 | city ran out of it. I don't understand what |
| 5 | the rush is |
| 6 | CHAIRWOMAN KRUEGER: Thank you. I'm |
| 7 | sorry, Henry, I let you go on because I |
| 8 | didn't think you'd had a fair chance. But |
| 9 | now I have to jump to the Assembly. |
| 10 | Helene? |
| 11 | CHAIRWOMAN WEINSTEIN: So we need to |
| 12 | go to Jo Anne Simon, for three minutes. |
| 13 | ASSEMBLYWOMAN SIMON: Unmute. And the |
| 14 | video. Okay. Had a little lag on the unmute |
| 15 | and the video. |
| 16 | CHAIRWOMAN KRUEGER: I know, |
| 17 | everything's slowing down tonight for some |
| 18 | reason. |
| 19 | ASSEMBLYWOMAN SIMON: Okay. So thank |
| 20 | you all for your testimony. It's been very |
| 21 | helpful. And I think a lot of us share your |
| 22 | concerns. |
| 23 | I guess I have a first question for |
| 24 | you, Francine, about the closure of these |

facilities, for example, particularly for 1 2 youth. And it strikes me that these closures 3 are not going to just affect the workers and the young people that are needing to be 4 5 served, but that post-COVID we are seeing increasing numbers of young people in 6 7 particular, but the population, with anxiety 8 and depression, and increasing the need for 9 these facilities to provide that care as well as obviously, you know, outpatient care and 10 11 community-based services. 12 Do you have any estimates of what you believe the need will be post-COVID? Are 13 14 your folks studying that at all? Can you help us figure that out? 15 MS. TURNER: We looked at the 16 17 figures -- and I want to talk about OMH. We looked at the figures for OMH pre-COVID, and 18 most of the facilities were at capacity or 19 20 near capacity. So COVID comes, right. Even last November of 2020, Rockland Psych Center 21 22 was at capacity. So how they've now 23 justified moving those beds to the Bronx, I 24 don't know. I don't think there is any

justification to leave the Bronx to Utica 1 2 empty of no children's beds.

3 But if you look at the numbers pre-COVID, even up to April of 2020 they were 4 5 at or near capacity. There's no question there was a drop-off, right? We didn't want 6

7

people in congregate settings, so there was 8 no question we weren't going to leave that 9 door wide open to bring people in. So that's what we're comparing it to. 10

11 And we're also comparing it to last 12 year the commissioner of OMH said, I can't go any further, I cannot take down any more 13 14 beds. And now all of a sudden -- yup, I'm sure some of them are empty because of COVID. 15 But what's going to happen as we get through 16 17 this? Because we're not through it yet. ASSEMBLYWOMAN SIMON: So that's true. 18

I guess my concern is, you know, how much 19 20 more are we going to need is a real concern.

21 And thank you, Mr. Garrido, I agree with you on the need to raise revenue. And I 22 23 think many of us agree with that.

24 I guess my -- the question I have for

1 your workers, how will -- sort of post-COVID, 2 it seems to me there will be a lot of changes in the workplace. Obviously there's 3 telehealth, there's all these teleservices, 4 5 there are -- your people are coming in, 6 they're essential workers, but the nature of 7 their jobs may be changing and we may have 8 different ways of performing those kinds of 9 jobs. I'm wondering whether you have any 10 11 sense of how your workforce will change or need to change the work that they're doing in 12 the workplace as we go forward. 13 14 CHAIRWOMAN WEINSTEIN: If you could quickly answer, before moving to the Senate. 15 MR. GARRIDO: It's a critical 16 17 question. We need to rethink the workplace differently. And mostly telecommuting needs 18 to be addressed. Legislation needs to look 19 20 at the new setup. I have so many workers who didn't have to go in but went in because they 21 had no access to broadband and the children 22 23 were using it for school. 24 So thank you for raising that up,

Assemblywoman.

| 2 | CHAIRWOMAN WEINSTEIN: Thank you, |
|----|--|
| 3 | Henry. |
| 4 | Now I'm going to go to the Senate. |
| 5 | CHAIRWOMAN KRUEGER: Thank you. |
| 6 | Senator Diane Savino. |
| 7 | SENATOR SAVINO: Thank you, Senator |
| 8 | Krueger. Good evening, everyone. |
| 9 | So I'm going to save some of the |
| 10 | questions about the closures, et cetera, for |
| 11 | next week when we get to either Local |
| 12 | Government or we get to the Human Service |
| 13 | committee hearing. |
| 14 | I want to speak to all three of you |
| 15 | about the issue of the early retirement, |
| 16 | because it has come up as a matter of |
| 17 | discussion in the Senate and I know in the |
| 18 | Assembly as well, and there seems to be some |
| 19 | concern. I know how dire it is for the City |
| 20 | of New York and for DC 37 and the Municipal |
| 21 | Labor Committee, because they are facing or |
| 22 | could be facing massive layoffs if we don't |
| 23 | do an early retirement. But some members |
| 24 | have said that they won't vote for an early |

1 retirement bill if it doesn't include a

2 statewide bill for all workers.

3 And I know that many of you, particularly CSEA on the state side and PEF 4 5 on the state side, you guys are in the opposite position. You have a shortage of 6 members. So could you speak to a bit about 7 8 why it might not be a good idea to extend it 9 statewide? Just to clarify for some of my colleagues who don't understand why, even if 10 11 we did it statewide, you might not want to opt into it, or you wouldn't want the state 12 to opt into it? 13

14 MS. TURNER: Well, unfortunately we 15 don't get to pick the positions. Right? And if in fact the Governor is going to target 16 17 positions -- because I have never in my many years seen an early retirement incentive that 18 hasn't been targeted. You're not going to be 19 20 able to target half of the CSEA members because they're in positions where they're so 21 short-staffed. Right? But these CSEA 22 23 members will see management take it, and they 24 won't be able to take it. That's number one.

Number two, the positions won't be 1 2 refilled, so what does that leave the CSEA 3 workforce? The state will privatize our jobs. We'll lose our footprint. Right? 4 5 They're not going to hire back. The whole idea of an early retirement 6 is usually a tool to avoid layoffs. Correct? 7 8 So it -- but then again, you're not going to 9 offer it across the board with no targeting and with us being able to fill positions. So 10 11 what are we offering? What are you offering 12 for the state side? SENATOR SAVINO: Thank you --13 14 MS. TURNER: We're down so many positions. What are we doing? 15 You know, I will say this, Diane. In 16 17 local governments we had a lot of these go on during the pandemic. They did a cash buyout, 18 they reduced their workforce, it worked, it 19 20 was clean, they can hire back whatever they want to hire back. It was a lot cheaper, and 21 22 it worked all the way across the state in our 23 large counties. 24 SENATOR SAVINO: So what I would just

hope that some members would understand is 1 2 not stand in the way of the City of New York 3 and the municipal unions that are seeking that as a remedy to avoid the layoffs there, 4 5 because it doesn't extend beyond the City of New York. because it may not necessarily 6 work beyond the City of New York today. 7 8 Would you say that that's fair? 9 MS. TURNER: Are you talking to me? SENATOR SAVINO: Yes. Any one of you. 10 11 Any one of the three of you. 12 MR. GARRIDO: What I can say from my perspective, Senator, we gave up \$164 million 13 14 to get a no-layoff agreement through June. 15 Once that agreement is done, we're back at the whole concept of layoffs again. 16 17 Why look at a layoff when you can do an early retirement incentive? Thank you. 18 SENATOR SAVINO: Thank you, Henry. 19 20 Thank you. 21 CHAIRWOMAN KRUEGER: Assembly, do you 22 have a -- oh, you do. CHAIRWOMAN WEINSTEIN: Yes, we have 23 24 Assemblywoman Judy Griffin for three minutes.

ASSEMBLYWOMAN GRIFFIN: Okay. Okay,
 thank you. And thank you to the panelists
 for being here.

4 I'm very sorry for the loss of any of 5 your employees. That is very, very sad to 6 lose employees to COVID. And I agree with 7 you on the cuts to mental health and human 8 services, to the facilities. It's a real big 9 issue, and these cuts are really untenable.

I too was asking about the early 10 11 retirement. And I know Senator Savino just asked, but I just thought perhaps the other 12 two panelists would like to elaborate. I've 13 14 had a lot of constituents email me that they 15 want the early retirement. And I just wondered if the other two panelists had any 16 17 more to say on the pros and cons and what the 18 early retirement would mean for you.

MS. TURNER: You know, there's no
question that our members would love the
early retirement. The problem is it won't be
afforded to all of our members. Right?
ASSEMBLYWOMAN GRIFFIN: Yes.
MS. TURNER: And therein lies the

| 1 | problem. If you can't give it to all of them |
|----|---|
| 2 | and give them an opportunity and |
| 3 | especially the ones that have been working |
| 4 | 24/7 in the direct care facilities, putting |
| 5 | their families and their lives on the line. |
| 6 | If you can't offer it to everybody, |
| 7 | how do some get to take it but those doing |
| 8 | some of the hardest jobs that we have |
| 9 | wouldn't be able to avail themselves of it? |
| 10 | How do we do that? |
| 11 | ASSEMBLYWOMAN GRIFFIN: Right. That |
| 12 | makes sense. It really does. |
| 13 | MR. GARRIDO: And I appreciate and |
| 14 | respect Fran's position, but let me just say |
| 15 | for us, we have a different perspective, |
| 16 | right? |
| 17 | We have a lot of jobs that are |
| 18 | changing that we can allow folks to leave and |
| 19 | not have to rehire. On the other hand, we |
| 20 | have jobs that we now need, like contact |
| 21 | tracers, that are critical to our function. |
| 22 | And instead of laying them off, it would make |
| 23 | a lot of sense if we can allow those to |
| 24 | retire humanely, leave on their own time, and |

1 then repurpose hiring to some of the newly
2 created positions.

| 3 | ASSEMBLYWOMAN GRIFFIN: Makes sense. |
|----|---|
| 4 | MS. DiANTONIO: And I would actually |
| 5 | echo what CSEA, what Fran has said. I mean, |
| 6 | if the state isn't going to backfill |
| 7 | positions, if the state's going to |
| 8 | cherry-pick who gets it it doesn't |
| 9 | yeah, it makes the few members that get it |
| 10 | happy, but it leaves everybody else, frankly, |
| 11 | screwed. Because you don't have enough |
| 12 | people now to get the work done. |
| 13 | And you have people that are given an |
| 14 | incentive and we're still in a huge staffing |
| 15 | hole and we're still in a huge deficit to |
| 16 | provide the services that are critical. |
| 17 | And so it's just one of those things |
| 18 | that unless everybody was offered and unless |
| 19 | they were going to backfill, you wouldn't get |
| 20 | the support on a statewide level for it |
| 21 | from at least from where we're sitting. |
| 22 | ASSEMBLYWOMAN GRIFFIN: Yeah, that |
| 23 | makes sense. And also the risk of having |
| 24 | everything privatized is a huge risk as well. |

| 1 | CHAIRWOMAN KRUEGER: Because I think |
|----------------------|---|
| 2 | it goes back to Diane Savino's point that the |
| 3 | story in New York City and the story for the |
| 4 | state can be very different in this |
| 5 | situation. So thank you all. |
| 6 | Our next questioner is Senator John |
| 7 | Liu. |
| 8 | SENATOR LIU: There definitely is a |
| 9 | little bit of a delay in the unmuting. But |
| 10 | thank you very much, Madam Chair. |
| 11 | Great to see all of our panelists here |
| 12 | today. You look mahvelous, Randi, Fran |
| 13 | long time |
| 14 | MS. TURNER: Long time. |
| 15 | SENATOR LIU: And of course Henry is |
| 16 | looking like a magazine cover. |
| 17 | |
| ± / | I want to say from the outset that we |
| 18 | I want to say from the outset that we are truly we feel so much sorrow for all |
| | |
| 18 | are truly we feel so much sorrow for all |
| 18 19 | are truly we feel so much sorrow for all of our state and city workers who have given |
| 18 19 20 | are truly we feel so much sorrow for all of our state and city workers who have given their lives to COVID. And, you know, it's |
| 18 19 20 21 | are truly we feel so much sorrow for all of our state and city workers who have given their lives to COVID. And, you know, it's these are essential workers that all |

1 work that you do.

| 2 | I also want to mention, because I |
|----|--|
| 3 | think this is the first hearing he was not |
| 4 | able to part of, our dearly beloved brother |
| 5 | and someone who was like a dad to |
| 6 | Henry Garrido, Oliver Gray used to be very |
| 7 | much engaged in these discussions. He didn't |
| 8 | pass from COVID, but he did leave us last |
| 9 | summer. So I just want to just give him a |
| 10 | moment of silence in this hearing because |
| 11 | Oliver Gray |
| 12 | (Zoom interruption.) |
| 13 | CHAIRWOMAN KRUEGER: Everyone else |
| 14 | please go on mute. Sorry. Go on, John. |
| 15 | SENATOR LIU: Just a very quick moment |
| 16 | of silence for Oliver Gray, who contributed |
| 17 | so much to not only DC 37 but our city and |
| 18 | state and indeed nation. |
| 19 | (Moment of silence.) |
| 20 | SENATOR LIU: Thank you. |
| 21 | I wanted to say a few things about |
| 22 | what Senator Savino had already started |
| 23 | talking about, which is the early retirement |
| 24 | incentive. DC 37, as Henry mentioned, |

already gave \$160 million towards staving off
 layoffs of employees that are needed. The
 City of New York needs these employees. And
 as always, the union steps up to help out.
 In the case of early retirement incentives,
 that is something that could be used so that
 layoffs could be avoided.

8 I think the distinction here that 9 needs to be made, in the case of the City of New York they've asked for a fiscal note, 10 11 which is a cost estimate of how much the early retirement incentive would cost the 12 city eventually in terms of future pension 13 14 obligations, et cetera. And so that's what the city is considering alongside the union. 15 As far as state employees, the 16

17 Governor has not said anything about -- at 18 least to my knowledge, has not said anything 19 about early retirement incentives for state 20 employees. You know, he hasn't talked about 21 layoffs per se, but that's something that 22 needs to be considered in the future.

23 Many of our colleagues in the Senate24 have talked about early retirement incentives

for their local government employees. That's 1 something that those local governments need 2 to consider. Whether it be a town or a 3 county government, it has to be considered 4 5 how much the fiscal impact on the state 6 pension plan -- which they are part of --7 would be. 8 So just like the City of New York asks 9 for a fiscal note for the city pension plans, those local governments also need to ask for 10 11 the same kind of cost estimates. Because 12 early retirement incentives are not free. They may be a better solution to layoffs, but 13 14 they're certainly not cost-free. Thank you, Madam Chair. 15 CHAIRWOMAN KRUEGER: Thank you, 16 17 John Liu. Assembly, do you have anyone left? 18 CHAIRWOMAN WEINSTEIN: Yes, I just 19 20 wanted just a few seconds to thank my friends for testifying here today. And I want to 21

- 22 join with my colleagues in offering
- 23 condolences to all of the members who really
- 24 put themselves on the frontline, and both

those who fell victim to COVID-19 and survived and may be suffering, continuing to suffer and those who unfortunately gave their lives to help New Yorkers on the frontlines. I appreciate, you know, not just for

6 myself, but on behalf of all of our 7 colleagues, appreciate the work that your 8 members do and very much appreciate the time 9 that you're here with us today to share your 10 comments. Thank you.

11 CHAIRWOMAN KRUEGER: Thank you. And I also want to thank you all for being with us. 12 And of course you know, but I want 13 14 everyone to know, we read the testimony, our staffs read the testimony. And we take these 15 issues very seriously. So if anyone thinks, 16 17 you know, we gave them three minutes and that was all the attention we paid, I hope you 18

19 understand that we do these giant budget
20 hearings, we try to get as much participation
21 as possible across the state.

And the good news about Zoom,
everybody does seem to come to these
hearings, they stay all day, they have

| 1 | questions. And so we've got to get stricter |
|----|---|
| 2 | with our time limits just because there are |
| 3 | so many people who do want to tell us things. |
| 4 | But all the testimony is up online, |
| 5 | available to the public and the Senate and |
| 6 | the Assembly and their staffs. |
| 7 | So again, thank you very much on |
| 8 | behalf of all of your workers and all the |
| 9 | amazing work you do for the State of New York |
| 10 | every day. Thank you. |
| 11 | And now I'm going to go to the next |
| 12 | panel |
| 13 | THE MODERATOR: I believe |
| 14 | Assemblywoman Giglio has a question before we |
| 15 | move on. |
| 16 | CHAIRWOMAN KRUEGER: Helene, is that |
| 17 | okay with you? |
| 18 | CHAIRWOMAN WEINSTEIN: Yes. A late |
| 19 | starter, Assemblywoman Giglio. |
| 20 | CHAIRWOMAN KRUEGER: I didn't see a |
| 21 | hand up, I'm sorry. |
| 22 | CHAIRWOMAN WEINSTEIN: Can we go to |
| 23 | the Assemblywoman? |
| 24 | ASSEMBLYWOMAN GIGLIO: Yup, I'm trying |
| | |

to start my video.

Okay, I want to thank you all too. I 2 3 mean, having my brother-in-law be in one of the facilities -- and the care that the state 4 5 employees give to the people that are within 6 the facilities is unsurpassable, and you are 7 very much appreciated. And it kills me to 8 see the cuts. And it kills me to see what's 9 happening to our vulnerable population and to the service workers in the industry. And I 10 11 will do everything that I can to make sure that the budget is maintained and that your 12 workers are cared for. 13 14 So I just want to thank you. MS. TURNER: Thank you. 15 MS. DiANTONIO: Thank you. 16 17 MR. GARRIDO: Thank you. CHAIRWOMAN KRUEGER: Thank you. So 18 now we will excuse you, and we'll move to 19 20 Panel B, the organization of New York State Management/Confidential Employees, Barbara 21 22 Zaron, and the Retired Public Employees Association, Edward Farrell. 23 24 Good evening.

| 1 | MR. FARRELL: Good evening. |
|----|--|
| 2 | CHAIRWOMAN KRUEGER: I see you, Ed; I |
| 3 | don't see Barbara. Oh, there's Barbara |
| 4 | coming along. |
| 5 | MS. ZARON: I wasn't able to unmute. |
| 6 | CHAIRWOMAN KRUEGER: I know. It's |
| 7 | personally messing with everyone today. |
| 8 | There she is. |
| 9 | MS. ZARON: Okay, got it. |
| 10 | CHAIRWOMAN KRUEGER: Okay, are you |
| 11 | ready? |
| 12 | MS. ZARON: I am ready, thank you. |
| 13 | Thank you for the opportunity to |
| 14 | testify today on our workforce concerns. I'm |
| 15 | really happy to see you folks, and I feel |
| 16 | like déjà vu all over again. |
| 17 | We're here again asking for our |
| 18 | retiree parity payment bill. Thank you, |
| 19 | Senator Gounardes, for introducing it, and in |
| 20 | the Assembly Pat Fahy is introducing it for |
| 21 | us. This will provide a token payment to M/C |
| 22 | retirees who never received any payment for |
| 23 | the 2009 and 2010 salary withholdings. And |
| 24 | thank you to RPEA for your support. |

| 1 | We're here also that's the good |
|----|---|
| 2 | that's the good stuff. We're here also to |
| 3 | oppose the Governor's proposals related to |
| 4 | the state retirees health insurance so-called |
| 5 | reforms. Specifically, elimination of the |
| 6 | Medicare Part B IRMAA reimbursement, |
| 7 | imposition of a cap on state reimbursement of |
| 8 | Medicare Part B standard premium this year at |
| 9 | 148.50, and implementation of a differential |
| 10 | healthcare premium contribution to new |
| 11 | civilian hires at retirement. |
| 12 | This is probably the eighth year that |
| 13 | we're here saying no to these things. And |
| 14 | fortunately, in our perspective, you, the |
| 15 | Legislature, have also refused to include it |
| 16 | in the budget. |
| 17 | So the other major issue that our M/Cs |
| 18 | have asked us to talk about is you already |
| 19 | heard that salary increases were deferred |
| 20 | this year, and that was true for the M/C |
| 21 | employees as well. M/Cs also took another |
| 22 | hit in April of 2020; that is the deferral of |
| 23 | their performance advances, which are their |
| 24 | steps in the salary schedule, and longevity |

payments, which only Grade 17 and below M/Cs are eligible for.

1

2

So we think this is unfair. We think 3 these payments need to be paid. And there 4 5 should be full restoration of the deferred 6 2020 performance advances and longevities. 7 Future salary increases -- because we need to 8 look to the future -- should be equal to 9 union-represented, with optional longevity payments for M/Cs above Grade 17, and leave 10 11 accruals should be at the same level as other employees. 12

We recognize the fiscal challenges 13 14 we're all facing, but M/Cs should not be expected to bear a larger share of the burden 15 of producing savings. They want equity and 16 17 equality while increasing demands are put on their shoulders. M/Cs always step up, but 18 they are near or at the breaking point and 19 20 are planning retirement, which raises a series of issues about managing the workforce 21 22 and state programs and services, current and future. 23

24 And I did it in three minutes.

| 1 | CHAIRWOMAN KRUEGER: Very nice. Thank |
|----|--|
| 2 | you. |
| 3 | MS. ZARON: Thank you. |
| 4 | CHAIRWOMAN KRUEGER: And Ed? |
| 5 | MR. FARRELL: Yes. |
| 6 | CHAIRWOMAN KRUEGER: Hi. |
| 7 | MR. FARRELL: Hi. Happy to be here. |
| 8 | Thank you very much. |
| 9 | CHAIRWOMAN KRUEGER: Thank you. |
| 10 | MR. FARRELL: Chairwoman Krueger, |
| 11 | Chairwoman Weinstein, members of the |
| 12 | committee, I'm the executive director of the |
| 13 | Retired Public Employees Association. We |
| 14 | represent the interests of the 500,000 |
| 15 | retirees from the New York State Retirement |
| 16 | System. |
| 17 | And you probably know that 80 percent |
| 18 | of us stay right here in New York. You see |
| 19 | us in the district; you know who we are. |
| 20 | We're an important part of the community, |
| 21 | both the fabric of the community and we |
| 22 | contribute financially to the well-being of |
| 23 | the community as well. |
| 24 | I'll just quickly talk about this, |

| 1 | because it's been brought up several times. |
|----|---|
| 2 | And I thank you for your past support about |
| 3 | the Governor's proposed cuts in NYSHIP as it |
| 4 | relates to retirees. |
| 5 | Now, I said there are 500,000 |
| 6 | retirees. Half of them are in NYSHIP. So |
| 7 | this budget proposal has profound |
| 8 | implications for retirees in New York. |
| 9 | Capping the reimbursement rate for |
| 10 | Medicare you know what a cap does. And |
| 11 | over time, people will just lose money. And |
| 12 | it's not a good thing. |
| 13 | And it's important to point out that |
| 14 | the average retirement benefit is \$24,000. |
| 15 | So this is not the place to go to look for |
| 16 | ways to raise money. |
| 17 | Same thing, we also oppose the IRMAA |
| 18 | proposal. And you've been supportive in the |
| 19 | past, and we thank you for that. And we hope |
| 20 | you will do it again. |
| 21 | There are just a couple of things I |
| 22 | want to touch upon in our legislative program |
| 23 | which have fiscal implications. The first of |
| 24 | which, you may be aware of, is retiree access |

1 to skilled nursing facilities. If you are a 2 retiree in the Empire Plan and you need to go 3 to one of these facilities, you get 20 days coverage. If you are an active employee in 4 5 the Empire Plan and you need to go to one of 6 these, you can get 120 days. 7 You know, it's just illogical. And if 8 anyone is going to go to a skilled nursing 9 facility, it's probably going to be a senior more so than an active employee. So we urge 10 11 you to take a look at that and perhaps fix 12 it. The survivors benefit has not 13 14 increased in 50 years. We ask for a modest increase in that. It's something that could 15 be addressed. 16 17 The full reimbursement of prescription drugs -- there's legislation on all of these, 18 by the way. But for the Medicare Part D, 19 20 when that came into effect, there was a decision by Civil Service not to reimburse 21 22 the IRMAA piece of Medicare prescription Part D for those in NYSHIP. 23

24 We strongly support Barbara and other

people who have mentioned the M/C situation.
 That's something that definitely needs to be
 addressed.

And in closing, I just want to point 4 5 out the Governor says he has to do these things because we're not living within his 2 6 7 percent cap. If you look at the cost of 8 NYSHIP healthcare over the last three years, 9 it comes in at 2.8, and that includes the actives and the retirees. So there's no 10 11 premise to think that we are in fact driving 12 a state deficit, and that's a very weak argument. 13 14 So I thank you. CHAIRWOMAN KRUEGER: Thank you. 15 Let's see. Any Senators who have any 16 17 questions? All right. Helene, any 18 Assemblymembers? 19 20 CHAIRWOMAN WEINSTEIN: No, I do not have any Assemblymembers. I would just 21 remind Barbara Zaron that it is Groundhog's 22 23 Day. 24 (Laughter.)

| 1 | MS. ZARON: That's very funny. |
|--|--|
| 2 | CHAIRWOMAN KRUEGER: Thank you. |
| 3 | People were complaining on |
| 4 | Staten Island that it was videotaped and they |
| 5 | didn't actually get to see it live. |
| 6 | SENATOR SAVINO: It's true. |
| 7 | CHAIRWOMAN KRUEGER: Diane, you may |
| 8 | have a problem at home. |
| 9 | SENATOR SAVINO: It's true. But it's |
| 10 | not as if, you know, Staten Island Chuck |
| 11 | actually whispers in Kenny Mitchell's ear. |
| 12 | He's a rodent, not a meteorologist. |
| 13 | (Laughter.) |
| | |
| 14 | CHAIRWOMAN KRUEGER: It's been a long |
| 14 15 | CHAIRWOMAN KRUEGER: It's been a long day. But thank you very much, Barbara, and |
| | |
| 15 | day. But thank you very much, Barbara, and |
| 15 16 | day. But thank you very much, Barbara, and thank you, Ed. |
| 15 16 17 | day. But thank you very much, Barbara, and thank you, Ed. MS. ZARON: Thank you. |
| 15 16 17 18 | day. But thank you very much, Barbara, and thank you, Ed. MS. ZARON: Thank you. MR. FARRELL: Thank you. And thank |
| 15 16 17 18 19 | day. But thank you very much, Barbara, and thank you, Ed. MS. ZARON: Thank you. MR. FARRELL: Thank you. And thank you for your support. |
| 15 16 17 18 19 20 | day. But thank you very much, Barbara, and thank you, Ed. MS. ZARON: Thank you. MR. FARRELL: Thank you. And thank you for your support. SENATOR SAVINO: Don't worry, we'll |
| 15 16 17 18 19 20 21 | <pre>day. But thank you very much, Barbara, and thank you, Ed. MS. ZARON: Thank you. MR. FARRELL: Thank you. And thank you for your support. SENATOR SAVINO: Don't worry, we'll protect the retiree stuff, because we're all</pre> |

| 1 | MR. FARRELL: Thank you. |
|----|--|
| 2 | CHAIRWOMAN KRUEGER: For our next |
| 3 | panel we're up to Panel C, for those of |
| 4 | you following along we have the New York |
| 5 | Immigration Coalition, the Center for |
| 6 | New York City Affairs at The New School, the |
| 7 | National Employment Lawyers Association, and |
| 8 | the Manufacturers Association of Central |
| 9 | New York. |
| 10 | These may not all be exactly the same |
| 11 | theme, but we're doing our best to try to |
| 12 | group you together. |
| 13 | First up, Vanessa Agudelo, manager of |
| 14 | member engagement, New York Immigration |
| 15 | Coalition. |
| 16 | MS. AGUDELO: Thank you. Good |
| 17 | evening, everyone. My name is Vanessa |
| 18 | Agudelo, and I am the manager of member |
| 19 | engagement for the Hudson Valley at the |
| 20 | New York Immigration Coalition, an umbrella |
| 21 | policy and advocacy organization that works |
| 22 | statewide with over 200 immigrant-serving |
| 23 | member organizations. Thank you to the |
| 24 | legislative members and both chairs for |

convening this important hearing allowing me to testify.

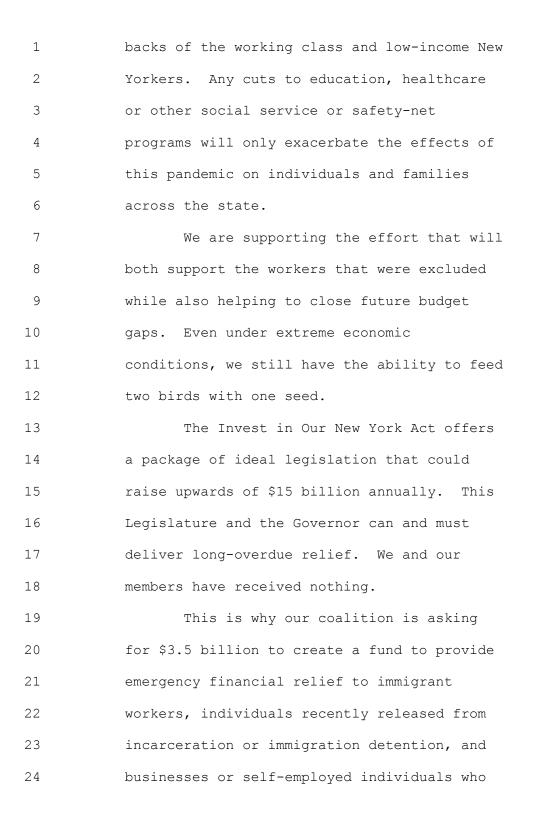

1

2

3 The COVID-19 crisis has and continues to hit Black, Indigenous, people of color, 4 5 immigrant, and working-class individuals the hardest. In almost every way, immigrants and 6 their families have been some of the hardest 7 8 hit by the pandemic and the ensuing response. Immigrants risk heightened exposure to 9 COVID-19 as essential workers and, when sick, 10 11 suffer higher mortality rates.

12Immigrants are over-represented in the13industries hit the hardest by the economic14downturn, and were therefore more likely to15be left unemployed than the native-born16workforce. And many immigrant families were17shamefully and purposely shut out of federal18relief efforts and continue to struggle.

19COVID has not only taken far too many20New Yorkers from us, but it has also wreaked21havoc on our economy. New York State faces a22\$60 billion deficit. We understand the need23to manage this deficit but reject any effort24that would see the budget balanced on the

1 lack documentation to apply for small

2 business relief.

| 3 | This fund would provide flat-rate |
|----|---|
| 4 | monthly cash payments direct to families, |
| 5 | based on \$750 per week to each worker what |
| 6 | a typical low-wage worker with Unemployment |
| 7 | Insurance receives. |
| 8 | It would offer monthly payments |
| 9 | retroactive to the start of the |
| 10 | COVID-impacted unemployment crisis, and |
| 11 | continuing at least through the end of 2021, |
| 12 | like Unemployment Insurance, with triggers to |
| 13 | continue the program thereafter. |
| 14 | It would also offer flexible |
| 15 | application and proof requirements given the |
| 16 | urgent crisis situation. This would include |
| 17 | self-attestation and information that |
| 18 | off-the-books workers are able to provide. |
| 19 | Documents for proving identity can be the |
| 20 | same as those for getting driver's licenses |
| 21 | under Green Light. |
| 22 | Our healthcare workers, grocery store |
| 23 | workers, delivery workers, transit workers |

24 and all other frontline workers have helped

maintain our way of life while paying the
 ultimate price of disproportionate deaths due
 to COVID-19.

Meanwhile, many wealthy New Yorkers 4 5 continued to flourish. New York State's 120 billionaires saw their combined wealth 6 rise by over \$77 billion in the first months 7 8 of the pandemic. We must demand that those 9 who have profited the most during this crisis pay their fair share to support the recovery 10 11 of the state.

12 Once again, thank you for convening this extremely important hearing and allowing 13 14 me to testify. Myself and our entire organization looks forward to continuing to 15 work with you all to come up with solutions 16 17 that ensure that everyone enjoys full and equal opportunity to recover from the threat 18 of this virus and the worst potential 19 20 economic downturn since the Great Depression. 21 Thank you. 22 CHAIRWOMAN KRUEGER: Thank you. 23 Next, James Parrott, professor, Center

24 for New York City Affairs at The New School.

DR. PARROTT: Good evening --1 2 CHAIRWOMAN KRUEGER: Good evening. DR. PARROTT: -- distinguished 3 Senators and members of the Assembly. James 4 5 Parrott is my name. I'm the director of economic and fiscal policies at the Center 6 for New York City Affairs at The New School. 7 8 Thanks for the opportunity to testify on 9 workforce issues. I've been closely examining the impact 10

11of COVID-19 on the state's economy and its12workforce. New York State was the early13epicenter of COVID cases and has been more14cautious than other states in reopening. As15a result, the pandemic has taken a greater16jobs toll in New York State than any other17state except Hawaii.

As of early January, over 2.4 million state residents were receiving Unemployment Insurance. That's one out of every four New Yorkers in the labor force before the pandemic. Part-time work by workers who would like to work full-time has soared during the pandemic as businesses struggle to

reopen. There are an estimated 600,000 2 involuntary part-time workers in New York. Partial weeks of unemployment benefits 3 soared to an historical high of 25 weeks --4 5 25 percent of all weeks compensated during the last three months of 2020. That's up 6 from 9 percent the year before. 7

1

8 I want to focus on the problems with 9 the partial UI system. Fortunately, Governor Cuomo and the Labor Commissioner 10 11 acted two weeks ago to lessen the penalty for workers going back to work part-time. That 12 was a significant improvement, but it doesn't 13 14 go far enough and it wasn't intended as a 15 permanent fix. It was a temporary fix.

Governor Cuomo proposed a permanent 16 17 fix that incorporates a partial benefit credit, an amount of earnings a worker can 18 receive without any benefit reduction. The 19 20 interim system provides a form of partial 21 benefit credit but it's supplied in a very 22 clunky way, given the constraints of an 23 antiquated computer system.

24 The Governor's proposed permanent fix

provides for a cleaner application of the 1 2 credit, but it is not as beneficial to 3 workers as a bill passed by the Senate and the Assembly with overwhelming support in the 4 5 last two weeks. The bill, sponsored by Assemblymember Stirpe and Senator Ramos, 6 would institute a partial benefit credit 7 8 equal to 50 percent of a worker's weekly UI 9 benefit. The Governor's bill only applies a 40 percent partial credit. The difference 10 11 between 40 and 50 percent means \$143 each month to a part-time worker. 12 There's another difference between the 13 14 Legislature's bill and the Governor's bill. The Legislature's bill would take effect in 15 30 days. The Governor's bill would take 16 17 effect after a year. The difference that that makes when you add it up across the 18 600,000 unemployed workers is \$2.8 billion. 19 20 Eighty percent of this would come from the federal government. 21

22 So I urge you to act and act quickly 23 to negotiate with the Governor to enact the 24 Legislature's bill and put in place those

| 1 | improved partial benefits. The time to do |
|----|---|
| 2 | this is now, given the state of unemployment |
| 3 | in New York. |
| 4 | Thank you. |
| 5 | CHAIRWOMAN KRUEGER: Thank you. Thank |
| 6 | you, James. |
| 7 | Next, Miriam Clark, chair, National |
| 8 | Employment Lawyers Association. |
| 9 | MS. CLARK: Thank you, Senator |
| 10 | Krueger, and thank you, Assemblymember |
| 11 | Weinstein, for allowing me to testify this |
| 12 | evening on behalf of NELA/New York. |
| 13 | Tonight I want to talk about |
| 14 | protecting workers who complain about what |
| 15 | they reasonably believe to be unsafe working |
| 16 | conditions or unlawful working conditions. |
| 17 | New York does have a whistleblower |
| 18 | law, a so-called whistleblower law, which is |
| 19 | Labor Law 740. You could call it the |
| 20 | Whistleblower Non-Protection Act, because it |
| 21 | actually covers so few people. It was |
| 22 | enacted in 1984, and it only protects a very, |
| 23 | very small minority of workers who complain. |
| 24 | It protects an employee who complains |

of conduct that is both a proven or provable violation of law, rule or recognition, and a provable, substantial, specific threat to public health or safety. Both of these prongs have to be met, and the employee has to be able to prove that both of these conditions exist.

8 So for example, in a leading case, a 9 physicist working at an atomic lab reasonably believed that he and his coworkers were being 10 11 exposed to dangerous levels of radiation, and he reported it to the DOE and he got fired. 12 The court held that he was not protected 13 14 because he personally could not prove that there were unlawful levels of radiation. The 15 employer could have proved it by doing an 16 17 investigation, but it refused to do it. Lots of employees also get fired 18 because they complain of unlawful conduct. 19 20 And that unlawful conduct, if it's not in

21 violation of a law, rule or regulation, does
22 not -- that complaint does not protect the
23 employee.

The law essentially lay dormant for

24

1 many years, and then came the COVID pandemic. 2 And suddenly thousands and thousands of 3 workers were being exposed on a daily basis to conditions that they really thought were 4 5 dangerous. Hospital janitors were worried about not having enough PPE. Retail workers 6 were worried about not enough social 7 8 distancing. Factory workers were worried about working in close quarters. And any of 9 those people who complained were not covered 10 11 by the whistleblower law. 12 So the Legislature has taken some steps to ameliorate the situation with regard 13 14 to healthcare workers, with regard to public 15 employees. But in general, for thousands and thousands of New York workers, the decision 16 17 to stand up and report something that they reasonably believed to be dangerous or 18 unlawful means that they are likely to lose 19 20 their job. Many other states, such as New Jersey, 21

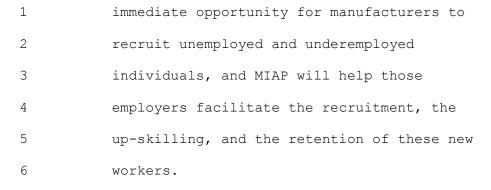

have robust protection for those who speakout, but not New York.

24 There are two excellent bills that

| 1 | would alleviate this situation, one in the |
|----|--|
| 2 | Senate, sponsored by Senator Ramos, that has |
| 3 | passed the Senate. There are excellent bills |
| 4 | in the Assembly, one which is sponsored by |
| 5 | Assemblymember Weinstein. And we look |
| 6 | forward to working with the Legislature and |
| 7 | the Governor to pass legislation that will |
| 8 | save not only the jobs but the lives of |
| 9 | thousands of New Yorkers. |
| 10 | Thank you. |
| 11 | CHAIRWOMAN KRUEGER: Thank you. |
| 12 | And last on this panel, Martha Ponge, |
| 13 | director of apprenticeship, Manufacturers |
| 14 | Association of Central New York. |
| 15 | MS. PONGE: Thank you. Good evening, |
| 16 | Senator Krueger and Assemblymember Weinstein |
| 17 | and the committee members. Thank you for the |
| 18 | opportunity to speak here tonight. |
| 19 | My name is Martha Ponge, and I |
| 20 | represent the Manufacturers Alliance of |
| 21 | New York State, which is comprised of seven |
| 22 | manufacturing associations serving each of |
| 23 | the state's Economic Development Regions. |
| 24 | Our work through the Manufacturers |

Intermediary Apprenticeship Program, known as
 MIAP, supports equitable access to registered
 apprenticeship for all individuals regardless
 of their work experience or their academic
 qualifications.

In order to continue this highly 6 successful and effective program and to meet 7 8 the growing needs of employers across our 9 state, we respectfully request the restoration of the legislative line item for 10 11 MIAP for \$750,000 in this year's budget. 12 COVID has exposed the fragility of careers in industry sectors such as 13 14 hospitality and food service. Conversely, manufacturing and high-tech fields are still 15 providing rapidly growing employment 16 17 opportunities. Today nearly 51 percent of New York State residents earn less than 18 \$40,000 per year. And as we emerge from 19 20 COVID, access to springboard careers with an average salary of \$71,000 a year is more 21 important than ever. 22 23 The employment disruption that was 24 caused by the pandemic has provided an

Statewide, MIAP currently supports
over 200 companies and 25 different trades.
And despite the adverse effects of COVID,
this year alone we expect to add over
150 apprentices and award journey worker
certifications to over 40 apprentices.

During the pandemic, employers 13 14 supported by MIAP maintained over 98 percent of all active apprentices, while increasing 15 career apprenticeship activity by over 80 16 17 percent. MIAP successfully transitioned to 100 percent digital support, allowing 18 employers to maintain access to on-the-job 19 20 learning and related instruction services. In 2021, the Alliance will develop 21

22 pilot programs with a laser focus on youth 23 and adults from minority and low- and 24 moderate-income communities, creating

apprenticeship pathways directly from high 1 school and rapidly up-skilling individuals 2 displaced as a result of COVID. Already this 3 year our Rochester partner has matched 65 4 5 youths with 32 companies, an increase in 6 company participation with youth by over 500 7 percent from last year. 8 Our work over the past year has grown 9 to support other industry sector associations, such as Big I NY and the 10 11 Semiconductor Association, in their efforts 12 to establish themselves as sponsors of registered apprenticeship. Our work with 13 14 these member associations is anticipated to bring 3400 additional small and medium-sized 15 businesses to the table in the next 12 to 18 16 17 months. Again, I'm here to respectfully 18 request the restoration of the legislative 19 20 line item for MIAP of \$750,000 so that we may continue this very critical work. And I 21 22 thank you very, very much for your consideration. 23 CHAIRWOMAN KRUEGER: Thank you very 24

| much, all of you. I don't see any hands up, |
|---|
| so I have a question. And we'll see if |
| anyone else decides they want to jump in. |
| So James Parrott, you talked about the |
| way that the way the Governor's budget writes |
| in the starting up of the part-time |
| unemployment, we're going to miss out on a |
| huge amount of federal money. Why would we |
| want to do that? |
| DR. PARROTT: Well, I don't think that |
| we would want to do that. It would bring |
| you know, as the Governor has very forcefully |
| made the case, New York State needs to |
| receive more federal funds. So by having, |
| you know, a 50 percent disregard as opposed |
| to a 40 percent disregard in the Governor's |
| approach means \$140 a month to an unemployed |
| worker, you know, times 600,000 unemployed |
| workers who are working part-time at this |
| point. |
| |

| 21 | You know, all of the again, the |
|----|---|
| 22 | numbers are so astounding that a lot of |
| 23 | people it hasn't registered with a lot of |
| 24 | people: 2.4 million New Yorkers received |

unemployment benefits in early January. The
 number is not that much different today, if
 we have the more recent data.

4 Twenty-five percent of people are only 5 able to go back to work part-time. They're 6 still receiving some unemployment benefit, 7 but only part-time. So any improvement that 8 the state can make -- the sooner the better, 9 obviously -- makes a huge difference to the 10 workers.

11 I didn't have an opportunity to point out that two-thirds of the unemployed 12 New York workers are persons of color. They 13 14 tend to be low-income workers who are working in industries that are the most heavily 15 affected by this. That will -- you know, 16 17 that additional money, particularly the federal part, will help spur New York's 18 economy and will help us recover sooner 19 20 rather than later. CHAIRWOMAN KRUEGER: Thank you. And 21

22 whoever gave me 10 minutes, we're all taking 23 three minutes. So thank you.

24 So my time is up, but I see I have

- 1 encouraged an Assemblywoman to raise her 2 hand. CHAIRWOMAN WEINSTEIN: Yes, so we'll 3 go to Jo Anne Simon. 4 5 ASSEMBLYWOMAN SIMON: Sorry, that 6 little --7 CHAIRWOMAN KRUEGER: For everyone, 8 it's just doing that tonight. 9 ASSEMBLYWOMAN SIMON: It is. So thank you, Mr. Parrott, you have 10 11 just answered the question I had for you. I 12 appreciate your testimony very much. 13 I have a question for Ms. Clark. You 14 testified about whistleblower protection, which is something I've been very concerned 15 about. And I'm wondering if you have a way 16 17 of sort of quantifying, for example, how that could end up costing New York money. So 18 whether it's unemployment, whether it is 19 20 people not working and needing to use other benefits. 21 And also do you have an opinion as to, 22 23 you know, the limitations that we have on
- 24 unemployment -- one is part-time

unemployment. But are there people who 1 should be protected by unemployment as well? 2 MS. CLARK: Those are great questions, 3 Assemblymember Simon. 4 5 Taking the second one first, I mean, 6 certainly everyone should be protected by 7 unemployment. I know that undocumented 8 workers, gig workers are especially hard-hit 9 by the pandemic and should absolutely be protected. 10 11 In terms of quantifying how many people are affected by the whistleblower 12 law -- the lack of a whistleblower law, 13 14 there's no real way to do it, except that I think I heard earlier from the Department of 15 Labor that 43,000 people complained of unsafe 16 17 working conditions. So every single one of those 43,000 18

19 people, unless they're public employees or 20 unless they're healthcare workers, are 21 subject to being terminated by their 22 employers because they complained. And those 23 people, when they get terminated, of course 24 they apply for unemployment. They should be

eligible for unemployment.

And they're obviously either -- at 2 3 this point, leaving the workforce, it's very difficult for them to return, so of course 4 5 it's an enormous drain on the UI system as 6 well. 7 ASSEMBLYWOMAN SIMON: Thank you. 8 CHAIRWOMAN KRUEGER: Okay. I believe 9 we have now completed this panel. Thank you very much for being with us tonight. And 10 11 again, we read everyone's testimony and we 12 distribute it to everyone. So our next panel is Panel D, the 13 14 National Day Laborer Organizing Network, Nadia Marin-Molina; the Workers Justice 15 Project, Ligia Guallpa -- I apologize in 16 17 advance for all the names I get wrong -- and Transnational Villages Network, 18 Marco Castillo. 19 20 Good evening, everyone. 21 MS. MARIN-MOLINA: Good evening. 22 CHAIRWOMAN KRUEGER: Okay, so first up is Nadia. 23 24 MS. MARIN-MOLINA: Hi, good afternoon.

- 1My name is Nadia Marin-Molina. I'm the2co-executive director of the National Day
- 4 Thank you to the chairs for the 5 opportunity to testify today.

Laborer Organizing Network.

3

6 NDLON is a national network with 7 12 member organizations in New York, 8 specifically in New York City, Westchester 9 and Long Island. Our mission is to improve 10 the lives of day laborers, migrants and 11 low-wage workers by building leadership and 12 power.

13 From my written testimony, which is 14 more detailed, I'll just summarize some of 15 the points and expand on some of the ones you 16 may not know.

17 Our main priority today is to say that it's time for New York to include excluded 18 workers. We want to express the urgent need 19 20 to create an Excluded Worker Fund within the New York State budget which would deliver 21 22 income replacement for people who are 23 excluded from unemployment benefits, which is 24 what a lot of the conversation has been

around. It includes undocumented and
 recently incarcerated workers and others in
 the cash economy.

You probably already know that people 4 5 are suffering due to the pandemic and that many people are left out of COVID relief. An 6 estimated 597,000 undocumented workers, daily 7 8 laborers, street vendors and domestic workers have no safety net and can't access UI. 9 They've been working and have been devastated 10 11 in the past year.

12 You may also know that excluding certain groups makes no sense from a public 13 14 health perspective. Day laborers and other excluded workers provide essential services 15 such as delivery, cleaning and construction. 16 17 When they're exposed to COVID, they work as well as they can and put their own lives at 18 risk. And as a result, Brown and Black 19 20 families have been devastated by illness and death. 21

22 So we need an Excluded Worker Fund in 23 this year's budget, and I'll mention two more 24 points that you may not know.

One is that day laborers and other 1 undocumented workers contribute billions of 2 dollars but are not allowed to receive a 3 dollar in return. A quote: Over the past 10 4 5 years, \$1.4 billion was paid in unemployment 6 insurance taxes in New York based on the work 7 of undocumented immigrants, on top of more 8 than 1 billion in sales and property taxes, 9 on top of what's contributed to the federal system. 10

We're asking that you remedy that injustice during the pandemic and during this budget.

14 The second thing that I'll mention that you may not know is that New York's day 15 laborer centers are an unrecognized New York 16 17 State workforce development program. They train community members for work, connect 18 them with employers, set minimum wages, and 19 20 are even second responders after disasters and blizzards, like today. They've 21 distributed thousands of dollars, masks, 22 boxes of food, and training. 23 24 Our member organizations work very

hard and are resourceful, but we can't fill the gap left by a state and federal government that purposely and cruelly excludes undocumented and other workers from pandemic relief. We're asking that you include the Excluded Workers Fund during the budget.

8 The billionaires have grown wealthier 9 during the pandemic, and taxing the wealthy can be used to create this fund and other 10 11 community needs as well. There's no better 12 time than during the budget. Other states and localities have done something. We're 13 14 wholeheartedly supporting the creation of an Excluded Workers Fund for New York's workers 15 and for all of our public health. 16 17 Thank you.

18 CHAIRWOMAN KRUEGER: Thank you very19 much.

20 Our next guest is the Workers Justice21 Project.

MS. GUALLPA: Thank you. Thank you so
much for the opportunity for speaking today.
My name is Ligia Guallpa. I am the

1 executive director of the Workers Justice 2 Project, one of the few workers centers that 3 stayed open during the pandemic to provide emergency relief services to more than 18,000 4 5 day laborers, domestic workers, delivery workers who were left out to die without 6 economic relief, without unemployment 7 8 insurance, without medical insurance, without paid sick time leave, without workers' 9 compensation, and without essential workers' 10 11 rights.

12 While hundreds of workers were laid off, workers in industries like construction, 13 14 cleaning, restaurants and delivery workers 15 continued to increasingly work in dangerous and deadly working conditions. In New York 16 17 there is a growing number of working people, especially low-wage and Black and immigrant 18 19 communities, who were forced to take jobs --20 gig jobs, specifically -- with no essential 21 rights. Just this month, actually, the city 22 reported that the number of gig workers has 23 increased by 60 percent.

24 You might ask yourself why more and

1 more New Yorkers are entering the gig 2 economy. The answer is very simple. These 3 are the only jobs available in the market, and the only jobs that New Yorkers can rely 4 5 on to survive this crisis. 6 However, these jobs do not offer prosperity nor better working opportunities. 7 8 These jobs are turning into one of the most 9 deadliest, unpaid and most dangerous jobs in our state and in our city. 10 11 Let's just look at some of the fastest-growing industries where mostly 12 immigrant, undocumented and indigenous 13 14 communities have been working as essential workers throughout the pandemic. 15 The most recent, more than 80,000 16 17 app-based food delivery workers are hired as gig workers by giant companies like DoorDash, 18 Grubhub, Uber and many others. While these 19 20 companies are making billions in pandemic 21 profits, they are denying the most essential 22 worker protections, such as the right to be 23 paid sick-time leave, minimum wage, the right to have a safe workplace and access to 24

bathrooms.

1

2 In addition to being denied basic 3 worker protections, the NYPD have failed to respond to multiple reports of violent e-bike 4 5 robberies and traffic crimes. Only this month, more than three delivery workers have 6 been killed, and every day they're violently 7 8 attacked. New York has failed to protect them. Our state has allowed these companies 9 to abuse and exploit these workers at any 10 11 cost.

Domestic workers. There's 200,000 12 domestic workers in New York, mostly 13 14 immigrant and undocumented, who were left out to clean and disinfect New Yorkers' homes 15 without safety equipment, without essential 16 17 rights. There are more than 72,000 immigrant construction workers working as day laborers, 18 mostly -- some of them, the majority, working 19 20 as day laborers, who were also left out to do 21 this job without any safety protections. 22 During COVID many were fired for getting 23 infected by COVID, and thousands of wages are being and continue to be stolen by wealthy 24

- 1 developers and contractors who are building
- 2 our state and our city.

| 3 | These are some of the industries that |
|--|--|
| 4 | our state has failed to invest and protect. |
| 5 | We're here to demand that included excluded |
| 6 | workers are provided economic relief and |
| 7 | essential protections. Day laborers, |
| 8 | domestic workers, delivery workers must be |
| 9 | part of your budget priorities during this |
| 10 | THE MODERATOR: Excuse me, your time |
| 11 | is running out. |
| 12 | MS. GUALLPA: year's budget |
| 13 | process. Thank you. |
| | |
| 14 | CHAIRWOMAN KRUEGER: Thank you. Thank |

- groups and committees formed and by led by
 indigenous immigrants living in the tri-state
 area, but mostly in New York.
- 4 I'm also here as a member of the Fund 5 Excluded Workers Coalition.

6 I am here to testify today in support of the Excluded Workers Bailout Fund, which 7 8 would deliver desperately needed income 9 replacement assistance for New Yorkers that have been ineligible for unemployment 10 11 benefits. This includes New Yorkers that are undocumented and recently incarcerated and 12 indigenous immigrants, as well as those who 13 14 operate within the cash economy and families that have lost their primary breadwinners due 15 to the pandemic. 16

Senator Jessica Ramos has introduced a
bill to create this fund, and Assemblymember
Carmen De La Rosa will introduce an
equivalent bill in the Assembly.

I particularly want to say, according
to the Pew Hispanic Center, Mexicans
represent 14 percent of the Hispanic

24 population in New York State, which

1 approximately would be half a million. From 2 which, according to my organization, we 3 believe that more than 60 percent -- which would be approximately 300,000 people --4 5 would come from indigenous communities. 6 These indigenous immigrants have been historically invisible for the federal 7 8 government, for the State of New York and for 9 the City of New York in so many policies. Many of our members don't speak Spanish as 10 11 their first language. They struggle to understand -- they struggle during the 12 pandemic to understand any communication that 13 14 came from the state. They were afraid of 15 reaching out to hospitals. And they continue to work as frontline workers, delivering 16 17 food, serving people with groceries, cleaning services. And in return, they have received 18 absolutely nothing. 19 20 We're talking about families that 21 right now are moving to live with relatives

or thinking about going to a shelter or going
to the street, after working and exposing
themselves and going through coronavirus by

1 themselves, many times at home with no other
2 form of support.

| 3 | This is the case not only of |
|----|---|
| 4 | indigenous immigrants from Mexico, but for |
| 5 | many other indigenous immigrants from other |
| 6 | countries that are in New York City. |
| 7 | We think that the Assembly, the Senate |
| 8 | and the Governor must deliver long-overdue |
| 9 | relief, and our coalition is asking for this |
| 10 | \$3.5 billion to create a fund that will |
| 11 | deliver flat-rate monthly cash payments to |
| 12 | families and include payments for the |
| 13 | unemployment crisis and uses flexible |
| 14 | application and proof requirements, given the |
| 15 | urgency for this crisis. |
| 16 | Thank you very much. |
| 17 | CHAIRWOMAN KRUEGER: Thank you very |
| 18 | much. |
| 19 | And do we have any Senators or |
| 20 | Assemblymembers who wish to ask questions? |
| 21 | All right, I don't see a hand, but I |
| 22 | see signaling from Senator Ramos. So I'm |
| 23 | going to pass it to her. Senator Ramos, |
| 24 | chair of the Senate Labor Committee. |

SENATOR RAMOS: Yes, thank you so

2 much.

1

And I want to thank the panelists for testifying. Obviously I am not only in full support of supporting our excluded workers with economic relief, I carry the bill, as Marco mentioned.

8 I'm very thankful to you guys for all 9 of the organizing that has been done. I have 10 to say, as a partially indigenous Latina and 11 an Andean woman, I'm really taken aback by 12 all the organizing that has been taking place 13 throughout the pandemic.

14 And I was wondering if each of you or any of you can speak to how the 15 misclassification of workers during this time 16 17 has impacted the different workforces that make up our communities in Queens, in 18 Brooklyn and beyond. You know, because very 19 20 oftentimes our day laborers, our deliveristas, our delivery workers, domestic 21 workers, sex workers, right -- all of these 22 folks aren't appropriately classified under 23 24 the law and can't access unemployment

benefits.

1

| 2 | So can you talk a little bit more |
|----|---|
| 3 | about the misclassification of workers? |
| 4 | MS. GUALLPA: Yeah, I can share a |
| 5 | little bit and then I'm sure other colleagues |
| 6 | have can speak about it. |
| 7 | I think one of the biggest issues that |
| 8 | we have seen in New York in across |
| 9 | New York State and in New York City, where |
| 10 | there is large growing industries, has been |
| 11 | that as many of the industries have shut |
| 12 | down, such as restaurant industries, many |
| 13 | workers, mostly immigrant, undocumented |
| 14 | indigenous workers, have been fired and |
| 15 | forced into looking for new ways of working. |
| 16 | And it is not a surprise that many |
| 17 | companies and many employers are looking to |
| 18 | give workers less hours and treat workers |
| 19 | differently without really providing |
| 20 | benefits. |
| 21 | And what the pandemic has done has |
| 22 | been it has created sort of this new economy |
| 23 | where mostly the ones that are profiting and |

24 taking a big share of it has been big

corporations, such as the example of DoorDash
 and other companies.

| 3 | And what they're doing is more and |
|----|---|
| 4 | more is to hire workers more temporarily. |
| 5 | And what that does is not only excludes them |
| 6 | from accessing unemployment insurance, but |
| 7 | also excludes them from basic protections |
| 8 | such as having the right to a minimum wage. |
| 9 | Some of the deliveristas, or delivery |
| 10 | workers, they're |
| 11 | SENATOR RAMOS: And there's so much |
| 12 | wage theft. Sorry, Ligia, because we have |
| 13 | seven seconds. There's a lot of wage theft |
| 14 | going on as well, right? |
| 15 | MS. GUALLPA: Wage theft, unsafe |
| 16 | working conditions, no minimum wage, no |
| 17 | workers' compensation. All these issues have |
| 18 | put workers at the edge of literally dying |
| 19 | without any protections. |
| 20 | SENATOR RAMOS: Well, this is why we |
| 21 | had to create the Workplace Fatalities |
| 22 | Registry that we passed in both the Senate |
| 23 | and the Assembly, because we haven't been |
| 24 | counting how many people are dying on the job |

in New York. It's unconscionable.

Well, thank you so much. It was great
to see you guys. Thank you for everything
you're doing.

5 MS. GUALLPA: Thank you.
6 CHAIRWOMAN KRUEGER: Thank you.
7 Well, unless someone else wants to
8 raise a hand quickly, I'm going to actually
9 announce that we are closing down our second
10 hearing for the day.

11 I want to thank the last panel. As 12 I've thanked every panel, please know that 13 the full testimony you submit will be up 14 online, available to all members of the 15 Legislature and our staffs and the public to 16 review.

And you can actually still submit testimony even after these hearings today. So you still have time to submit testimony if you're out there and you've been motivated to wish to submit something.

With that, I want to thank everybody
who stayed with us off and on all day. Thank
you to my chairs and my rankers in both

| 1 | houses. We do not have a budget hearing |
|----|---|
| 2 | tomorrow, so don't think you have to get up |
| 3 | and tune into us at 9:30 tomorrow morning. |
| 4 | We do have another budget hearing on |
| 5 | Thursday, and that will be the Higher |
| 6 | Education budget hearing. |
| 7 | So again, thank you all for your hard |
| 8 | work and your participation. |
| 9 | If you're outside anywhere, get home |
| 10 | very safely. A lot of snow upstate, I hear. |
| 11 | Take care. |
| 12 | (Whereupon, the budget hearing |
| 13 | concluded at 7:17 p.m.) |
| 14 | |
| 15 | |
| 16 | |
| 17 | |
| 18 | |
| 19 | |
| 20 | |
| 21 | |
| 22 | |
| 23 | |
| 24 | |
