To Whom It May Concern:

Thank you for holding this session.

I'll be very brief, even though there is so much to be said and resolved.

My name is Daniel Stein. I lived in an 80/20 program for 18 years. At the very end of the contract, I was impelled to move. Unfortunately - a euphemism - this happened during the height of the pandemic.

I am well into the senior-hood of my life. With that, not uncommonly, I have contracted several diseases which have left me immunosuppressed.

To have to move at that time, July of last year - this time still - was and remains an unhappy - another euphemism - set of circumstances. My move has not been easy nor has it gotten any easier.

That's my own set of circumstances. Some people have even worse situations, due to lack of work or money or health, and to be placed in this situation is not only a misjudgment, it is a sadness of great depth.

There is much more to this situation(s) than I give word to. Please hear the pleas of an old man not only on his own behalf but on behalf of others who are in harm's way.

Thank you for your ear in this chronic and unhappy situation. Feel free to email if you wish.

Sincerely,
Daniel Stein
